**Soviet Penal Policy** Ivo Lapenna, 1968      *Encyclopedia of Soviet Law* Ferdinand J.M. Feldbrugge, 2024-12-02      [The Impact of Covid-19 on Prison Conditions and Penal Policy](#) Frieder Dünkel, Stefan Harrendorf, Dirk van Zyl Smit, 2022-04-19

The Impact of COVID 19 on Prison Conditions and Penal Policy presents the results of a worldwide exchange of information on the impact of COVID 19 in prisons. It also focuses on the human rights questions that have been raised during the pandemic relating to the treatment of prisoners in institutions for both juveniles and adults worldwide. The first part brings together the findings and conclusions of leading prison academics and practitioners presenting national reports with information on the prison system, prison population rates, how COVID 19 was and is managed in prisons and its impact on living conditions inside prisons and on reintegration programmes. Forty-four countries are covered, many in Europe but also Argentina, Brazil, Chile, Colombia, Peru, Costa Rica, Canada, the USA, Kenya, South Africa, China, India, Japan, Australia, and New Zealand. In the second part, thematic chapters concentrate explicitly on the impact of the pandemic on the application of international human rights standards in prisons and on worldwide prison population rates. The book concludes by drawing out the commonalities and diverging practices between jurisdictions, discussing the impact of measures introduced and reflecting on what could be learnt from policies that emerged during the pandemic. Particular attention is paid to whether reductionist strategies that emerged during the pandemic can be used to counteract mass incarceration and prison overcrowding in the future. Although the book reflects the situation until mid 2021, after the second and during the third wave of the pandemic, it is highly relevant to the current situation as the living conditions in prisons did not change significantly during the following waves, which showed high infection rates in particular in the general population but increased vaccination rates too. In prisons, problems the pandemic raises have an even greater impact than for the general society. Revealing many notable and interesting changes in prison life and in release programmes, this book is essential reading for students and scholars of penology, criminology, law, sociology, and public health. It will also appeal to criminal justice practitioners and policy makers.

*Slavery and the Penal System* J. Thorsten Sellin, 2016-04-29. The classic and groundbreaking study of penal slavery throughout the ages is available again. Previously a rare book despite the fact that it is widely quoted and cited by scholars in the field of sociology, penology, and criminology, this book can now be accessed easily worldwide and be assigned again to classes. Now in its fortieth anniversary edition, Sellin's classic *Slavery and the Penal System* adds a new Foreword by Barry Krisberg at Berkeley. This edition also incorporates changes the author originally planned for a second printing, provided to Quid Pro Books by the Library Special Collections at Penn and authorized by his family. Part of the Classics of Law Society Series from Quid Pro Books, the anniversary edition also includes explanatory Notes of the Series Editor by Steven Alan Childress, senior professor of law at Tulane University. A book that has become a standard part of the canon in its field but over time grew to be too expensive for researchers and libraries to obtain is now easily

continuously looked for legal models and inspiration It examines the weak advancement of the rule of the law over the period and analyzes the contrasts and seeming contradictions of a society in which capital punishment was sharply restricted in the mid 1700s while penal and administrative exile remained heavily applied until 1917 and even beyond Daly also provides concise political social and economic contextual detail showing how the story of crime and punishment fits into the broader narrative of modern Russian history This is an important and useful book for all students of modern Russian history as well as of the history of crime and punishment in modern Europe     *Joseph Stalin* David R. Egan, Melinda A. Egan, 2007-07-25 With the opening of Russian and communist bloc archives dating from the Soviet era there has been a significant increase of scholarly writings pertaining to Joseph Stalin Widely considered to be among the most influential historical figures of the twentieth century Stalin continues to be a source of intense study In the absence of a comprehensive compilation of periodical literature the need for *Joseph Stalin An Annotated Bibliography of English Language Periodical Literature to 2005* is conspicuous Ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name The coverage in this bibliography extends beyond the person of Stalin to include the subjects of Stalinism the Stalinist system the Stalin phenomenon and those policies and practices of the Communist Party and Soviet state associated with him This volume also provides a record of scholarly opinion on Stalin and sheds light on the evolution and current state of Stalinology An effort has been made to list only those articles in which Stalin figures prominently but in some instances articles have been included which do not center on Stalin but are worthy of listing for other reasons The book is divided into fourteen main sections General Studies and Overviews Biographical Information and Psychological Assessments The Revolutionary Movement October Revolution and Civil War Rise to Power Politics Economics Society and Social Policy Nationalism and Nationality Policy Culture Religion Philosophy and Theory Foreign Relations and International Communism Military Affairs and De Stalinization Including a subject index of several hundred headings and even greater number of subheadings this comprehensive annotated bibliography should be of benefit to those individuals who for the purpose of research or classroom     **Crime and Transition in Central and Eastern Europe** Alenka Šelih, Aleš Završnik, 2012-04-24 Full scale political change affects every level of a society but perhaps nowhere as strikingly as in the areas of crime policy and law enforcement Over the past two decades the European nations that have moved from totalitarianism toward democracy have come to embody this trend yet reliable sources on crime and law enforcement in these countries have not been readily accessible to the West Representing viewpoints seldom available to outsiders the contributors to *Crime and Transition in Central and Eastern Europe* analyze changes in criminal activities and crime control strategies in the region explain the political background underlying these developments and assess their long term social impact Experts from Slovenia Hungary Croatia Serbia the Czech Republic Poland Bosnia and Herzegovina discuss the

politicization of crime the ongoing paradoxes regarding civil liberties and the future of crime policy in comparative and country specific terms Among the topics featured in the book Crime and crime control in transitional countries politics the media and public perception of crime surveillance from national security to private industry penal policy and political change emerging trends economic and organized crime human trafficking juvenile delinquency new perspectives on corruption in the region With this fascinating insight Crime and Transition in Central and Eastern Europe is a singular reference for researchers and policymakers in criminology and political science and historians with a special interest in European affairs and policy
