

SOCIOLOGY

Sociology is the scientific study of human society, social relationships, and the patterns of behavior that emerge within them.

OVERVIEW

Sociology explores how individuals are shaped by social structures, cultural norms, and institutions, and how they, in turn, shape society. Sociologists analyze various social phenomena such as inequality, social change, and group dynamics to understand how they impact individuals and communities.

EXAMPLES

- **Study of social institutions:** Sociology investigates how social institutions such as schools, courts, and government affect social mobility and inequality.
- **Study of gender:** Sociologists explore how gender affects people's life chances due to social stigmatization and social norms.

Sociology Of News:

The Sociology of News Michael Schudson, 2011 A personal trenchant and comprehensive account of the contemporary news media The Sociology of News reviews and synthesizes not only what is happening to journalism but also what is happening to the scholarly understanding of journalism In the Second Edition each chapter of the book has been updated to account for the radical changes that have reshaped the news industry over the last decade With a new chapter on the sharp contraction of the news business in the United States since 2007 The Sociology of News examines journalism as a social institution and analyzes the variety of forces and factors economic technological political cultural organizational that shape the news media today

Social Meanings of News Daniel A. Berkowitz, 1997-03-05 What is news and why does it turn out the way it does These questions are addressed in this Reader Classic news studies representing several methodologies and approaches are presented to guide students in their initial exploration into the topics Berkowitz provides an orientation for a social approach to studying news departing from the premise that news is a human construction that gains its characteristics through the social world from which it emerges The first section of readings introduces a theoretical background for analyzing the sections that follow Each of the eight sections are clearly and concisely introduced by Berkowitz enabling students to interpret the salient points from and implications of representative articles in the field

Cultural Meanings of News Daniel A. Berkowitz, 2011 What is news Why does news turn out like it does What factors influence the creation production and dissemination of news Cultural Meanings of News takes on these deceptively simple questions through an essential collection of seminal and contemporary studies by leaders in the fields of mass communication and media studies Similar in format and purpose to editor Dan Berkowitz's award winning Social Meanings of News this new volume represents a conceptual update a continuation of the discourse about the nature of news and how it comes to be moving ideas ahead from the earlier tradition of sociological approaches to the more pervasive cultural perspectives that inform understandings about news Cultural Meanings of News provides a carefully selected set of readings organized into thematic areas that each probe a dimension of the literature from sociological roots to cultural perspectives news as narrative and cultural text newswork as cultural ritual news as cultural myth news and its interpretive communities news as a source and reflection of collective memory toward the future of news research This text reader provides students and scholars with first hand exposure to cultural approaches to the study of news while also providing an organizing framework for understanding the commonalities and differences between threads in the research The goals are to engage readers through guided immersion in the material

Making Online News Chris A. Paterson, Chris Paterson, David Domingo, 2008 Volume 2 summary Online journalism has taken center stage in debates about the future of news Instead of speculating this volume offers rich empirical evidence about actual developments in online newsrooms The authors use ethnographic methodologies to provide a vivid close analysis of processes like newsroom integration the transition of newspaper and radio journalists to digital multimedia

production the management of user generated content the coverage of electoral campaigns the pressure of marketing logics the relationship with bloggers or the redefinition of news genres

