## **CHAPTER 01: SOCIOLOGY AND THE REAL WORLD**

---

### **MULTIPLE CHOICE**

1. Sociologists observe society:
- by studying the various parts of a society, and the ways they interact and influence each other.
  - by studying society as if it were a concrete object, in the same way a geologist studies rocks.
  - by using the preconceptions, assumptions, and beliefs that come from living in a society.
  - through the use of special scientific tools that provide unmediated access to the very heart of society.

ANS: A                      DIF: Difficult                      REF: Pages 9–10                      OBJ: What Is Sociology?  
MSC: Applying

2. Even though a small number of people have been trained academically as sociologists, we can all be described as “everyday sociologists” because:
- sociology is a part of human nature.
  - our parents taught us to be sociologists even before they sent us to school.
  - we are all members of society and therefore we have a great deal of background knowledge about how society works.
  - sociologists are really just observers of conventional wisdom.

ANS: C                      DIF: Easy                      REF: Page 9  
OBJ: Practical vs. Scientific Knowledge                      MSC: Remembering

3. Unlike sociologists, most people base their knowledge of the world on:
- expert knowledge based on surveys and interviews.
  - scientific journals and other publications that summarize the conclusions of professional researchers.
  - conventional wisdom, background knowledge, and personal experience.
  - the opinions of their parents and other family members.

OBJ: Practical vs. Scientific Knowledge                      MSC: Remembering

4. Sociology can be defined as the systematic and scientific study of human society and social behavior. Given this definition, which of the following levels of social structure best describes what sociologists might examine?
- Almost any level—from interactions between two people to large-scale institutions
  - Mass culture and large institutions
  - Relations between individuals
  - Large-scale social structures that involve significant numbers of people

**Society in Focus** William E. Thompson, Joseph V. Hickey, Mica L. Thompson, 2016-04-20

Examining the role of mass media and information technology in contemporary society, *Society in Focus* Eighth Edition emphasizes the increasing diversity and globalization of societies everywhere. It is designed to help students think clearly and critically about sociological issues, concepts, and methods. Questioning is at the heart of this approach, and as students read this book, they are encouraged to become part of the sociological enterprise rather than remain passive observers. Every element of the text is designed to challenge students to evaluate social issues and guided by the sociological imagination to clearly formulate their own positions. By asking questions that demand sociological and creative thought, students are reminded that their conclusions and decisions, as well as their non-decisions and inaction, may have important social consequences.

New to this edition: New coauthor Mica Thompson, an experienced teacher of introduction to sociology, brings a fresh new perspective as well as a wide array of different life experiences to this edition of *Society in Focus*. An expanded critical analysis in Chapter 1 introduces all forms of media and technology, and every chapter examines an aspect of their powerful social influence. Chapters 9, 16, and 17 have been updated to include the most recent worldwide financial and economic developments to help explain globalization and cultural diversity. Expanded application of feminist theory in every chapter to help students recognize the importance of gender diversity and the contributions of that
