queer subject both as the researcher and as the researched within and beyond the discipline and provides an intellectual space for the interdisciplinary and sometimes anti disciplinary linguistic science of gender and sexuality In three sections it respectively considers the development of hyper speciated queer linguistic subfields the interdisciplinarity of intersectional approaches to queer language and the institution of queer linguistic science both within and beyond the academy Taken together the essays in this collection confront the scientific and institutional discipline of linguistics from a queer vantage point one which is perhaps inherently interdisciplinary in its formulation
