Sovereign Lives Jenny Edkins, Michael J. Shapiro, Veronique Pin-Fat, 2012-10-02 For International Relations scholars discussions of globalization inevitably turn to questions of sovereignty How much control does a country have over its borders people and economy Where does that authority come from *Sovereign Lives* explores these changes through reading of humanitarian intervention human rights discourses securitization refugees the fragmentation of identities and the practices of development

Women, Gender Equality, and Post-Conflict Transformation Joyce P. Kaufman, Kristen P. Williams, 2016-10-04 The end of formal hostilities in any given conflict provides an opportunity to transform society in order to secure a stable peace This book builds on the existing feminist international relations literature as well as lessons of past cases that reinforce the importance of including women in the post conflict transition process and are important to our general understanding of gender relations in the conflict and post conflict periods Post conflict transformation processes including disarmament demobilization and reintegration DDR programs transitional justice mechanisms reconciliation measures and legal and political reforms which emerge after the formal hostilities end demonstrate that war and peace impact and are impacted by women and men differently By drawing on a strong theoretical framework and a number of cases this volume provides important insight into questions pertaining to the end of conflict and the challenges inherent in the post conflict transition period that are relevant to students and practitioners alike

Female Combatants after Armed Struggle Niall Gilmartin, 2018-12-07 This book stems from a simple feminist curiosity that can be succinctly summed up into a single question what happens to combatant women after the war Based on in depth interviews with 40 research participants mostly former combatants within the Irish Republican Army IRA this book offers a critical exploration of republican women and conflict transition in the North of Ireland Drawing on the feminist theory of a continuum of violence this book finds that the dichotomous separation of war and peace within conventional approaches represents a gendered fiction Despite undertaking wartime roles that were empowering agentic and subversive this book finds that the post conflict moment as experienced by female combatants represents not peace and security but a continuity of gender discrimination violence injustice and insecurity The experiences and perspectives contained in this book challenge the discursive deployment of terms such as post conflict peace and security and moreover shed light on the many forms of post war activism undertaken by combatant women in pursuit of peace equality and security The book represents an important intervention in the field of gender political violence and peace and more specifically female combatants and conflict transition It is analytically significant in its

exploration of the ways in which gender operates within non state military movements emerging from conflict and will be of interest to students and scholars alike

Politics and Gender in Ireland Fiona Buckley, Yvonne Galligan, 2016-02-08 This book explores the relationship between women the state and democratic politics in Ireland today It highlights the conservatism of the political culture

shared by all traditions on the island and how this culture circumscribes women's political agency in Northern Ireland and Ireland. The book explores the opportunities and obstacles to women's participation and representation on each side of the border. The chapters take the view that public decision making institutions and processes are subject to rules and practices that reinforce the gendered foundations of democratic politics. They document women's continuing quest for full participation and equal representation in these male gendered arenas. The contributors focus on the marginalised experiences of women in modern politics in Ireland and detail their efforts to challenge the masculinized status quo. The book addresses the classical issues of citizenship participation representation and equal rights in a sustained analysis of the political systems on the island. It also deals with modern issues multiculturalism peace building the male gendered legislature and the unequal nature of women's citizenship in constitutional institutional and policy contexts. The book is completed by a comprehensive appendix of all women elected to political office on the island from 1918-2013. This book was published as a special issue of Irish Political Studies.

Global Perspectives on War, Gender and Health Hannah Bradby, 2016-04-22. Rendering the suffering of the marginalized visible has been an important aspect of feminist sociological studies of health illness and medicine with the subjective experience of those without access to institutional power being at the forefront of the research. This volume analyzes the links between the suffering caused by the intentional violence of war and the unintentional suffering engendered by modern medicinal processes. By establishing a fitting tribute to the academic and campaigning work of Meg Stacey, Global Perspectives on War, Gender and Health responds to her challenge of why medical sociology had not yet turned its gaze upon the health consequences of war. A selection of international case studies are used to create a volume of significant interest to sociologists and those working in the fields of anthropology social policy social work peace war and security studies and international development.

Gender and International Security Laura Sjoberg, 2009-10-16. This book defines the relationship between gender and international security analyzing and critiquing international security theory and practice from a gendered perspective. Gender issues have an important place in the international security landscape but have been neglected both in the theory and practice of international security. The passage and implementation of UN Security Council Resolution 1325 on Security Council operations the integration of gender concerns into peacekeeping the management of refugees post conflict disarmament and reintegration and protection for non combatants in times of war shows the increasing importance of gender sensitivity for actors on all fronts in global security. This book aims to improve the quality and quantity of conversations between feminist security studies and security studies more generally in order to demonstrate the importance of gender analysis to the study of international security and to expand the feminist research program in Security Studies. The chapters included in this book not only challenge the assumed irrelevance of gender they argue that gender is not a subsection of security studies to be compartmentalized or briefly considered as a side issue. Rather the contributors argue that gender is conceptually empirically and normatively essential to studying international security.

They do so by critiquing and reconstructing key concepts of and theories in international security by looking for the increasingly complex roles women play as security actors and by looking at various contemporary security issues through gendered lenses Together these chapters make the case that accurate rigorous and ethical scholarship of international security cannot be produced without taking account of women s presence in or the gendering of world politics This book will be of interest to all students of critical security studies gender studies and International Relations in general Laura Sjoberg is Assistant Professor of Political Science at the University of Florida She has a Phd in International Relations and Gender Studies from the University of Southern California and is the author of *Gender Justice and the Wars in Iraq* 2006 and with Caron Gentry *Mothers Monsters Whores Women s Violence in Global Politics* 2007
