Soldiers Life General Sir Ian Hamilton 1853 To 1947:

A Soldier's Life John Lee, 2000-01-01 Ian Hamilton is chiefly famous for the devastating failure of the Gallipoli campaign in 1915 John Lee's biography reveals that Gallipoli was always doomed and that Hamilton deserves to have his entire career reassessed *The British Army Regular Mounted Infantry 1880-1913* Andrew Winrow, 2016-11-03 The regular Mounted Infantry was one of the most important innovations of the late Victorian and Edwardian British Army Rather than fight on horseback in the traditional manner of cavalry they used horses primarily to move swiftly about the battlefield where they would then dismount and fight on foot thus anticipating the development of mechanised infantry tactics during the twentieth century Yet despite this apparent foresight the mounted infantry concept was abandoned by the British Army in 1913 just at the point when it may have made the transition from a colonial to a continental force as part of the British Expeditionary Force Exploring the historical background to the Mounted Infantry this book untangles the debates that raged in the army Parliament and the press between its advocates and the supporters of the established cavalry With its origins in the extemporised mounted detachments raised during times of crisis from infantry battalions on overseas imperial garrison duties Dr Winrow reveals how the Mounted Infantry model unique among European armies evolved into a formalised and apparently highly successful organisation of non cavalry mounted troops He then analyses why the Mounted Infantry concept fell out of favour just eleven years after its apogee during the South African Anglo Boer War of 1899 1902 As such the book will be of interest not only to historians of the nineteenth century British army but also those tracing the development of modern military doctrine and tactics to which the Mounted Infantry provided successful if short lived inspiration Jean Lady Hamilton, 1861-1941 Celia Lee, 2020-12-14 A pleasure to read It's predominantly about the life of Jean Hamilton's husband Ian as an officer during the Great War and life for both before and after UK Historian Jean Lady Hamilton's diaries remained forgotten and hidden in the Liddell Hart Centre for Military Archives King's College London for fifty years The story begins with the young couples wedding a dazzling bride Jean Muir marrying a star struck Major Ian Hamilton The daughter of the millionaire businessman Sir John Muir Jean had all the money whilst Hamilton was penniless Having spent their early married years in India the Hamiltons returned and set up house in the prestigious Hyde Park area of London also eventually buying Lullenden Manor East Grinstead that they purchased as a country home from Winston Churchill when he could no longer afford it Churchill in particular was like family in the Hamiltons home he used to go there and practice his speeches and painted alongside Jean to whom he sold his first painting Jean chronicled Ian's long army career that culminated in the Gallipoli campaign in 1915 The failure there ended her husband's distinguished career and almost ended Churchill's as he had to leave his job as First Lord of the Admiralty This account is Lady Hamilton's attempt to chronicle her husband's life as a top flight but penniless soldier this at a time when young Winston Churchill was emerging from his own distinguished and very colourful military career to enter a life of politics Jean Hamilton is one of those larger than life people

The Great War and the Middle East Rob Johnson, 2016-08-18 The First World War in the Middle East swept away five hundred years of Ottoman domination It ushered in new ideologies and radicalised old ones from Arab nationalism and revolutionary socialism to impassioned forms of atavistic Islamism It created heroic icons like the enigmatic Lawrence of Arabia or the modernizing Atat rk and destroyed others And it completely re drew the map of the region forging a host of new nation states including Turkey Iraq Syria Jordan Lebanon and Saudi Arabia all of them with the exception of Turkey under the protection of the victor powers Britain and France For many the self serving intervention of these powers in the region between 1914 and 1919 is the major reason for the conflicts that have raged there on and off ever since Yet many of the most commonly accepted assertions about the First World War in the Middle East are more often stated than they are truly tested Rob Johnson military historian and former soldier now seeks to put this right by examining in detail the strategic and operational course of the war in the Middle East Johnson argues that far from being a sideshow to the war in Europe the Middle Eastern conflict was in fact the centre of gravity in a war for imperial domination and prestige Moreover contrary to another persistent myth of the First World War in the Middle East local leaders and their forces were not simply the puppets of the Great Powers in any straightforward sense The way in which these local forces embraced resisted succumbed to disrupted or on occasion overturned the plans of the imperialist powers for their own interests in fact played an important role in shaping the immediate aftermath of the conflict and in laying the foundations for the troubled Middle East that we know today

Gallipoli Jenny Macleod, 2015-07-23 The British led Mediterranean Expeditionary Force that attacked the Ottoman Empire at Gallipoli in 1915 was a multi national affair including Australian New Zealand Irish French and Indian soldiers Ultimately a failure the campaign ended with the withdrawal of the Allied forces after less than nine months and the unexpected victory of the Ottoman armies and their German allies In Britain the campaign led to the removal of Churchill from his post as First Lord of the Admiralty and the abandonment of the plan to attack Germany via its soft underbelly in the

