interdisciplinary endeavour portrays the central features of militant movements which hold totality as an important part of
their doctrinal core Revisiting the importance of modernity utopianism eschatology charisma psychology and the history of
ideas Mihai Murariu pursues a reconstruction of the historical requirements for the emergence of such movements Making a
central use of the concept of totalism the work establishes a conceptual bridge from antiquity to the contemporary period
whilst also arguing for the suitability of the term in comparison to totalitarianism or political religion The author also
proposes a distinct taxonomy for structural elements variants and development phases which may be encountered in totalist
movements **L.C. Classification: Additions and Changes** Library of Congress. Cataloging Policy and Support

 Representing Communism After the Fall Cristian Tileagă,2018-10-22 This book explores the contribution of discursive
psychology and discourse analysis to researching the relationship between history and collective memory Analysing
significant manifestations of the moral vocabulary of the Romanian transition from communism to democracy the author
demonstrates how discursive psychology can be used to understand some of the enduring and persistent dilemmas around
the legacy of communism This book argues that an understanding of language as an action oriented world building resource
can fill an important gap in the theorizing of public controversies over individual and collective meaning of the recent
communist past The author posits that discursive social psychology can serve as an intellectual and empirical bridge that can
overcome several of the difficulties faced by researchers working in transitional justice studies and cognate fields This
reflective book will appeal to students and scholars of transitional justice discursive psychology memory studies and the
