Soft War:

Electronic Iran Niki Akhavan, 2013-12-25 Electronic Iran introduces the concept of the Iranian Internet a framework that captures interlinked transnational networks of virtual and offline spaces Taking her cues from early Internet ethnographies that stress the importance of treating the Internet as both a site and product of cultural production accounts in media studies that highlight the continuities between old and new media and a range of works that have made critical interventions in the field of Iranian studies Niki Akhavan traces key developments and confronts conventional wisdom about digital media in general and contemporary Iranian culture and politics in particular Akhavan focuses largely on the years between 1998 and 2012 to reveal a diverse and combative virtual landscape where both geographically and ideologically dispersed individuals and groups deployed Internet technologies to variously construct defend and challenge narratives of Iranian national identity society and politics While it tempers celebratory claims that have dominated assessments of the Iranian Internet Electronic Iran is ultimately optimistic in its outlook As it exposes and assesses overlooked aspects of the Iranian Internet the book sketches a more complete map of its dynamic landscape and suggests that the transformative powers of digital media can only be developed and understood if attention is paid to both the specificities of new technologies as well as the local and transnational contexts in which they appear

Softwar Matthew Symonds, 2013-04-30 In a business where great risks huge fortunes and even bigger egos are common Larry Ellison stands out as one of the most outspoken driven and daring leaders of the software industry The company he cofounded and runs Oracle is the number one business software company perhaps even more than Microsoft s Oracle s products are essential to today s networked world But Oracle is as controversial as it is influential as feared as it is revered thanks in large part to Larry Ellison Though Oracle is one of the world s most valuable and profitable companies Ellison is not afraid to suddenly change course and reinvent Oracle in the pursuit of new and ever more ambitious goals Softwar examines the results of these shifts in strategy and the forces that drive Ellison relentlessly on In Softwar journalist Matthew Symonds gives readers an exclusive and intimate insight into both Oracle and the man who made it and runs it As well as relating the story of Oracle s often bumpy path to industry dominance Symonds deals with the private side of Ellison s life From Ellison s troubled upbringing by adoptive parents and his lifelong search for emotional security to the challenges and opportunities that have come with unimaginable wealth Softwar gets inside the skin of a fascinating and complicated human being With unlimited insider access granted by Ellison himself Symonds captures the intensity and some would say the recklessness that have made Ellison a legend The result of more than a hundred hours of interviews and many months spent with Ellison Softwar is the most complete portrait undertaken of the man and his empire a unique and gripping account of both the way the computing industry really works and an extraordinary life Despite his closeness to Ellison Matthew Symonds is a candid and at times highly critical observer And in perhaps the book s most unusual feature Ellison responds to Symonds s portrayal in the form of a running footnoted

Persian Service Annabelle Sreberny, Massoumeh Torfeh, 2014-01-16 Rumour and speculation in Iran have been rife for generations that the BBC has had a hand in every political upheaval in the country In this vein the BBC has become a notable element in the complex and tortured narrative of Anglo Iranian relations The BBC Persian Service was initially developed in 1940 to prepare and broadcast British war time propaganda And it has since been seen by many in Iran as an integral part of British policy making in the region Thirty years ago the Shah of Iran regarded the BBC Persian Service radio as his enemy number one and held it responsible for promoting the revolution of 1979 Only a couple decades earlier the BBC Persian Service was widely accused for having been complicit in the CIA led 1953 coup against Prime Minister Mohammad Musaddiq And a decade earlier the BBC Persian Service was strongly linked to the British planned removal of Reza Shah in 1941 The BBC Persian service has frequently been perceived as an entity which was not simply a vehicle to record the changes occurring in Iran and throughout the Middle East but rather an active agent of change In this book Annabelle Sreberny and Massoumeh Torfeh track the history of the BBC Persian Service critically analysing both the assumptions that the BBC is a standard bearer for objective reporting and representations of it as a simple tool of Western interests Also examining the history of relations between the Foreign Office and the BBC Persian Service they demonstrate that these have never been pre defined or rigid Instead they explore how both institutions have moved from an interest in what can crudely be called state orchestrated propaganda to a more subtle advocacy of fair and balanced journalism as the best agent of British values and influence

The Ethics of Special Ops Deane-Peter Baker, Roger Herbert, David Whetham, 2023-11-30 The field of military ethics has generally been attentive to emerging trends in modern warfare Cyber robotics and AI for example have inspired an abundant and flourishing literature One trend however has been largely overlooked the emergence of special operations as a prominent instrument of statecraft Drawing extensively on historical cases and first hand experience the authors of this book call attention to qualities inherent in special operations and special operators that challenge the moral framework which has long informed conventional military operations Moral theorists will find this analysis provocative while practitioners those who conduct or oversee special operations and have an interest in the moral wellbeing of special operators can put the authors insights to practical use Those who simply view with fascination the opaque world of special operations will find this book illuminating

