Surfactants in Solution K.L. Mittal, B. Lindman, 2013-11-11 This and its companion Volumes 2 and 3 document the proceedings of the 4th International Symposium on Surfactants in Solution held in Lund Sweden June 27 July 2 1982 This biennial event was christened as the 4th Symposium as this was a continuation of earlier conferences dealing with surfactants held in 1976 Albany under the title Micellization Solubilization and Microemulsions in 1978 Knoxville under the title Solution Chemistry of Surfactants and in 1980 Potsdam where it was dubbed as Solution Behavior of Surfactants Theoretical and Applied Aspects The proceedings of all these symposia have been properly chronicled The Lund Symposium was billed as Surfactants in Solution as both the aggregation and adsorption aspects of surfactants were covered and furthermore we were interested in a general title which could be used for future conferences in this series As these biennial events have become a well recognized forum for bringing together researchers with varied interests in the arena of surfactants so it is amply vindicated to continue these and the next meeting is planned for July 9-13 1984 in Bordeaux France under the cochairmanship of K. L. Mittal and P. Bothorel The venue for 1986 is still open although India inter alia is a good possibility Apropos we would be delighted to entertain suggestions regarding where and when these biennial symposia should be held in the future and you may direct your response to Kk

Surfactants in Solution K.L. Mittal, P. Bothorel, 2012-12-06 This and its companion Volumes 5 and 6 document the proceedings of the 5th International Symposium on Surfactants in Solution held in Bordeaux France July 9-13 1984 This symposium was the continuation of the series of symposia initiated in 1976 in Albany New York under the title Micellization Solubilization and Microemulsions The next two symposia were labelled Solution Chemistry of Surfactants and Solution Behavior of Surfactants Theoretical and Applied Aspects held in Knoxville TN in 1978 and Potsdam NY in 1980 respectively In 1982 at the time of the 4th Symposium in this series it became amply evident that there was a definite need to have more a generic title to describe these biennial events

and after much deliberation it was decided that an appropriate title would be Surfactants in Solution as both the aggregation and adsorption aspects of surfactants were addressed So the 4th Symposium was held in 1982 in Lund Sweden under this new rubric and it was decided to continue these symposia in the future under this appellation Naturally the Bordeaux Symposium was dubbed as the 5th International Symposium on Surfactants in Solution and our logo became SIS which is very apropos and appealing It was in Bordeaux that the decision was made to hold the 6th SIS Symposium in New Delhi and it is scheduled for August 18 22 1986 in the capital of India *Surfactants in Solution* K.L. Solution Chemistry P. Somasundaran,Dianzuo Wang,2006-11-13 Surfactants have been used for many industrial processes such as flotation enhanced oil recovery soil remediation and cleansing Flotation technology itself has been used in

industry since the end of the 19th century and even today it is an important method for mineral processing and its application range is expanding to other areas This technology has been used in the treatment of wastewater industrial waste materials separation and recycling of municipal waste and some unit processes of chemical engineering The efficiency of all these operations depends primarily on the interactions among surfactants solids and media In this book the fundamentals of solution chemistry of mineral surfactant systems are discussed as well as the important calculations involved The influence of relevant physico chemical conditions are also presented in detail Introduces the fundamentals of solution chemistry of mineral surfactant systems and important calculations involved Discusses the influence of relevant physico chemical conditions Presents the relationship between the molecular structure of the flotation reagents of solution chemistry and its characteristics

Surfactants and Polymers in Aqueous Solution Bo Jönsson, Björn Lindman, Krister Holmberg, Bengt Kronberg, 1998-03-20 A unique book which discusses the solution chemistry of surfactants and polymers presenting both the theory of surfactant and polymer interactions and also giving practical help for workers in this area Surfactants are used together with polymers in a wide range of applications such as detergents paints paper coatings food pharmacy and cosmetics Together the surfactant and polymer provide the stability rheology etc needed for specific application Hence the need for knowledge about physicochemical properties of both surfactants and polymers and polymer surfactant interactions to enhance formulation work This book based on successful courses run by the authors brings the two topics together to enable readers to gain a good understanding of the solution behaviour of surfactant polymer combinations It includes a thorough description of surfactant types including their main synthetic routes and discusses physicochemical phenomena such as self assembly adsorption gel formation and foaming Particular attention is paid to the solution behaviour of surfactants and polymers containing polyoxyethylene chains Surface active polymers are then presented and their interaction with surfactants is a core topic of the book The choice of surfactant for emulsions and microemulsions is treated in depth and important applications of microemulsions such as detergency and enhanced oil recovered are presented This book will be invaluable for scientists and engineers involved in surfactant production and formulation as well as students

Solution Behavior of Surfactants K.L. Mittal, E.J. Fendler, 2012-12-06 This and its companion Volume 2 comprise the proceedings of the International Symposium on Solution Behavior of Surfactants Theoretical and Applied Aspects organized under the auspices of the 11th Northeast Regional Meeting of the American Chemical Society held in Potsdam N Y June 30 July 3 1980 This Symposium represented the third event in the series of symposia dealing with the topic of surfactants in solution The first Symposium was held in Albany N Y in 1976 under the title Micellization Solubilization and Microemulsions 1 the proceedings of which have been documented in a two volume set The second was held under the title Solution Chemistry of Surfactants in 1978 in Knoxville TN and the proceedings of this event have also been properly chronicled Apropos the fourth biennial Symposium in this series is entitled International Symposium on Surfactants in Solution K L Mittal and B Lindman

Cochairmen and is scheduled to be held from June 27 to July 2 1982 in Lund Sweden Since these biennial events have been very successful and important in bringing researchers with varied interests together and in stimulating interdisciplinary communication so the plans are to continue these on a regular basis with a change in venue for each meeting
