Soviet Mediums T44 T54 T55 Afv 23:

Soviet T-54 Main Battle Tank James Kinnear, Stephen Sewell, 2018-11-29 A highly illustrated study of the T 54 Main Battle Tank and its variants that formed the backbone of the Soviet Army during the years of the Cold War The menacing silhouette of the T 54 tank prowling down streets of Eastern European capitals or roaring across fields in massive exercises remains one of the most enduring images of Soviet power in the early years of the Cold War Its sleek and unmistakable shape was a warning to any nation that wanted to stand against the USSR Yet all of this masked a flawed outdated design and when T 54s began to clash with the Western armoured vehicles in proxy wars in Southeast Asia and the Middle East they were found to be on the losing side of many of the battles Containing over 500 stunning contemporary and modern photographs and written by two experts on Soviet armour this authoritative book tells the complete story of the T 54 one of the most widely produced tanks of all time including many previously unheard of variants

Soviet T-55 Main Battle Tank James Kinnear, Stephen Sewell, 2019-09-19 A highly illustrated study of the T 55 Main Battle Tank and its variants that formed the backbone of the Soviet Army during the years of the Cold War The T 55 is one of the most iconic weapons created by the Soviets during the Cold War and also one of the most widely deployed weapons in history Like its younger brother the T 54 the T 55 enjoyed a long career in the Red Army and even into the early days of the reformed Russian Army Under their control it saw very little combat use or deployments but it was widely sold to other nations and participated in many of the wars and combat operations from the mid 1960s to the present The T 55 has been employed in almost every conflict in the Middle East and Africa from its introduction into service Even today the tank is still employed by both sides in the Syrian Civil War and they are also in service with Kurdish forces in the struggle against ISIS in the northern part of Iraq Containing more than 400 stunning contemporary and modern photographs and written by two experts on Soviet armour this authoritative book tells the complete story of the T 55 one of the most widely produced tanks of all time

Tank Battles of the Cold War, 1948-1991 Anthony Tucker-Jones, 2021-06-30 As Anthony Tucker Jones shows in this highly illustrated wide ranging history for most of the Cold War the tank retained its pre eminence on the battlefield The Arab Israeli wars witnessed some of the biggest tank battles of all time and tanks played key roles in conflicts in Korea Vietnam and Afghanistan as well as in the Iran Iraq War and the wars fought between India and Pakistan But then in the mid 1960s anti tank weapons became ever deadlier and the Mechanised Infantry Fighting Vehicle MIFV which was designed to support infantry and fight tanks emerged and the heyday of the tank was over Chapters cover each major phase in the evolution of the tank and of tank warfare during the period from the battles fought in the late 1940s and 1950s with Second World War armoured vehicles like the T 34 and the Sherman through to the designs common in the 1960s and 1970s like the T 55 Centurion Challenger and M60 Patton to the confrontation between the M1 Abrams and the T 72 during the Gulf War in 1991 Technical and design developments are important elements throughout the story but so are dramatic changes in tactics and

armaments which mean the tank has an increasingly uncertain role in modern warfare **Sovětský střední tank T-54**
