Soviet Succession Struggles Anthony D'Agostino, 2024-04-12 *Soviet Succession Struggles* 1988 is a key study of the history nature and development of Soviet politics and politicians from the earliest days of Soviet Russia up to the rise of Gorbachev It examines the power struggles between opposing factions within the Soviet leadership and identifies two main political standpoints that were always vying for ultimate control of the Communist State Problems of Communism ,1983

Air University Review ,1983 From the Other Shore André Liebich,1997 This book is an inquiry into the possibilities of politics in exile Russian Mensheviks driven out of Soviet Russia and their party stripped of legal existence functioned abroad in the West in Berlin Paris and New York for an entire generation For several years they also continued to operate underground in Soviet Russia Bereft of the usual advantages of political actors the Mensheviks succeeded in impressing their views upon social democratic parties and Western thinking about the Soviet Union The Soviet experience through the eyes of its first socialist victims is recreated here for the first time from the vast storehouse of archival materials and eyewitness interviews The exiled Mensheviks were the best informed and most perceptive observers of the Soviet scene through the 1920s and 1930s From today's perspective the Mensheviks analyses and reflections strikingly illuminate the causes of the failure of the Soviet experiment This book also probes the fate of Marxism and democratic socialism as it tracks the activities and writings of a remarkable group of men and women including Raphael Abramovitch Fedor and Lidia Dan David Dallin Boris Nicolaevsky Solomon Schwarz and Vladimir Woytinsky entangled in the most momentous events of this century Their contribution to politics and ideas in the age of totalitarianism merits scrutiny and their story deserves to be told Strategic Review ,1987 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **From Brezhnev To Gorbachev** Baruch A. Hazan,2019-03-05 From 1982 to 1985 the period on which this book focuses the Soviet Union was governed by a succession of ailing old men Brezhnev Andropov and Chernenko who supported by an equally elderly Politburo were often physically incapable of controlling and directing the bureaucratic state machine and party organization This unprecedented situation precipitated a secret and bitter power struggle within the top Soviet leadership between two main factions the Chernenko apparatchiks who had risen to power under Brezhnev and owed their positions to him and the supporters of Andropov including the younger more dynamic and power hungry members of the party elite who had been advocating fairly bold reforms to deal with the grave social and economic problems facing the USSR Dr Hazan provides a detailed analysis of this hidden power struggle as he examines the final years of Brezhnev's reign and the brief ascendancies of Andropov and Chernenko These rapid changes led to the demise of the old guard in the Politburo and the emergence of a new breed of leader in Mikhail Gorbachev culminating in the final consolidation of his power at the 27th CPSU Congress Drawing on an extensive range of primary sources and using vivid examples of how the factions exploited the gigantic propaganda machine of the Soviet mass

media the author looks behind the Kremlin's walls to explore the essence of Soviet politics. The book describes the power base of each of the recent Soviet leaders and analyzes the steps they took to consolidate their positions and tighten controls over the bureaucracy and the military.

**What Happened to the Soviet Union?** Christopher I. Xenakis, 2002-09-30  
Xenakis examines the responses of Soviet experts in American academia—primarily political scientists but also economists and defense scholars—who specialized in the USSR to the unfolding evidence of Soviet reform during the 1970s and 1980s and to its ultimate collapse. He concludes that American Sovietologists and other political scientists were more responsive to the Cold War consensus, to the needs of the State Department, Defense, and CIA policy makers, and to the official Washington line of the moment than to the changing face of the Soviet Union. As Xenakis makes clear, many of the Cold War ideas and attitudes shared by Sovietologists—the notion that the USSR was an evil empire, the idea that Soviet society was irredeemably xenophobic and indolent, that the Soviet political and economic system could not be fixed or reformed, and the view that the best way for Washington to deal with Moscow's influence was to contain the USSR through arms races, global and proxy wars—were reminiscent of the policies and arguments of the Truman and Eisenhower administrations, not to the facts on the ground in the 1970s and 1980s. An important work for scholars, students, and researchers involved with Soviet and Russian studies, international political and military affairs, intellectual history, and the relationship between academia and the government.

