Sociology Of Marx:

The Sociology of Marx Henri Lefebvre, 2015-02-18 The crucial importance of Karl Marx's thought for his own time and for ours is beyond dispute but there have always been two considerable impediments to understanding first the supposed complexity with which Marx articulated his ideas second the accretions which commentators disciples and hagiographers have built into the original structure Henri Lefebvre who has held the chair in sociology at Strasbourg and since 1965 in Paris has written an interpretative introduction which restores the clarity of outline and the vigor of the original Lefebvre also demonstrates by ample quotation that Marx far from being the tortuous and intractable stylist we had imagined is a masterful and witty writer But beyond this the reader is presented with a thesis Lefebvre argues that Marx was not a sociologist not an economist not yet an historian or a philosopher On the other hand one can find in his writings a sociology a political economy a theory of history and significant intimations of a philosophy The explanation of this apparent paradox lies in the fact that Marx was writing in a period prior to the compartmentalizing of science when the nature of things could still be grasped as a whole Thus through Marx we can obtain a coherent picture of reality as it was at the inception of the modern age An understanding of Marx is necessary for an understanding of our time This book is indispensable not only as a guide to Marx but for its sight into contemporary problems

Marxist Sociology Thomas Burton Bottomore, 1975-05 *Karl Marx on Society and Social Change* Karl Marx, Friedrich Engels, 1973 This volume presents those writings of Marx that best reveal his contribution to sociology particularly to the theory of society and social change The editor Neil J Smelser has divided these selections into three topical sections and has also included works by Friedrich Engels The first section The Structure of Society contains Marx's writings on the material basis of classes the basis of the state and the basis of the family Among the writings included in this section are Marx's well known summary from the Preface of A Critique of Political Economy and his equally famous observations on the functional significance of religion in relation to politics The second section is titled The Sweep of Historical Change The first selection here contains Marx's first statement of the main precapitalist forms of production The second selection focuses on capitalism its contradictions and its impending destruction Two brief final selections treat the nature of communism particularly its freedom from the kinds of contradictions that have plagued all earlier forms of societies The last section The Mechanisms of Change reproduces several parts of Marx's analysis of the mechanisms by which contradictions develop in capitalism and generate group conflicts Included is an analysis of competition and its effects on the various classes a discussion of economic crises and their effects on workers and Marx's presentation of the historical specifics of the class struggle In his comprehensive Introduction to the selections Professor Smelser provides a biography of Marx identifies the various intellectual traditions which formed the background for Marx's writings and discusses the selections which follow The editor describes Marx's conception of society as a social system the differences between functionalism and Marx's theories and the dynamics of economic and political change as analyzed by

Marx *Marxism Versus Sociology* Martin Shaw,1974 This is a partisan guide to reading It is intended to aid sociology students to work towards and within the tradition of marxism Max Weber and Value Free Sociology John Lewis,1975

Crisis and Change Today Peter Knapp,Alan Spector,2011-01-16 Crisis and Change Today provides a solid introduction to Marxist social theory The work s unique voice is expressed in its Socratic dialogic approach structured around forty questions that students have about society and social change Topics range from theories of history economics unemployment racial oppression the state fascism the collapse of the Soviet bloc and points of convergence and difference between the dialectical approach and other approaches to social science The content and tone of the work invites students to evaluate various traditional and current explanations of social institutions and social processes and encourages them to weigh the debates and investigate further The first edition was very well received Distinguished Scholarship Award of the Section on Marxist Sociology of the ASA and the second edition has been thoroughly revised and updated to be relevant for students today Though the first edition was written during the wake of the fall of the Berlin Wall and the collapse of the Soviet Union the growing gap between the rich and the poor and the economic crisis have generated more interest in using Marxist analysis both as a tool to analyze and understand capitalism and the weaknesses of past Marxist praxis **Selected**

Understanding Classical Sociology John A Hughes,Wes Sharrock,Peter J Martin,2003-03-18 Praise for the First Edition Totally reliable the authors have produced a book urgently needed by all those charged with introducing students to the classics quite indispensable Times Higher Education Supplement This is a fully updated and expanded new edition of the successful undergraduate text Providing a lucid examination of the pivotal theories of Marx Durkheim and Weber the authors submit that these figures have decisively shaped the discipline They show how the classical apparatus is in use even though it is being directed in new ways in response to the changing character of society Written with the needs of undergraduates in mind the text is essential reading for students in sociology and social theory **Marx and Mead** Tom Goff,2014-08-13 It has often been suggested that a resolution of issues generated by the sociological study of ideas might be reached through a synthesis of specific insights to be found in the works of Karl Marx and George Herbert Mead The present study originated in an investigation of this hypothesis particularly as it bears on the central issue of sociological relativism The author began by delineating the specific problems such a synthesis might resolve and in the process became aware that the nature and depth of differences separating the sociology of knowledge and its critics have never been fully analysed or understood This volume therefore opens with a clarification of these differences a clarification which leads to considerable redefinition of the problem as it has traditionally been understood by critics and proponents of the discipline alike The author points out in particular that it is less a debate than a thorough going contradiction which characterizes the literature dealing with the inadequacies of various formulations of the sociology of knowledge In consequence the study of Marx and Mead presented here is not

