Solitary Self:

The Solitary Self Mary Midgley, 2010 Argues that simple one-sided accounts of human motives such as the selfish gene in neo-Darwinian thought are always unrealistic and do not derive from Darwin's writings **Remains of a Self** Cathrine Bjørnholt Michaelsen, 2021-06-29 From the twentieth century in the twenty-first psychoanalysis and deconstruction have challenged and continue to challenge our conceptions of subjectivity and selfhood Psychoanalysis revealed that even in our innermost households we are never quite alone rather instances of otherness incessantly interfere in our most intimate relation to ourselves forcing us to adapt continuously Deconstruction inheriting both this psychoanalytic disclosure and Heidegger's destruction of the history of metaphysics went to the foundations of the Western constructions of the subject and the self only to find how a destabilizing otherness was always already haunting them What if anything remains of the self in the aftermath Early on in the wake of deconstruction a certain misconceived and simplified notion of the death of the subject was proclaimed and in recent years more or less successful attempts have been made at reviving the notions of the subject the self and agency In contrast to these attempts at revival this book offers a two-pronged approach On the one hand it argues that neither psychoanalysis nor deconstruction propounds a simple annihilation of the subject or liquidation of the self on the other hand however neither do they pave the way for a return to the subject or resurrection of the self that would allow us once again to become confident about our presence to ourselves Instead this book suggests that if we set ourselves the task of taking up the heritage from psychoanalysis and deconstruction in a serious manner we are obliged to retrace the subject and the self as undergoing perpetual auto-deconstruction The Play of the Self Ronald Bogue, Mihai I. Spărișu, 1994-09-08 This interdisciplinary study explores the relationship between play and mimesis in the constitution and dissolution of the individual and social self The volume is divided into three sections the first of which focuses on the mimetic ludic foundations of mind memory and desire the second on the social and psychological self as agent of playful performance and product of cultural codes and the third on the interplay of psyche image and power in literary and artistic representations of the self The subjects of the individual studies vary widely from the interrelation of power and play in Orlando Furioso to the ludic foundations of cognition to the concept of the self in Foucault and Deleuze *The Self Explained* Roy F. Baumeister, 2023-10-17 The idea of the self is immediately familiar to everyone yet elusive to define and understand From pioneering researcher Roy F. Baumeister this volume synthesizes a vast body of knowledge to provide a panoramic view of the human self how it develops and functions why it exists and what problems it encounters on the journey through life What are the benefits of self-knowledge and how attainable is it Do we have one self or many What is the relationship of self and society In 28 concise chapters Baumeister explains complex concepts with clarity and insight He reveals the central role played by the self in enabling both individuals and cultures to thrive **The Elusive Self** Louise A. Poresky, 1981 The complex novels by Virginia Woolf are seen with clarity and coherence in *The Elusive Self* a thorough and

detailed literary interpretation by Louise A Poresky The result is a reliable map that guides the reader through the nine novels Adding the wisdom of religion and psychology to her literary criticism Dr Poresky demonstrates how Woolf's characters strive to achieve personal wholeness The quest progresses sequentially through the novels as a major character in each work struggles against certain demons whether the superficial dictates of society or the voices that say women cannot be artists and thus realizes the difference between ego and essence *Self and Non-Self in Early Buddhism* Joaquín Pérez-Remón, 2012-10-25 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline **Concepts of the Self** Anthony Elliott, 2020-05-07 This new updated edition provides a lively lucid and compelling introduction to contemporary controversies over the self and self identity in the social sciences and humanities In an accessible and concise format the book ranges from classical intellectual traditions of symbolic interactionism psychoanalysis and Foucauldian theory through feminism and postfeminism to postmodernism and the mobilities paradigm With characteristic verve and clarity Anthony Elliott explores the relationship between power identity and personhood connecting varied theoretical debates directly to matters of contemporary relevance and urgency such as identity politics the sociology of personal relationships and intimacy and the politics of sexuality This edition also includes a new chapter on the digital revolution which situates the self and work life transformations within the context of AI Industry 4.0 advanced robotics and accelerating automation Offering thoughtful entry points to a rich and complex literature along with robust critical responses to each theory Concepts of the Self will continue to be an invaluable text for students of social and political theory sociology social psychology cultural studies and gender studies **Religion and Nothingness** Keiji Nishitani, 1982 In Religion and Nothingness the leading representative of the Kyoto School of Philosophy lays the foundation of thought for a world in the making for a world united beyond the differences of East and West Keiji Nishitani notes the irreversible trend of Western civilization to nihilism and singles out the conquest of nihilism as the task for contemporary philosophy Nihilism or relative nothingness can only be overcome by being radicalized to Emptiness or absolute nothingness Taking absolute nothingness as the fundamental notion in rational explanations of the Eastern experience of human life Professor Nishitani examines the relevance of this notion for contemporary life and in particular for Western philosophical theories and religious beliefs Everywhere his basic intention remains the same to direct our modern predicament to a resolution through this insight The challenge that the thought of Keiji Nishitani presents to the West as a modern version of an Eastern speculative tradition that is every bit as old and as variegated as our own is one that brings into unity the principle of reality and the principle of salvation In the process one traditional Western idea after another

