Containment Policy and the Conflict in Indochina William Duiker, 1994-07-01 From the end of World War II down to the dissolution of the Soviet Union the primary objective of U S foreign policy has been to prevent the expansion of communism Indeed that objective was directly embodied in the so called strategy of containment a global approach to the pursuit of U S national security interests that was first adumbrated by George F Kennan in 1947 and later became the guiding force in U S foreign policy At first the concept of containment was applied primarily to Europe It was there that the threat to U S interests from international communism directed from Moscow was first perceived in the form of Soviet efforts to dominate the nations of Eastern Europe and extend Soviet influence into the eastern Mediterranean and the Middle East Other areas of the world Asia Africa and Latin America were considered to be less threatened by forces hostile to the free world or more peripheral to U S foreign policy concerns At least that was the view initially proclaimed by George Kennan himself who identified five areas in the world as vital to the United States North America Great Britain Central Europe the USSR and Japan Only the latter was located in Asia By the end of the decade however the focus of U S containment strategy was extended to include East and Southeast Asia primarily because of the increasing likelihood of a communist victory in the Chinese Civil War which in the minds of some U S policymakers would be tantamount to giving the Soviet Union a dominant position on the Asian mainland Added to the growing threat in China was the increasingly unstable situation in Southeast Asia where the long arc of colonies that had been established by the imperialist powers during the last half of the nineteenth century was gradually but inexorably being replaced by independent states The emergence of such colonial territories into independence was generally viewed as a welcome prospect by foreign policy observers in Washington but when combined with the impending victory of communist forces in China it raised the unsettling possibility that the entire region might be brought within the reach of the Kremlin **The Soviet Bloc And The Third World** Brigitte Schulz, William W.
