The Sociology of Philosophical Knowledge Martin Kusch, 2000-04-30 Until 30 years ago most sociologists believed that only knowledge in the humanities and social sciences is open to sociological analysis This is no longer the case a large number of studies have shown that the knowledge of science and technology also has the character of social institutions The success of sociologists in understanding the social dimensions of science and technology has led to a relative decline of sociological studies of the humanities in general philosophy in particular This anthology seeks to correct that neglect The authors seek to show that contextual and sociological sensitivity is crucial to an understanding of the very content of philosophical positions and controversies and for recapturing the contingency in the history of philosophy Readership All students of the history of philosophy and sociologists of knowledge

Philosophies Pitirim A. Sorokin,2020-03-05 Even in normal times cogitation about man s destiny on the whence and whither the how and why of a given society is now and then carried on by at least a few thinkers or scholars In times of serious crisis these problems suddenly assume exceptional importance theoretical as well as practical for thinkers as well as for plain folk An enormous part of the population finds itself uprooted ruined mutilated and annihilated by the crisis People s routine of life is entirely upset their habitual adjustments are broken and large groups of human beings are turned into a flotsam of displaced and disadjusted persons Even the ordinary man in the street cannot help asking How has all this come about what does it all mean who is responsible for it what are its causes is there any way out where do we go from here and what is going to happen to me and my family my friends and my country In a serious crisis these questions press still more intensely upon the thinkers leaders and scholars in a society Many of them do not pay much attention to their sociocultural shoes until they begin to pinch When however the pinching of the hardships of the crisis becomes unbearable they are forced to begin to ponder on the how and why of the crisis and on all the other problems of a painful transitional situation **Understanding**

the Culture Jeff Myers,2017-03-01 Addressing issues such as gender identity abortion technology and poverty Dr Myers challenges readers to ask How can an authentic Christian worldview provide a compassionate effective witness in culture today Dr Myers first shows readers what they can learn from Christian history and why today s issues might not be as new as they seem Then he takes them through the significant topics that affect them every day offering biblical ideas for conversing with others in an increasingly hostile culture This capstone book to a groundbreaking worldview trilogy equips readers to apply a bold Christian witness to their relationships with loved ones neighbors and colleagues **Comparative Methods in**

Law, Humanities and Social Sciences Adams, Maurice, Van Hoecke, Mark, 2021-11-19 This cutting edge book facilitates debate amongst scholars in law humanities and social sciences where comparative methodology is far less well anchored in most areas compared to other research methods It posits that these are disciplines in which comparative research is not simply a bonus but is of the essence *The Oxford Handbook of Philosophical Methodology* Herman Cappelen, Tamar Gendler, John P. debates The Handbook provides a one stop guide that will be used by readers for decades to come **Philosophical Foundations of the Three Sociologies (RLE Social Theory)** Ted Benton, 2014-09-19 An extended historical and philosophical argument this book will be a valuable text for all students of the philosophy of the social sciences It discusses the serious alternatives to positivist and empiricist accounts of the physical sciences and poses the debate between naturalism and anti naturalism in the social sciences in new terms Recent materialist and realist philosophies of science make possible a defence of naturalism which does not make concessions to positivism and which recognizes the force of several of the anti positivist arguments from the main anti naturalist neo Kantian tradition The author presents a critical evaluation of empiricist and positivist theories of knowledge and investigates some classic attempts at using them to provide the philosophical foundation for a scientific sociology He takes the Kantian critique of empiricism as the starting point for the main anti positivist and anti naturalist philosophical approaches to the social studies He goes on to investigate the inadequacy of post Kantian arguments from Rickert Weber Winch and others both against non positivist forms of naturalism and as the possible source of a distinctive philosophical foundation for the social studies The book concludes with a critical investigation of the Marxian tradition and an attempt to establish the possibility of a materialist and realist defence of the project of a natural science of history which escapes the fundamental flaws of both positivist and neo Kantian attempts at philosophical foundation *Veblen* Charles Camic, 2020-11-30 Thorstein Veblen s analysis of America s parasitic upper class which plunders its wealth from productive workers is widely attributed to his outsider status But Charles Camic shows that Veblen s ideas did not derive from social marginality Veblen was a professional economist whose fierce social critique was the work of an academic insider
