What is S d The Hebrew word S d can be interpreted in at least two ways as a secret or mystery or as a congregation of people taking part in a secret or mystery in a formal manner Did Jesus belong to the sect of the Nazarenes or did he simply come from Nazareth Is there any esoteric relationship between the sacrifice of Jesus and the death of the mythological Adonis Is the similarity between the terms Adonis and Adonai arbitrary or just one of the many pieces of evidence hinting at the commonalities that the Greek and Hebrew mystery traditions shared Penetrate if you dare into this highly veiled and hermetic study of the Mysteries of Adoni and the figure of Jesus of Nazareth that Samuel Fales Dunlap bestowed upon the world in 1861 Now and for the first time this book has been rendered almost accessible to the profane by the copious annotations that Sonchis Triacorda has delivered for this brand new and greatly embellished edition E GIBIL is now pleased to present a thoroughly revamped edition of the two instalments of these all time classics of the comparative study of religions S d The Mysteries of Adoni and S d The Son of Man now including many new illustrations and annotations that we are sure will appeal greatly to all true adepts of the esoteric learning *Sod* Samuel Fales Dunlap,2018-06-29 **Sod** S. The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete) Helena Petrovna Blavatsky, 2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett's work ceased to be esoteric from the moment they were made public nor did the

book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budh ism
