Soil And Soul People Versus Corporate Power:

Soil and Soul Alastair McIntosh, 2004-08-26 It is easy to feel helpless in the face of the torrent of information about environmental catastrophes taking place all over the world In this powerful and provocative book Scottish writer and campaigner Alastair McIntosh shows how it is still possible for individuals and communities to take on the might of corporate power and emerge victorious As a founder of the Isle of Eigg Trust McIntosh helped the beleaguered residents of Eigg to become the first Scottish community ever to clear their laird from his own estate And plans to turn a majestic Hebridean mountain into a superquarry were overturned after McIntosh persuaded a Native American warrior chief to visit the Isle of Harris and testify at the government inquiry This extraordinary book weaves together theology mythology economics ecology history poetics and politics as the author journeys towards a radical new philosophy of community spirit and place His daring and imaginative responses to the destruction of the natural world make *Soil and Soul* an uplifting inspirational and often richly humorous read

How to Fall in Love with the Future Rob Hopkins, 2025-06-17 There are an infinite number of possible futures that lie ahead of us like threads stretching out into the distance Rob Hopkins cofounder of the international Transition Network movement invites us to travel to future worlds we would actually want to live in In 2020 when the COVID 19 pandemic disrupted every aspect of daily life climate activist and Transition Network cofounder Rob Hopkins responded the way a lot of people did by starting a podcast But it wasn't any ordinary podcast In each episode Hopkins and his guests would time travel together to the year 2030 walking down imagined future streets talking with imagined future neighbors visiting imagined future local businesses While Hopkins's guests came from all walks of life economists politicians bakers comedians novelists and more they all shared a willingness to suspend their worries about the future long enough to mentally inhabit and then describe a world they were thrilled to be a part of What Hopkins discovered was no less profound this simple exercise of visiting a positive future forced him to rethink the work he'd been doing as a climate activist for decades *How to Fall in Love with the Future* is the result of that radical disruption and Hopkins's deep dive into the people and movements throughout history who have used visions of the future to inspire positive change on a large and dramatic scale From the life and writings of musician Sun Ra and the history of Black utopian movements to the latest neuroscience on what goes on in our minds and hearts when we time travel Hopkins brings essential new thinking to anyone overwhelmed with dread and anxiety for the future He asks us to consider what would the world look like if we all got to work imagining and then building a world we were deeply in love with Rob Hopkins puts imagination back at the heart of future dreaming offering us an irresistible invitation to dream bigger and then make those dreams a reality Kate Raworth author of *Doughnut Economics*

The Globalization of God Dara Molloy, 2015-11-10 Roman Catholicism was the first multinational corporation Preaching was the forerunner of advertising Roman Catholicism created

the template for the spread of commercial globalisation through multinational corporations For global Christianity to succeed all local expressions of Christianity had to be suppressed These included Celtic Christianity For 800 years the Roman church tried to break the independent spirit of Celtic Christianity Despite being defeated in 1014 at the Battle of Clontarf the Irish Vikings through their urban bishops were key actors in the imposition of Roman episcopal structures of church throughout Ireland in the 12th century There was an invasion of Norman monks to Ireland which began in 1142 twenty five years before the military invasion in 1167 The ecclesiastical colonisation of Ireland meant that a Roman episcopal and diocesan structure replaced the Celtic monastic structure Norman colonisers destroyed Celtic monasteries and replaced them with imported European religious orders Cistercian monasteries in Ireland were required to have French abbots and sometimes these were imposed by force no Irishman was allowed to become a bishop or attain any ecclesiastical high office St Malachy of Armagh betrayed his own Celtic heritage and was a key figure in bringing about the ecclesiastical colonisation of Ireland Monotheism is the mythical container for globalization Humans will fail to return to a sustainable way of living on this planet until the mythological container of monotheism is replaced by new bioregional spiritualities that go beyond both monotheism and polytheism [New South African Review 4](#) Devan Pillay, Gilbert M Khadiagala, Prishani Naidoo, Roger Southall, 2014-04-01 A series of essays taking an account of the milestones of South African democracy in order to give a multidimensional perspective of South Africa The death of Nelson Mandela on 5 December 2013 was in a sense a wake up call for South Africans and a time to reflect on what has been achieved since those magnificent days in late April 1994 as the editors of this volume put it when South Africans of all colours voted for the first time in a democratic election In a time of recall and reflection it is important to take account not only of the dramatic events that grip the headlines but also of other signposts that indicate the shape and characteristics of a society The New South African Review looks every year at some of these signposts and the essays in this fourth volume of the series again examine and analyse a broad spectrum of issues affecting the country They tackle topics as diverse as the state of organised labour food retailing electricity generation access to information civil courage the school system and looking outside the country to its place in the world South Africa s relationships with north east Asia with Israel and with its neighbours in the southern African region Taken together these essays give a multidimensional perspective on South Africa s democracy as it turns twenty and will be of interest to general readers while being particularly useful to students and researchers [The Infinite Game](#) Niki Harré, 2018-05-10 Whether we are competing for a job building a business or championing a good cause some days it can feel as if we are trapped in an endless competition for status wealth or attention Maybe if we learn to play the game and follow the rules we ll come out on top But is life really a finite game a game of selection and rules winners and losers players and spectators In The Infinite Game Niki Harré asks us to imagine our world anew What if we are all part of a different type of game entirely a game in which playing matters more than winning a game that anyone can join at any time a game in which rules evolve as new