*Mao and the Economic Stalinization of China, 1948-1953* Hua-Yu Li, 2006-02-01  
In the first systematic study of its kind, Hua-yu Li tackles one of the most important unresolved mysteries of the early history of the People's Republic of China—the economic policy shift of 1953. As a result of this policy shift, the moderate economic policies of New Democracy were abruptly terminated—much sooner than specified by the official party line—and replaced with a radical Stalinist economic program called the general line for socialist transition. Utilizing the rich archival materials released in China since the mid 1980s and Russian archival information released since the early 1990s, Li presents a compelling explanation for the policy shift. Placing the analysis within the larger context of the world communist movement, communist ideology, and Mao's complicated relationship with Stalin, this book makes it clear that the policy shift was initiated by Mao and that he did so for two reasons. First, he was committed to a history text compiled under Stalin's guidance that purported to describe the Soviet experience of building socialism in the 1920s and 1930s. Mao relied heavily on this text as a road map for China to follow in building socialism in the early 1950s. Second, Mao was driven by feelings of personal rivalry with Stalin and of national rivalry with the Soviet Union; he wanted China to achieve socialism faster than the Soviet Union had. The precise timing of the change, Li argues, resulted from Mao's belief that China was economically ready to build socialism and from his decision to interpret an ambiguous statement made by Stalin in October 1952 as a clear endorsement of a policy shift. Li asserts that Mao was a committed Stalinist, that he dominated domestic policy decision making, and that he skillfully maneuvered his way through his negotiations with Stalin in advancing his own agenda. Situating its analysis within the larger context of the world communist

movement this carefully researched book will have a profound impact on the fields of communist studies and Sino Soviet relations and in studies of Mao Stalin and their relationship      **Driving the Soviets up the Wall** Hope M.

Harrison,2011-06-27 The Berlin Wall was the symbol of the Cold War For the first time this path breaking book tells the behind the scenes story of the communists decision to build the Wall in 1961 Hope Harrison s use of archival sources from the former East German and Soviet regimes is unrivalled and from these sources she builds a highly original and provocative argument the East Germans pushed the reluctant Soviets into building the Berlin Wall This fascinating work portrays the different approaches favored by the East Germans and the Soviets to stop the exodus of refugees to West Germany In the wake of Stalin s death in 1953 the Soviets refused the East German request to close their border to West Berlin The Kremlin rulers told the hard line East German leaders to solve their refugee problem not by closing the border but by alleviating their domestic and foreign problems The book describes how over the next seven years the East German regime managed to resist Soviet pressures for liberalization and instead pressured the Soviets into allowing them to build the Berlin Wall Driving the Soviets Up the Wall forces us to view this critical juncture in the Cold War in a different light Harrison s work makes us rethink the nature of relations between countries of the Soviet bloc even at the height of the Cold War while also contributing to ongoing debates over the capacity of weaker states to influence their stronger allies      *Subversive Institutions* Valerie

Bunce,1999-01-28 From 1989 to 1992 all of the socialist dictatorships in Europe including the Soviet Union collapsed as did the Soviet bloc Yugoslavia the Soviet Union and Czechoslovakia dismembered and the Cold War international order came to an abrupt end Based on a series of controlled comparisons among regimes and states Valerie Bunce argues in this book that two factors account for these remarkable developments the institutional design of socialism as a regime a state and a bloc and the rapid expansion during the 1980s of opportunities for domestic and international change When combined institutions and opportunities explain not just when how and why these regimes and states disintegrated but also some of the most puzzling features of these developments why for example the collapse of socialism was largely peaceful and why Yugoslavia but not the Soviet Union or Czechoslovakia disintegrated through war
