John W. Leonard,1907 **The Architecture of McKim, Mead, and White** Allan Greenberg,Michael George,2013-06-21
For forty years 1880 1920 the now legendary architectural firm led by Charles Follen McKim William Rutherford Mead and
Stanford White was responsible for many of the finest buildings in America The Boston Public Library Pennsylvania Station in
New York and the campus of Columbia University are among the national landmarks designed by these men and their
partners Bert Fenner and William Mitchell Kendall This anthology of plans elevations and details of major works of McKim
Mead and White is an invaluable reference source and inspiration for the student of architecture As Allan Greenberg writes
in his introduction The legacy of McKim Mead and White is so vast that both its outer boundaries and its inner characteristics
are only barely discernible As architects of some of the most important buildings in the history of American architecture the
work of the office of McKim Mead and White reached a level of quality which has never been equaled by any large office
before or after Charles Follen McKim cofounded the firm with William Rutherford Mead in 1878 along with his brother in law
William B Bigelow One year later Bigelow left the firm and was replaced by young Stanford White Among the commissions
that McKim worked on were the Villard Houses the Boston Public Library the Chicago World s Fair Columbian Exposition and
the Agriculture Building the Columbia University campus Symphony Hall in Boston alterations to the White House the
Pierpont Morgan Library Pennsylvania Station and the University Club in New York Stanford White who ironically had
replaced Charles McKim at the firm of Gambrell and Richardson in New York joined the partnership in September 1879 A
young enthusiastic man who could draw like a house afire in the words of McKim White was responsible for many of the firm
s great architectural projects including Madison Square Garden the Washington Arch the Judson Memorial Church what is
now Bronx Community College and the accompanying Hall of Fame of Great Americans the Tiffany Building and the Gorham
Building His life and career ended abruptly at the age of fifty three when he was murdered on the roof of Madison Square
Garden in a well publicized shooting incident in 1906 Metropolitan Club Building New York (N.Y.). Landmarks

Preservation Commission,1979 American Architect ,1896 Class of '84 M.I.T. Massachusetts Institute of Technology.
 Class of 1884,1909 *The Architecture of Additions* Paul Spencer Byard,1998 In this text the author poses the question Why
 save architecture and offers a critical foundation for the preservation and the management of change Landmarks
Preservation and the Property Tax David Listokin,2017-07-12 Historic preservation is an issue of growing importance and
 public commitment Federal and state mechanisms have been established to identify and support historic buildings sites while
 local governments have been active in supporting and protecting historic resources Communities across the country have
 established designation programs whereby individual buildings or districts of historical architectural significance are
 accorded landmark status Designation activity has been accompanied by growing interest in other local incentives
 disincentives to the support of historic buildings In this regard the property tax is viewed as either a possible powerful
 drawback to or a catalyst of preservation This study examines the relationship between historic preservation and the
 property tax focusing on the question of how designated buildings should be assessed for real taxation purposes Listokin
 focuses on New York City in considering the effects of historic status on property value and in evaluating assessment
 practices But this book s findings are transferrable to other communities because the base conditions are similar Many other
 cities have designation programs modeled on New York City s In addition New York s property tax system and administrative
 processes resemble those found in communities across the nation To enhance the transferability of this study s findings
 Listokin refers to the national experience and literature typically on a side by side basis with the New York City counterpart
