Contaminants and the Soil Environment in the

Australasia-Pacific Region R. Naidu, R.S. Kookana, D.P. Oliver, S. Rogers, M.J. McLaughlin, 2012-12-06 The Australasia Pacific Region supports approximately 50% of the world's population. The last half century has witnessed a rapid increase in the regional population, agricultural productivity, industrial activities, and trade within the region. Both the demand for increased food production and the desire to improve the economic conditions have affected regional environmental quality. This volume presents an overview of the fate of contaminants in the soil environment, current soil management factors used to control contaminant impacts, issues related to sludge and effluent disposals in the soil environment, legal health and social impacts of contaminated land, remediation approaches and strategies to manage contaminated land, some of the problems associated with environmental degradation in the Australasia Pacific Region, and steps that we need to take to safeguard our environment. Fonnum, B. Paukstys, Barbara A. Zeeb, K.J. Reimer, 2012-12-06 *Environmental Contamination and Remediation Practices at Former and Present Military Bases* outlines the different strategies that are useful in the investigation and subsequent remediation of military bases. Particular attention is paid to the pollution of groundwater. The book contains an excellent review of useful remediation techniques and several examples of their application to polluted military bases. Several mathematical models are demonstrated showing their predictive value for real examples. A detailed list is given of chemical pollutants that can be found on a military base. Strategies are described for the investigation and determination of the future of a polluted military site. Examples are given obtained from practical experience of dealing with old contaminated sites. **Reviews of Environmental Contamination**
