**Grounded-Encounter Therapy** L. Alex Swan, 2013-10 Grounded Encounter Therapy is a discovery intervention and application approach which allows the theory which guides the process to be developed from an analysis of the situation or context rather than imposed at the outset by the therapist It is a dramatic contrast to psychological theories particularly psychoanalysis which impose a specific causal theory at the outset In GET on the other hand the theory emerges from the client defined context not the other way around The book introduces students and professionals an alternative to doing counseling and therapy Traditional therapist see what they look for and what they look for they see and what they see is what their therapeutic modalities allow them to see and what their therapeutic modalities allow them to see is what they treat

*Frantz Fanon, Psychiatry and Politics* Nigel C. Gibson, Roberto Beneduce, 2017-09-25 The revolutionary and psychiatrist Frantz Fanon was a foundational figure in postcolonial and decolonial thought and practice yet his psychiatric work still has only been studied peripherally That is in part because most of his psychiatric writings have remained untranslated With a focus on Fanon's key psychiatry texts Frantz Fanon Psychiatry and Politics considers Fanon's psychiatric writings as materials anticipating as well as accompanying Fanon's better known work written between 1952 and 1961 Black Skin White Masks A Dying Colonialism Toward the African Revolution The Wretched of the Earth Both clinical and political they draw on another notion of psychiatry that intersects history ethnology philosophy and psychoanalysis The authors argue that Fanon's work inaugurates a critical ethnopsychiatry based on a new concept of culture anchored to historical events particular situations and lived experience and on the relationship between the psychological and the cultural Thus Gibson and Beneduce contend that Fanon's psychiatric writings also express Fanon's wish as he puts it in The Wretched of the Earth to develop a new way of thinking not only for us but for humanity *Dynamic Therapy in Brief* Hospi John M. Oldham, Mark L.

Russakoff, 1977-07-07 In an original integration of the medical model and therapeutic community approaches to hospital milieu treatment Oldham and Russakoff present both a systematic theory for acute hospital treatment and its practical application spelled out in great detail without lowering the high level of their narrative to a cookbook approach to treatment
