Immigration and Integration in Israel and Beyond Oshrat Hochman, 2023-06-02 Immigration is a persistent and complex
phenomenon intertwined with geographical political societal and economic challenges The number of international migrants
has been continually increasing over the past five decades The contributors to this volume dedicated to Professor Rebeca
Raijman address various types of migrants like economic or labour migrants forced migration and ethnic migrants
Implementing both qualitative and quantitative data and analyses they provide insight on why individuals decide to migrate
how their decisions affect their own lives and the lives of their offspring and how immigrants affect the receiving societies

in the Land of Israel** Yair Galily, Amir Ben-Porat, 2013-10-31 The state of Israel is a home for a widely diverse population
from many different ethnic religious cultural and social backgrounds a new society with ancient roots which is still coalescing
and developing today Israeli sport maybe more than any other cultural phenomenon has changed radically since the
establishment of the state of Israel in 1948 Over the past six decades Israeli sport has evolved from an amateur hobby of a
few sports freaks to a passion of the masses The transformation to a major cultural phenomenon is the result of general
developments in Israeli and international society The aim of the book is to shed light on those processes that shaped the
Israeli sport arena Following the steps of numerous research perspectives that considers sports as text within a socio
historical context this book deals with the development of Israeli sports in Palestine and later the State of Israel as a text or a
narrative which was contingent on the socio historical context In seeking to comprehend these processes this book is divided
into three parts The Palestine period the early stage of statehood and the matured period which began in and around the
early 1980s Each period is narrated by the major participants and the major political economical parameters which as it is
argued shaped Israeli sport This book was published as a special issue of the Israeli Affairs The Emergence of a Mizrachi
Middle Class in Israel Uri Cohen, Nissim Leon, 2025-03-31 The Emergence of the Mizrachi Middle Class examines one of the
major issues in the sociology of Israel the story of the Mizrachim Jews of Middle Eastern and North African descent a group
that has been and is still engaged in class mobility efforts and is ostensibly closing the gap between itself and the
Ashkenazim Jews of Central and Eastern European extraction This is one of the most important social processes to have
emerged in Israel in recent decades it is changing the face of the Israeli middle class While Israeli public discourse depicts

this process as a reduction of ethnic and class disparities the critical analysis offered in this book aims to reveal the issue s tremendous complexity The academically educated Mizrachi middle class is an effective social focus for the description and critical analysis of the Mizrachi mobility process its sources and the accompanying social unrest The book shows that Mizrachi mobility was not a continuous progression along orderly mobility routes but rather a struggle full of mobility traps a Sisyphean effort to achieve not only economic advancement but also status and prestige in Israeli society *Toward an Anthropology of Nation Building and Unbuilding in Israel* Fran Markowitz, Stephen Sharot, Moshe Shokeid, 2015 *Toward an Anthropology of Nation Building and Unbuilding in Israel* presents twenty two original essays offering a critical survey of the anthropology of Israel inspired by Alex Weingrod emeritus professor and pioneering scholar of Israeli anthropology In the late 1950s Weingrod s groundbreaking ethnographic research of Israel s underpopulated south complicated the dominant social science discourse and government policy of the day by focusing on the ironies inherent in the project of Israeli nation building and on the process of migration prompted by social change Drawing from Weingrod s perspective this collection considers the gaps ruptures and juxtapositions in Israeli society and the cultural categories undergirding and subverting these divisions Organized into four parts the volume examines our understanding of Israel as a place of difference the disruptions and integrations of diaspora the various permutations of Judaism and the role of symbol in the national landscape and in Middle Eastern studies considered from a comparative perspective These essays illuminate the key issues pervading motivating and frustrating Israel s complex ethnoscape
