**Christian G. Meyer**

## **Soft Coal Hard Choices The Economic Welfare Of Bituminous Coal Miners 1890 193:**

**Soft Coal, Hard Choices** Price Van Meter Fishback,1992 Making use of economic theory and statistics this study examines the economic lives of American coal miners in the early part of the 20th century It emphasizes the competition among employers for labour legal rights the state of the labour market and the impact of trade unions

**Soft Coal, Hard Choices** ,1992 Making use of economic theory and statistics this study examines the economic lives of American coal miners in the early part of the 20th century It emphasizes the competition among employers for labour legal rights the state of the labour market and the impact of trade unions

**Soft Coal, Hard Choices** Price V. Fishback,1992-05-28 While most studies of labor in the coal industry focus on the struggle to organize unions this work offers a more diverse and quantitative examination of the labor market It regards the economic lives of the bituminous coal miners in the early twentieth century Fishback s analytic framework encompasses competition among employers for labor the legal environment institutional development in response to transactions costs as well as the impact of labor unions on the coal industry Utilizing economic theory and statistics Fishback reveals the models hidden in the descriptions of events and then tests their internal consistency as well as the hypotheses they generate

Black Americans and Organized Labor Paul D. Moreno,2006-01-01 In Black Americans and Organized Labor Paul D Moreno offers a bold reinterpretation of the role of race and racial discrimination in the American labor movement Moreno applies insights of the law and economics movement to formulate a powerfully compelling labor race theorem of elegant simplicity White unionists found that race was a convenient basis on which to do what unions do control the labor supply Not racism pure and simple but the economics of discrimination explains historic black absence and under representation in unions Moreno s sweeping reexamination stretches from the antebellum period to the present integrating principal figures such as Frederick Douglass and Samuel Gompers Isaac Myers and Booker T Washington and W E B Du Bois and A Philip Randolph He traces changing attitudes and practices during the simultaneous black migration to the North and consolidation of organized labor s power through the confusing and conflicted post World War II period during the course of the civil rights movement and into the era of affirmative action Maneuvering across a wide span of time and a broad array of issues Moreno brings remarkable clarity to the question of the importance of race in unions He impressively weaves together labor policy and African American history into a cogent persuasive revisionist study that cannot be ignored