East Thereafter it was largely forgotten on a national level commemorated only in specific localities linked to the campaign In post war Turkey by contrast the memory of Gallipoli played an important role in the formation of a Turkish national identity celebrating both the ordinary soldier and the genius of the republic s first president Mustafa Kemal The campaign served a similarly important formative role in both Australia and New Zealand where it is commemorated annually on Anzac Day For the southern Irish meanwhile the bitter memory of service for the King in a botched campaign was forgotten for decades Shaped initially by the imperatives of war time and the needs of the grief stricken and the bereft the memory of Gallipoli has been re made time and again over the last century For the Turks an inspirational victory for many on the Allied side a glorious and romantic defeat for others still an episode best forgotten Gallipoli has meant different things to different people serving by turns as an occasion of sincere and heartfelt sorrow an opportunity for separatist and feminist protest and a formative influence in the forging of national identities

Weapon of Choice Matthew Ford,2017-02-15 This book examines Western military technological innovation through the lens of developments in small arms during the twentieth century These weapons have existed for centuries appear to have matured only incrementally and might seem unlikely technologies for investigating the trajectory of military technical change Their relative simplicity however makes it easy to use them to map patterns of innovation within the military industrial complex Advanced technologies may have captured the military imagination offering the possibility of clean and decisive outcomes but it is the low technologies of the infantryman that can help us develop an appreciation for the dynamics of military technical change Tracing the path of innovation from battlefield to back office and from industry to alliance partner Ford develops insights into the way that small arms are socially constructed He thereby exposes the mechanics of power across the military industrial complex This in turn reveals that shifting power relations between soldiers and scientists bureaucrats and engineers have allowed the private sector to exploit infantry status anxiety and shape soldier weapon preferences Ford s analysis allows us to draw wider conclusions about how military innovation works and what social factors frame Western military purchasing policy from small arms to more sophisticated and expensive weapons

Masquerade Mark M. Hull,Vera Moynes,2017-05-18 Phyllis Ursula James Nora O Mara R is n N Mheara Like her name the life of Rosaleen James changed many times as she followed a convoluted path from abandoned child to foster daughter of an aristocratic British family to traitor during World War II to her emergence as a full Irish woman afterward In *Masquerade*

authors Mark M Hull and Vera Moynes tell James's story as it unfolds against the backdrop of the most important events of the twentieth century. James's life both real and imagined makes for an incredible but true story. By altering her identity to suit the situation, James manipulated almost everyone she encountered: the German intelligence service, the Nazi propaganda broadcasting service, British intelligence, and various Irish cultural groups. She was in a liaison with Irish writer Francis Stuart and with him provided a voice for Nazi radio programs aimed at neutral Ireland. She served as the pseudo Irish expert for German espionage missions and participated in the failed, almost comical effort to recruit Irish prisoners of war to join the Nazis against Great Britain. Quite a series of performances considering her only contact with Ireland had been a weeklong visit in 1937. Immediately after the war, James was wanted by British intelligence as a renegade traitor, but her case was quickly squelched by the British government. Drawing on an assumed wartime persona, she became fluent in Irish Gaelic and organized a number of conferences for which she won grants from the Irish government. James garnered wider attention in 1992 with her autobiography published in Gaelic in which she claimed that the Holocaust was a myth, a belief she maintained until her death in 2013. In documenting James's life of deception, Hull and Moynes masterfully analyze how an intellectually gifted child turned traitor to her country and convincingly rebranded herself as an Irish patriot and intellectual while denying historical reality. The story of Rosaleen James reminds us that reality may be much less or more than what meets the eye and ear.

Artillery in the Great War Paul Strong, Sanders Marble, 2011-05-18 A year by year examination of key WWI battles and how the ongoing advances in artillery shaped strategy, tactics, and operations includes battlefield maps. World War I is often said to have been an artillery war, yet the decisive role artillery played in shaping military decisions and therefore the war itself has rarely been examined. *Artillery in the Great War* traces the development of this all-important technology, the differing approaches to its use, the many innovations it underwent on both sides, and how those approaches and innovations in turn effected key battles such as the Battle of the Somme. This highly readable and informative history is perfect for any reader interested in understanding the legacy of World War I or the evolution of modern warfare.

Gallipoli 1915 Peter Doyle, 2011-09-30 In a campaign part sponsored by First Lord of the Admiralty Winston Churchill the Battle of Gallipoli in 1915 remains one of the most resounding Allied defeats of the First World War with both the Allied and Ottoman armies suffering in excess of 200 000 casualties Despite this many believed it

would be a sure fire success due to the preceding naval campaign but increased losses at sea prompted the Allies to send in ground troops Comprising a large ANZAC contingent on their first major operation they were tasked with invading and eliminating the formidable Ottoman artillery On 25 April 1915 they landed on five stretches of beach in open boats The casualties from the first landing were horrific of the first 200 men out of the boats only twenty one reached inland the rest being mown down by Ottoman machine guns Casualties only accelerated from there for both sides until the Allies were forced to evacuate Gallipoli 1915 takes you to the front line and beyond ensuring that you will appreciate the ultimate sacrifice made by these brave soldiers