Iran Rising Amin Saikal, 2019-02-05 An authoritative account of how and why the Islamic Republic has survived to become a critical player in the Middle East and the world When Iranians overthrew their monarchy rejecting a pro Western shah in favor of an Islamic regime many observers predicted that revolutionary turmoil would paralyze the country for decades to come Yet forty years after the 1978 79 revolution Iran has emerged as a critical player in the Middle East and the wider world as demonstrated in part by the 2015 international nuclear agreement In Iran Rising renowned Iran specialist Amin Saikal describes how the country has managed to survive despite ongoing domestic struggles Western sanctions and countless other serious challenges Saikal explores Iran s recent history beginning with the revolution which set

in motion a number of developments including war with Iraq precarious relations with Arab neighbors and hostilities with Israel and the United States He highlights the regime's agility as it navigated a complex relationship with Afghanistan during the Soviet invasion survived the Gulf wars and handled fallout from the Iraqi and Syrian crises Such success Saikal maintains stems from a distinctive political order comprising both a supreme Islamic leader and an elected president and national assembly which can fuse religious and nationalist assertiveness with pragmatic policy actions at home and abroad But Iran's accomplishments including its nuclear development and ability to fight ISIS have cost its people who are desperately pressuring the ruling clerics for economic and social reforms changes that might in turn influence the country's foreign policy Amid heightened global anxiety over alliances terrorism and nuclear threats Iran Rising offers essential reading for understanding a country that more than ever is a force to watch

Paths Made by Walking Amina Tawasil, 2024 There has been as yet very little written about educated women who are aligned with the Islamic Republic of Iran and part of the inner circle of the state This book takes an entirely new approach to these women and works to disrupt stereotypes that portray them as mouthpieces of the regime by untangling the minutiae of their daily lives and connecting it to their aspirations Rose Wellman author of *Feeding Iran Shi'i Families and the Making of the Islamic Republic* Tawasil's discussion of veiling and staying out of sight is the most complex comprehensive insightful grounded treatment I have ever seen Her understanding of the howzevi women's perspectives of the meaning of their veiling of their purposes their goals for their religious selves is outstanding We do not have anything like this a study of the world of female religious students and teachers as women striving to become the religious selves they want to attain Mary Hegland author of *Days of Revolution Political Unrest in an Iranian Village* What can women's scholastic pursuits tell us about what building an Islamic state looks like for women who are loyal to its project And what can an ethnographic study of women who are using Islamic education to transform their conditions in Iran teach us about our own humanity *Paths Made by Walking* provides insight into these questions by examining how Iranian women have participated in Islamic education after the 1979 Revolution The first ethnography on Iranian howzevi seminarian women it reveals how ideologies of womanhood institutions and Islamic practices have played a pivotal role in religiously conservative women's mobility in the Middle East Based on several months of participant observation *Paths Made by Walking* presents an ethnography of the seminarian women whose Islamic education has propelled some of them into powerful positions in Iran from close ties with the state's Supreme Leader and Chief Justice to membership in the Basij voluntary military organization At the same time these women often choose to remain hidden or to otherwise follow practices that seem inscrutable or illogical from a framework of politicized resistance By centering the howzevi women's senses of self and revealing their complex interpretations of their beliefs Amina Tawasil offers a fresh perspective on forms of feminine identity that do not always mirror supposedly universal desires for recognition autonomy leadership or authority Taking readers into the classrooms living rooms and compounds where howzevi women participate in

intellectual discourse this book invites readers to reconsider their conceptualizations of the women who support the Islamic Republic of Iran *Global Cultures of Contestation* Esther Peeren, Robin Celikates, Jeroen de Kloet, Thomas Poell, 2017-11-30 This book guides the reader through the many complications and contradictions that characterize popular contestation today focusing on its socio political cultural and aesthetic dimensions The volume recognizes that the same media and creative strategies can be used to pursue very different causes as the anti gay marriage Manif Pour Tous movement in France makes clear The contributors are scholars from the humanities and social sciences who analyze protests in particular regions including Egypt Iran Australia France Spain Greece and Hong Kong and transnational protests such as the NSA leaks and the mobilization of migrants and refugees Not only the specificity of these protest movements is examined but also their tendency to connect and influence each other as well as the central often ambiguous role global digital platforms play in this

Faris, Babak Rahimi, 2015-11-20 Social Media in Iran is the first book to tell the complex story of how and why the Iranian people including women homosexuals dissidents artists and even state actors use social media technology and in doing so create a contentious environment wherein new identities and realities are constructed Drawing together emerging and established scholars in communication culture and media studies this volume considers the role of social media in Iranian society particularly the time during and after the controversial 2009 presidential election a watershed moment in the postrevolutionary history of Iran While regional specialists may find studies on specific themes useful the aim of this volume is to provide broad narratives of actor based conceptions of media technology an approach that focuses on the experiential and social networking processes of digital practices in the information era extended beyond cultural specificities Students and scholars of regional and media studies will find this volume rich with empirical and theoretical insights on the subject of how technologies shape political and everyday life *Media and Power in Modern Iran* Emily L. Blout, 2023-01-26 Successive Iranian leaders have struggled to navigate the fraught political cultural space of media in the Islamic Republic skirting the line between embracing Western communications technologies and rejecting them between condemning social networking sites as foreign treachery and promoting themselves on Facebook How does a regime that originally derived its hegemony from the ability to mass communicate its ideology protect its ideological dominance in a media environment defined by hybridity hyper connectivity and near constant change More broadly what is the role of media in the construction and maintenance of power in Iran This book addresses these questions by examining the institutions policies and discourses of two political regimes over the course of nearly eight decades Drawing from over 3 000 primary source documents and digital artifacts in Persian and English including formerly classified material hidden deep in the archives this book offers a history of media in Iran across political regimes and media paradigms from the public's first encounter with mass communication in the 1940s to the dawn of digital media in the 1990s to internet and mobile telephony today At the same time the book trains a keen eye on contemporary politics With foundations in sociology and political
