Knowledge at the Crossroads? Lyn Yates, Peter Woelert, Victoria Millar, Kate O'Connor, 2016-10-26 There is much discussion about what needs to change in education institutions in the 21st century but less attention given to how core

disciplinary studies should be considered within that context This book is based on a major 4 year research study of history and physics in the changing environment of schools and universities in Australia Are these forms of knowledge still valuable for students Are they complementary to or at odds with the concerns about 21st century skills interdisciplinary and collaborative research teams employability and learner centred education How do those who work in these fields see changes in their disciplines and in their work environment And what are the similarities and differences between the experiences of teachers and academics in physics and those in history The book draws on interviews with 115 school teachers and university academics to provide new perspectives on two important issues Firstly how for the purposes of today s schools and universities can we adequately understand knowledge and knowledge building over time Secondly what has been productive and what has been counter productive in recent efforts to steer and manage the changes in Australia

The International Handbook of Teacher Ethos Fritz Oser,Karin Heinrichs,Johannes Bauer,Terence Lovat,2021-08-05 This volume is the first handbook that brings together cutting edge international research on teacher ethos from a broad array of disciplines The main focus will be on research that illustrates current conceptualizations of ethos and its importance for acting effectively and responsibly in and out of the classroom Research will encompass updated empirical and philosophical work that points to the difference in learning when teaching is practised as a moral activity instead of a merely functional one Authors are among the world s foremost researchers whose work crosses over from moral education into psychology neuroscience sociology philosophy pedagogy and curriculum drawing on these various fields of research Today more than ever we understand that teachers like other professionals need more than subject matter expertise for acting responsibly and doing their best in their daily duties Doing so requires possessing a guiding system of professional ethics moral positioning goals norms and values in other words a professional ethos While the handbook concentrates on Western domains in the current era the work will extend to other cultures and times as well With this comprehensive range of perspectives the book will be attractive and useful for researchers on teachers and teaching as well as for teacher educators curriculum designers educational officials and last but not least anyone who is interested in what makes a good teacher This volume is also a tribute to Fritz Oser a leading scholar in research on ethos who sadly passed away during the compilation of this handbook

Attitudes to World Englishes Hyejeong Ahn,2017-03-27 This book critically examines South Korean English teachers awareness of and attitude towards eight varieties of English and how they respond to the proposal of a World Englishes approach in their teaching practice It showcases the deeply rooted favouritism towards American English and illustrates how relevant challenges arising from this attitude can be addressed to meet the changing needs of future participants in international contexts This book argues that disclosing and questioning the hidden discursive practices embedded in the English education policy in South Korea may be the first step in raising awareness of and in changing negative attitudes towards embracing diversified Englishes The findings are systemically discussed in relation to the implications that

researching awareness and attitude has for pedagogical considerations and for teacher training This book aims to contribute to the field of WE where studies relating to the South Korean context are largely limited **International Business in a VUCA World** Rob van Tulder,Alain Verbeke,Barbara Jankowska,2019-10-21 Dedicated to Professor Peter Buckley OBE this volume of Progress in International Business Research explores the new challenges for MNEs SMEs small and medium sized enterprises and INVs International New Ventures emerging from this changing and increasingly unpredictable political economic social and technological VUCA world
