**The Dark Wing** Walter H. Hunt, 2002-11-18 The zor is just one of the alien races that humanity encounters when it travels to the stars and from the very first meeting it has been all out war For many years the conflicts have been sporadic usually ending with an Earth concession and a treaty But the zor does not respect mankind and has no any intention of honoring the agreements When the zor decide to mount a surprise attack against human colonies the normally self absorbed government of Earth realizes that something must be done before it is too

late A controversial scholar by the name of Marais is brought in A nonmilitary man he has spent his entire life studying the zor and claims to have a plan to deal with them once and for all With so few options remaining Marais is put in charge of the battlefleet Earth just wants the threat neutralized and would be happy with a stalemate but Marais has other ideas He believes himself to be the mythic Dark Wing destined to exterminate the zor *Planet Faeton. **The Dark Crusade** Walter H. Hunt, 2006-05-30 *The Dark Path* introduced a new alien force into the delicate balance of power This force was the actual puppetmaster of the human zor war and now wishes to bring both worlds under its madness inducing shadow *The Dark Ascent* brought into focus a secret conspiracy that is disrupting the balance of power on both a military and metaphysical level But the same ancient philosophy of the zor race that prophesized the *Dark Wing* has also foreseen a hero that will meet the new menace a hero now mystically embodied in a rebellious space commodore by the name of Jackie Lappierre Now in *The Dark Crusade* as armadas clash and outposts fall the overly confident alien menace is forced to confront a zor human alliance that has been warned their covert and insidious plans of infiltration now exposed but all is not as it seems to be The vuhl menace may not be the ultimate enemy and the all powerful puppetmasters that have lurked in the shadows have entered the endgame where the mysteries of alien prophecies may have already determined the outcome Though victory is hardly attained by either side in *The Dark Crusade* the page turning and thought provoking climax will forever alter the fate of sentient life in the galaxy

*The Call of Abaddon* Colin Searle, 2025-07-25 Growing up is tough. But growing up with an ancient alien obelisk that wants to possess you? That's a nightmare. Meet Jason, 18-year-old salvager scraping by in the crumbling underbelly of New Toronto, a sprawling city arcology on the radiation-blasted Earth's surface. Life was already a battle for survival until Jason's dormant psychic abilities erupt and spiral out of control, triggered by a mysterious obelisk known only as the ABADDON BEACON. With the obelisk's crazed whispers clawing at his mind, Jason and his companions are thrust into a desperate race to find Abaddon before it consumes him. Problem is, the Abaddon Beacon isn't some forgotten relic; it's buried deep within a top-secret United Earth Federation lab, locked away for over a century, the subject of dark civilization-altering research. And Jason isn't the only one hearing its call. The Emperor of the Solar Empire has his own sinister plans for the power of the Abaddon Beacon, and with his invasion fleets on the verge of striking Earth itself, the stakes have never been higher. With such a dangerous opponent, how can Jason hope to reach Abaddon, and even if he can, what cosmic horrors might be unleashed if he does? *The Call of Abaddon* is a modern mythological tale delivering a wild pulse-pounding and thought-provoking adventure, blending the political intrigue of *Dune*, the psychic fugitive chase of *Firestarter*, and the explosive world-building of *The Expanse*.

*Sun Tzu in Space* Gregory D. Miller, 2023-03-14 *Sun Tzu in Space* provides a novel way of thinking about the future, connecting international relations, history, and science fiction to better understand some of the various paths for future human activities in space. Simultaneously, it provides a way to use science fiction to help students and the public learn about international relations and the cyclical nature of history. Author Gregory D. Miller uses case studies, history, and foundational international relations concepts to draw big or at least possible conclusions about humanity's future in space. By combining the lessons of science fiction and the facts of the past, Miller presents possible outcomes with a goal of illuminating where things could go wrong or wonderfully right as humans venture forth into space in greater numbers in the decades to come.
