Space Is The Place The Lives And Times Of Sun Ra:

Space Is the Place John Szwed, 2020-04-30 Considered by many to be a founder of Afrofuturism Sun Ra aka Herman Blount was a composer keyboardist bandleader philosopher entrepreneur poet and self proclaimed extraterrestrial from Saturn He recorded over 200 albums with his Arkestra which dressed in Egypto space costumes played everything from boogie woogie and swing to fusion and free jazz John Szwed's *Space is the Place* is the definitive biography of this musical polymath who was one of the twentieth century's greatest avant garde artists and intellectuals Charting the whole of Sun Ra's life and career Szwed outlines how after years in Chicago as a blues and swing band pianist Sun Ra set out in the 1950s to impart his views about the galaxy black people and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding Szwed's readers whether they are just discovering Sun Ra or are among the legion of poets artists intellectuals and musicians who consider him a spiritual godfather will find that indeed space is the place

Sun Ra's Chicago William Sites, 2021-01-11 Sites provides crucial context on how Chicago's Afrocentrist philosophy religion and jazz scenes helped turn Blount into Sun Ra Chicago Reader Sun Ra 1914-93 was one of the most wildly prolific and unfailingly eccentric figures in the history of music Renowned for extravagant performances in which his Arkestra appeared in neo Egyptian garb the keyboardist and bandleader also espoused an interstellar cosmology that claimed the planet Saturn as his true home In Sun Ra's Chicago William Sites brings this visionary musician back to earth specifically to the city's South Side where from 1946 to 1961 he lived and relaunched his career The postwar South Side was a hotbed of unorthodox religious and cultural activism Afrocentric philosophies flourished storefront prophets sold dream book bibles and Elijah Muhammad was building the Nation of Islam It was also an unruly musical crossroads where the man then known as Sonny Blount drew from an array of intellectual and musical sources from radical nationalism revisionist Christianity and science fiction to jazz blues Latin dance music and pop exotica to construct a philosophy and performance style that imagined a new identity and future for African Americans Sun Ra's Chicago shows that late twentieth century Afrofuturism emerged from a deep utopian engagement with the city and that by excavating the postwar black experience of Sun Ra's South Side milieu we can come to see the possibilities of urban life in new ways Four stars Sites makes the engaging argument that the idiosyncratic jazz legend's penchant for interplanetary journeys and African American utopia was in fact inspired by urban life right on Earth Spectrum Culture

Space is the Place John F. Szwed, 2020 Sun Ra aka Herman Poole Sonny Blount was born in Alabama on May 22 1914 But like Father Divine and Elijah Muhammad he made a lifelong effort to obscure many of the facts of his early life After years as a rehearsal pianist for nightclub revues and in blues and swing bands including Wynonie Harris's and Fletcher Henderson's Sun Ra set out in the 1950s to find a way to impart his values about the galaxy Black people and spiritual matters through the various incarnations of the Intergalactic Arkestra His repertoire ranging from boogie woogie swing and bebop to free form fusion and whatever Sun Ra was above all a

common Jonathan P Eburne explores this question as never before in *Outsider Theory* a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it might be to protect ourselves from bad ideas *Outsider Theory* shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution

Afrofuturism and Black Sound Studies Erik Steinskog, 2017-11-06 This book interrogates the meeting point between Afrofuturism and Black Sound Studies Whereas Afrofuturism is often understood primarily in relation to science fiction and speculative fiction it can also be examined from a sonic perspective The sounds of Afrofuturism are deeply embedded in the speculative demonstrated in mythmaking in frameworks for songs and compositions in the personas of the artists and in how the sounds are produced In highlighting the place of music within the lived experiences of African Americans the author analyses how the perspectives of Black Sound Studies complement and overlap with the discussion of sonic Afrofuturism Focusing upon blackness technology and sound this unique text offers key insights in how music partakes in imagining and constructing the future This innovative volume will appeal to students and scholars of sound studies musicology and African American studies
