thoughts should be followed absolutely and logically Here he presents a binary between the rational and the irrational

Found Sculpture and Photography from Surrealism to Contemporary Art Julia Kelly,2017-07-05 Taking its departure point from the 1933 surrealist photographs of involuntary sculptures by Brassa nd Dal Found Sculpture and Photography from Surrealism to Contemporary Art offers fresh perspectives on the sculptural object by relating it to both surrealist concerns with chance and the crucial role of photography in framing the everyday This collection of essays questions the nature of sculptural practice looking to forms of production and reproduction that blur the boundaries between things that are made and things that are found One of the book s central themes is the interplay of presence and absence in sculpture as

it is highlighted disrupted or multiplied through photography's indexical nature The essays examine the surrealist three dimensional object its relation to and transformation through photographs as well as the enduring legacies of such concerns for the artwork's materiality and temporality in performance and conceptual practices from the 1960s through the present Found Sculpture and Photography sheds new light on the shifts in status of the art object challenging the specificity of visual practices pursuing a radical interrogation of agency in modern and contemporary practices and exploring the boundaries between art and everyday life

Pictures of Nothing Kirk Varnedoe, 2023-10-17 An illuminating exploration of the meaning of abstract art by acclaimed art historian Kirk Varnedoe What is abstract art good for What's the use for us as individuals or for any society of pictures of nothing of paintings and sculptures or prints or drawings that do not seem to show anything except themselves In this invigorating account of abstract art since Jackson Pollock eminent art historian Kirk Varnedoe the former chief curator of painting and sculpture at the Museum of Modern Art asks these and other questions as he frankly confronts the uncertainties we may have about the nonrepresentational art produced in the past five decades He makes a compelling argument for its history and value much as E H Gombrich tackled representation fifty years ago in *Art and Illusion* another landmark A W Mellon Lectures volume Realizing that these lectures might be his final work Varnedoe conceived of them as a statement of his faith in modern art and as the culminating example of his lucidly pragmatic and philosophical approach to art history He delivered the lectures edited and reproduced here with their illustrations to overflowing crowds at the National Gallery of Art in Washington in the spring of 2003 just months before his death With brilliance passion and humor Varnedoe addresses the skeptical attitudes and misunderstandings that we often bring to our experience of abstract art Resisting grand generalizations he makes a deliberate and scholarly case for abstraction showing us that more than just pure looking is necessary to understand the self made symbolic language of abstract art Proceeding decade by decade he brings alive the history and biography that inform the art while also challenging the received wisdom about distinctions between abstraction and representation modernism and postmodernism and minimalism and pop The result is a fascinating and ultimately moving tour through a half century of abstract art concluding with an unforgettable description of one of Varnedoe's favorite works Please note All images in this ebook are presented in black and white and have been reduced in size