simply yet another effort to discover a perspective which will satisfy the particular demands of the critics Rather it argues that an adequate perspective fully consistent with the central insight of the discipline that knowledge is radically social in character is to be found in a synthesis of elements in the perspectives of Marx and Mead **Alienation; from Marx to Modern Sociology** Joachim Israel,1971 *Marx and Mead (RLE Social Theory)* Tom W. Goff,2014-08-13 It has often been suggested that a resolution of issues generated by the sociological study of ideas might be reached through a synthesis of specific insights to be found in the works of Karl Marx and George Herbert Mead The present study originated in an investigation of this hypothesis particularly as it bears on the central issue of sociological relativism The author began by delineating the specific problems such a synthesis might resolve and in the process became aware that the nature and depth of differences separating the sociology of knowledge and its critics have never been fully analysed or understood This volume therefore opens with a clarification of these differences a clarification which leads to considerable redefinition of the problem as it has traditionally been understood by critics and proponents of the discipline alike The author points out in particular that it is less a debate than a thorough going contradiction which characterizes the literature dealing with the inadequacies of various formulations of the sociology of knowledge In consequence the study of Marx and Mead presented here is not simply yet another effort to discover a perspective which will satisfy the particular demands of the critics Rather it argues that an adequate perspective fully consistent with the central insight of the discipline that knowledge is radically social in character is to be found in a synthesis of elements in the perspectives of Marx and Mead **The Antinomies of Classical Thought: Marx and Durkheim (Theoretical Logic in Sociology)** Jeffrey Alexander,2014-04-24 This volume challenges prevailing understanding of the two great founders of sociological thought In a detailed and systematic way the author demonstrates how Marx and Durkheim gradually developed the fundamental frameworks for sociological materialism and idealism While most recent interpreters of Marx have placed alienation and subjectivity at the centre of his work Professor Alexander suggests that it was the later Marx s very emphasis on alienation that allowed him to avoid conceptualizing subjectivity altogether In Durkheim s case by contrast the author argues that such objectivist theorizing informed the early work alone and he demonstrates that in his later writings Durkheim elaborated an idealist theory that used religious life as an analytical model for studying the institutions of secular society Marxist Sociology Revisited Martin Shaw,1985-07-29 Sociology, Phenomenology and Marxian Analysis Barry Smart,2013-10-15 Sociology is an established academic discipline but there has been continuing debate over its status as a science and the nature of its subject matter This led to the emergence of a phenomenological sociology and to critiques of positivist sociology This critical reappraisal of the relevance of Marxian analysis for a science of society shows how these developments within sociology have had their counterpart in Marxism The author analyses the status of Marx s work and the Marxist tradition in sociology He focuses upon those concerns which are common to both Marxian analysis and sociology the question of subjectivity the nature of social reality

and the dialectical relationship of the doing or practice of a science of society to the social world within which such social analyses are situated Originally published in 1976 Sociology and Socialism T. B. Bottomore,1984 Karl Marx T. B. Bottomore,1973-01-01 **Social Analysis** Victor Leonard Allen,1975 This book extends the current increasing arguments about the ability of Western sociology to explain the contradictions and crises in Western capitalism It argues for the rejection of Western sociology and presents an alternative body of analysis to it It contends that the purpose of social theory must be clarify and explain the complexities of social reality as they are experienced by ordinary people that Western sociology fails to do this because it rests on an assumption which grossly distorts that reality The first part of the book presents the general case for the rejection of Western sociology The second part shows that the dominant models in sociology particularly as they are used in the study of organizations are based on a misrepresentation of social reality through their assumption that societies are relatively static basically unchanging phenomena It illustrates that this misrepresentation has led to a concentration on trivia and a diversion from any substantial issues which might result in unsettling questions being asked It emphasizes that Western sociology has the important political consequence of making it appear that the source of all social problems lies in the trivia and not in the structure of society itself The third part takes the book further than most contemporary criticisms of Western sociology by presenting Marxism as a dynamic logically sound theory which could displace Western sociology at every level of analysis Historical Materialism Nikolai Bukharin,1925