comes under scrutiny the dichotomy of faith and reason of being and substance the personal and transcendent notions of God the exaggerated role given to the knowing ego and even the Judeo Christian view of history itself Religion and Nothingness represents the major work of one of Japan's most powerful and committed philosophical minds *Self-Knowledge and the Self* David A Jopling, 2002-09-11 In this clear and reasoned discussion of self knowledge and the self the author asks whether it is really possible to know ourselves as we really are He illuminates issues about the nature of self identity which are of fundamental importance in moral psychology epistemology and literary criticism Jopling focuses on the accounts of Stuart Hampshire Jean Paul Sartre and Richard Rorty and dialogical philosophical psychology and illustrates his argument with examples from literature drama and psychology *Kierkegaard and the Self Before God* Simon D. Podmore, 2011-02 Simon D Podmore claims that becoming a self before God is both a divine gift and an anxious obligation Before we can know God or ourselves we must come to a moment of recognition How this comes to be as well as the terms of such acknowledgment are worked out in Podmore's powerful new reading of Kierkegaard As he gives full consideration to Kierkegaard's writings Podmore explores themes such as despair anxiety melancholy and spiritual trial and how they are broken by the triumph of faith forgiveness and the love of God He confronts the abyss between the self and the divine in order to understand how we can come to know ourselves in relation to a God who is apparently so wholly Other **Dietrich Bonhoeffer and the Ethical Self** Clark J. Elliston, 2016-10-01 Dietrich Bonhoeffer's work has persistently challenged Christian consciousness due to both his death at the hands of the Nazis and his provocative prison musings about Christian faithfulness in late modernity Although understandable given the popularity of both narrative trajectories such selective focus obscures the depth and fecundity of his overall corpus Bonhoeffer's early work and particularly his Christocentric anthropology grounds his later expressed commitments to responsibility and faithfulness in a world come of age While much debate accompanies claims regarding the continuity of Bonhoeffer's thought there are central motifs which pervade his work from his doctoral dissertation to the prison writings This book suggests that a concern for otherness permeates all of Bonhoeffer's work Furthermore Clark Elliston articulates drawing on Bonhoeffer a Christian self defined by its orientation towards otherness Taking Bonhoeffer as both the origin and point of return the text engages Emmanuel Levinas and Simone Weil as dialogue partners who likewise stress the role of the other for self understanding albeit in diverse ways By reading Bonhoeffer through their voices one enhances Bonhoeffer's already fertile understanding of responsibility **Yesterday's Self** Andreea Deciu Ritivoi, 2002 In Yesterday's Self Andreea Ritivoi explores the philosophical and historical dimensions of nostalgia in the lives of immigrants forging a connection between current trends in the philosophy of identity and intercultural studies The book considers such questions as Does attachment to one's native culture preclude or merely influence adaptation into a new culture Do we fashion our identity in interdependence with others or do we shape it in a non contingent frame Is it possible to assimilate in an unfamiliar world without risking self alienation Ritivoi's response nostalgia is both the poison and the cure

in such situations Nature's Primal Self Nam T. Nguyen,2011-01-01 The underlying theme of this book is the analysis of Corrington's ecstatic naturalism as a breakthrough movement that combines the fields of semiotics, theology, depth psychology and philosophy in a new metaphysics of nature. Ecstatic naturalism provides a viable alternative to Peirce's semiotic conception of the self and to Jaspers' existential elucidation of Existenz **In Other Los Angeleses** Meiling Cheng,2002-03-20 Will be a must read for anyone studying performance art or the art and culture of Southern California.