Publisher description The Power of News Michael Schudson, 1995 Some say it's simply information mirroring the world Others believe it's propaganda promoting a partisan view But news Michael Schudson tells us is really both and neither it is a form of culture complete with its own literary and social conventions and powerful in ways far more subtle and complex than its many critics might suspect A penetrating look into this culture The Power of News offers a compelling view of the news media's emergence as a central institution of modern society a key repository of common knowledge and cultural authority One of our foremost writers on journalism and mass communication Schudson shows us the news evolving in concert with American democracy and industry subject to the social forces that shape the culture at large He excavates the origins of contemporary journalistic practices including the interview the summary lead the preoccupation with the presidency and the ironic and detached stance of the reporter toward the political world His book explodes certain myths perpetuated by both journalists and critics The press for instance did not bring about the Spanish American War or bring down Richard Nixon TV did not decide the Kennedy Nixon debates or turn the public against the Vietnam War Then what does the news do True to their calling the media mediate as Schudson demonstrates He analyzes how the news by making knowledge public actually changes the character of knowledge and allows people to act on that knowledge in new and significant ways He brings to bear a wealth of historical scholarship and a keen sense for the apt questions about the production meaning and reception of news today News Howard Tumber, 1999 News A Reader sets out to provide students with an introduction to some of the key theoretical debates within the field of the sociology of news and journalism It includes many of the accepted classics together with more recent pieces that address contemporary debates The Reader brings out the diversity of work on the analysis of news and indicates the points at which arguments have led to new directions and paradigms All the pieces in the book have been carefully edited The essence of each work is has been captured in extracts that maintain their integrity to readers unfamiliar with the evolution of this field of research *Deciding What's News* Herbert J. Gans, 2004 Herbert J Gans is the Robert S Lynd Professor of Sociology at Columbia University Book Jacket *News and the Human Interest Story* Helen MacGill Hughes, In this account of the growth of newspapers in modern industrial society Helen Hughes traces the development of a mass audience through analysis of the origins of the human interest story in the popular ballads of an earlier day She shows how such commonly found interests as a taste for news of the town ordinary gossip and moving or gripping tales with a legendary or mythic quality have reflected the tastes of ordinary folk from the days of illiterate audiences to the present She explains how these interests ultimately were combined with practical economic and political information to create the substance and demand for a popular press In describing the rise and fall of newspaper empires each with their special readership attractions Dr Hughes shows how technological innovation and idiosyncratic creativity were used by owners to capture and hold a reading audience

Once this audience developed it could be fed a variety of messages beamed at reinforcing and maintaining both general and specific publics as well as a view of the world consonant with that of the publisher and major advertisers Hughes offers a persuasive argument for the continuing viability of this method for combined social control instruction and amusement captured by the association of news and the human interest story **Science News-letter** ,1928 Explaining News C. Archetti,2010-07-05 The book challenges the idea that processes of globalization are leading to an increasing homogenization of news on a worldwide scale by focusing on two defining crises of our time 9 11 and the War in Afghanistan The empirical analysis combines process tracing as well as both quantitative and qualitative content analysis of governmental discourses and news coverage of eight elite newspapers across the US France Italy and Pakistan It develops a new multidisciplinary framework to explain news that brings together previously distinct levels of analysis the micro level of the individual decisions made by journalists the organizational environment of the news organization national social and political contexts the macro level of international relations The book is going to be of interest primarily to academics and researchers postgraduate students across communications media studies journalism politics and international relations as well as journalists media practitioners and officials involved in public communication **Journalism** Tim P. Vos,2018-05-22 This volume sets out the state of the art in the discipline of journalism at a time in which the practice and profession of journalism is in serious flux While journalism is still anchored to its history change is infecting the field The profession and the scholars who study it are reconceptualizing what journalism is in a time when journalists no longer monopolize the means for spreading the news Here journalism is explored as a social practice as an institution and as memory The roles epistemologies and ethics of the field are evolving With this in mind the volume revisits classic theories of journalism such as gatekeeping and agenda setting but also opens up new avenues of theorizing by broadening the scope of inquiry into an expanded journalism ecology which now includes citizen journalism documentaries and lifestyle journalism and by tapping the insights of other disciplines such as geography economics and psychology The volume is a go to map of the field for students and scholars highlighting emerging issues enduring themes revitalized theories and fresh conceptualizations of journalism University of Virginia Alumni News ,1924 News for Farmer Cooperatives ,1938-04 Brooklyn Public Library News Bulletin Brooklyn Public Library,1908 **Knowledge & Illustrated Scientific News** ,1908 **The Fisk University News** ,1910 **University of Michigan News-letter** ,1902 **The Young Person's Guide to the Internet** Kate Hawthorne,Daniela Sheppard,2005-11-23 In this easy to use reference over 1600 websites have been carefully researched and selected with educational and recreational needs in mind Sorted into thirty categories including all National Curriculum subjects the book provides brief descriptions of each website and the resources you can expect to find there Some of the wide ranging categories include art attractions careers and students environment film TV and radio reference and revision The format is unique and simple making this a perfect resource for young people parents and teachers and an excellent

support tool for schools and libraries **Normal College News** ,1897 **The Palgrave Handbook of Social Theory in Health, Illness and Medicine** F. Collyer,2015-02-12 This wide reaching handbook offers a new perspective on the sociology of health illness and medicine by stressing the importance of social theory Examining a range of classic and contemporary female and male theorists from across the globe it explores various issues including chronic illness counselling and the rising problems of obesity
