Sole Survivor Children Who Kill Their Families:

Sole Survivor - Children Who Murder Their Families Elliott Leyton, 2009-03-03 The horror of certain crimes is so resonant that it shocks all who hear of them to the very core Such crimes are revealed within these pages In this powerful book noted anthropologist Elliott Leyton explores what it is that drives children to become killers what turns innocence into deadly evil The crimes he examines are especially disturbing as they are perpetrated by children on their own families Amongst the studies are the horrific case of Jeremy Bamber who executed his parents his sister and her twin sons Steven Benson the heir to a tobacco fortune who left two bombs in his family's van and Marlene Olive who forced her compliant lover to brutally kill her adoptive parents Read *Sole Survivor* and find out how the troubles that lie beneath the facade of middle class life can cause such disturbing events to occur

Survived by One Robert E. Hanlon, Thomas V Odle, 2013-08-06 On November 8 1985 18 year old Tom Odle brutally murdered his parents and three siblings in the small southern Illinois town of Mount Vernon sending shockwaves throughout the nation The murder of the Odle family remains one of the most horrific family mass murders in U S history Odle was sentenced to death and after seventeen years on death row expected a lethal injection to end his life However Illinois governor George Ryan's moratorium on the death penalty in 2000 and later commutation of all death sentences in 2003 changed Odle's sentence to natural life The commutation of his death sentence was an epiphany for Odle Prior to the commutation of his death sentence Odle lived in denial repressing any feelings about his family and his horrible crime Following the commutation and the removal of the weight of eventual execution associated with his death sentence he was confronted with an unfamiliar reality A future As a result he realized that he needed to understand why he murdered his family He reached out to Dr Robert Hanlon a neuropsychologist who had examined him in the past Dr Hanlon engaged Odle in a therapeutic process of introspection and self reflection which became the basis of their collaboration on this book Hanlon tells a gripping story of Odle's life as an abused child the life experiences that formed his personality and his tragic homicidal escalation to mass murder seamlessly weaving into the narrative Odle's unadorned reflections of his childhood finding a new family on death row and his belief in the powers of redemption As our nation attempts to understand the continual mass murders occurring in the U S *Survived by One* sheds some light on the psychological aspects of why and how such acts of extreme carnage may occur However *Survived by One* offers a never been told perspective from the mass murderer himself as he searches for the answers concurrently being asked by the nation and the world

Parricide and Violence against Parents

Marianna Muravyeva, Phillip Shon, Raisa Maria Toivo, 2020-12-30 Parricide and Violence Against Parents takes a historical and criminological approach to the research on parricide and violence against parents placing the research in the context of social development from the 1500s to contemporary society and giving a global overview and comparison The book examines parricide and violence against parents as historically and culturally sensitive phenomena It offers evidence on a seemingly rare subject from different eras areas and cultures and then uses the cross disciplinary data to produce a new systematic insight for the reader Case studies shift the discussion from the contemporary focus on adolescent to parent abuse to examining the sources of conflict during life cycles of parents and their offspring A historical approach illuminates the variations in conflicts between parents and their offspring that are shaped by the life stages of the victims and offenders themselves across time The book argues that parental authority has been marked by property ownership and tax paying responsibilities throughout history The continued possession of property resulted in power the reluctance to part with it becoming a notable source of conflict across generations within families Parental authority was protected by means of heavy penalties and punishments and didactic teachings in almost every society at every stage of historical development It was also challenged constantly by children as a part of their coming into adulthood The abuse of parents has often been connected to situations where adult children were prevented from gaining the amount of independence appropriate to their position in life This led to disputes over authority and the legitimate grounds for that authority Offering an insight into complicated and interconnected histories of generational conflicts and how they affect modern families in different parts of the world this book will be of great interest to students and scholars of criminology history of crime history of the family family violence homicide studies gender studies history of emotions political violence and social work

scrutinizing their first years through the eyes of those who lived it The facts brought forth in this book are supported by case files recorded by Jewish social service workers letters and minutes from agency meetings oral testimonies and much more Cohen explores how the Truman Directive allowed the American Jewish community to handle the financial and legal responsibility for survivors and shows what assistance the community offered the refugees and what help was not available She investigates the particularly difficult issues that orphan children and Orthodox Jews faced and examines the subtleties of the resettlement process in New York and other locales Cohen uncovers the truth of survivors early years in America and reveals the complexity of their lives as New Americans
