Professional Journal of the United States Army, 1998 **British Popular Culture and the First World War** Jessica Meyer, 2008-05-31 Much of the scholarship examining British culture of the First World War focusses on the high culture of a limited number of novels memoirs plays and works of art and the cultural reaction to them This collection by focussing on the cultural forms produced by and for a much wider range of social groups including veterans women museum visitors and filmgoers greatly expands the debate over how the war was represented by participants and the meanings ascribed to it in cultural production Showcasing the work of both established academics and emerging scholars of the field this book covers aspects of British popular culture from the material cultures of food and clothing to the representational cultures of literature and film The result is an engaging and invigorating re-examination of the First World War and its place

Sights, Sounds, Memories Ian van der Waag, 2020-12-15 The Second World War involved most of the countries of the world and left so many millions dead and maimed disorganised and devastated through personal and communal loss This book recovers some of South Africa s soldiers experiences from the physical and mental debris of the war Individuals are important their lives used as lenses give us colour and texture and their voices tell the stories of ordinary soldiers Using their memoirs and diaries the vitality of their endeavours is reasserted their successes and failures victories and indecencies are re examined and their magnanimity and the general triumph of the human spirit are celebrated Reconstructing Conflict Dr Colin Flint, Dr Scott Kirsch, 2012-11-28 Reconstruction the rebuilding of state economy culture and society in the wake of war is a powerful idea and a profoundly transformative one From the refashioning of new landscapes in bombed out cities and towns to the reframing of national identities to accommodate changed historical narratives the term has become synonymous with notions of post conflict society it draws much of its rhetorical power from the neat demarcation both spatially and temporally between war and peace The reality is far more complex In this volume reconstruction is identified as a process of conflict and of militarized power not something that clearly demarcates a post war period of peace Kirsch and Flint bring together an internationally diverse range of studies by leading scholars to examine how periods of war and other forms of political violence have been justified as processes of necessary and valid reconstruction as well as the role of war in catalyzing the construction of new political institutions and destroying old regimes Challenging the false dichotomy between war and peace this book explores instead the ways that war and peace are mutually constituted in the creation of historically specific geographies and geographical knowledges *Soviet Women on the Frontline in the Second World War* R. Markwick, E. Charon Cardona, 2012-06-26 This is the first comprehensive study in English of Soviet women who fought against the genocidal misogynist Nazi enemy on the Eastern Front during the Second World War Drawing on a vast array of original archival memoir and published sources this book captures the everyday experiences of Soviet women fighting living and dying on the front The Legacy of the Great War Jay Winter, 2009-10-26 In late 2007 and early 2008 world renowned historians gathered in Kansas City for a series of public forums on World War I Each of the five events focused on a particular topic and featured spirited dialogue between its prominent participants In spontaneous exchanges the eminent scholars probed each other s arguments learned from each other and provided insights not just into history but also into the way scholars think about their subject alongside and at times in conflict with their colleagues Representing a fourth generation of writers on the Great War and a transnational rather than an international approach prominent historians Niall Ferguson and Paul Kennedy Holger Afflerbach and Gary Sheffield John Horne and Len Smith John Milton Cooper and Margaret MacMillan

and Jay Winter and Robert Wohl brought to the proceedings an exciting clash of ideas The forums addressed topics about the Great War that have long fascinated both scholars and the educated public the origins of the war and the question of who was responsible for the escalation of the July Crisis the nature of generalship and military command seen here from the perspectives of a German and a British scholar the private soldiers experiences of combat revealing their strategies of survival and negotiation the peace making process and the overwhelming pressures under which statesmen worked and the long term cultural consequences of the war showing that the Great War was great not merely because of its magnitude but also because of its revolutionary effects These topics continue to reverberate and in addition to shedding new light on the subjects these forums constitute a glimpse at how historical writing happens American society did not suffer the consequences of the Great War that virtually all European countries knew a lack of perspective that the National World War I Museum seeks to correct This book celebrates that effort helping readers feel the excitement and the moral seriousness of historical scholarship in this field and drawing more Americans into considering how their own history is part of this story

fateful invasion of Russia Five decades later Leo Tolstoy published War and Peace a fictional representation of the era that is one of the most celebrated novels in world literature The novel contains a coherent though much disputed philosophy of

history and portrays the history and military strategy of its time in a manner that offers lessons for the soldiers of today To mark the two hundredth anniversary of the French invasion of Russia and acknowledge the importance of Tolstoy's novel for our historical memory of its central events Rick McPeak and Donna Tussing Orwin have assembled a distinguished group of scholars from diverse disciplinary backgrounds literary criticism history social science and philosophy to provide fresh readings of the novel The essays in Tolstoy On War focus primarily on the novel's depictions of war and history and the range of responses suggests that these remain inexhaustible topics of debate The result is a volume that opens fruitful new avenues of understanding War and Peace while providing a range of perspectives and interpretations without parallel in the vast literature on the novel

Front toward Enemy Daniel R. Green, 2021-11-20 A unique and much needed perspective on the transitions veterans go through after returning home from war service It is a difficult time to be a veteran of a small war in the United States After twenty years of combat and counter insurgency a generation of Afghan Iraq and Global War on Terror veterans struggle to integrate back into civilian society and lead productive lives As the wars these men and women have participated in continue while they simultaneously recede to the past many feel a sense of estrangement from their country friends and prior lives They often long to return to war but hope to never go again and are stuck in a nether world of war without end and peace that does not exist In Front toward Enemy War Veterans and the Homefront Daniel R Green uses his own experiences with war from having served five military and civilian tours in Afghanistan and Iraq and provides a different perspective on the transition home Using sociological philosophical literary cultural historical and political perspectives he provides a venue for the countless conversations he has had with his fellow veterans about their own experiences as a way to assist others with their transition from war and the military to peace and civilian life Green provides not just a war veteran's views but the amplifying perspective of a political scientist as well as a reserve officer in order to rescue the issue of the returning veteran from the field of psychology and to broaden the understanding of the experience of war for veterans This book bridges the gap between war veterans and their fellow citizens sheds light on the quiet conversations that take place among veterans about their experiences and enriches the collective understanding of how wars affect people

Histories, Memories and Representations of being Young in the First World War Maggie Andrews, N. C. Fleming, Marcus Morris, 2020-10-08 This book seeks to place children and young people centrally within the study of the contemporary British home front its cultural representations and its place in the historical memory of the First World War This edited collection interrogates not only war

and its effects on children and young people but how understandings of this conflict have shaped or been shaped by historical memories of the Great War which have only allowed for several tropes of childhood during the conflict to emerge It brings together new research by emerging and established scholars who through a series of tightly focussed case studies introduce a range of new histories to both explore the experience of being young during the First World War and interrogate the memories and representations of the conflict produced for children Taken together the chapters in this volume shed light on the multiple ways in which the Great War shaped disrupted and interrupted childhood in Britain and illuminate simultaneously the selectivity of the portrayal of the conflict within the more typical national narratives *The Hero and the Victim* Gregory Brazeal, 2024-10-08 How American fiction represents soldiers and soldier criminality in depictions of the Iraq War Sexing the Soldier Rachel Woodward, Trish Winter, 2007-08-07 Sexing the Soldier takes a critical look at how gender is understood within the contemporary British Army Drawing on original research this book argues that dominant ideas about gender evident in areas as diverse as policy documents and cultural practices potentially limit rather than enhance operational effectiveness
