Astrophysics Abstracts appearing twice a year has become one of the fundamental publications in the fields of astronomy, astrophysics and neighbouring sciences. It is the most important English language abstracting journal in the mentioned branches. The abstracts are classified under more than a hundred subject categories, thus permitting a quick survey of the whole extended material. The AAA is a valuable and important publication for all students and scientists working in the fields of astronomy and related sciences. As such, it represents a necessary ingredient of any astronomical library all over the world.

Aeronautical and Astronautical Resources of the Library of Congress Ronald S. Wilkinson, John F. Buydos, William J. Sittig, 2007. The collections of the Library of Congress in the history of aeronautics are plausibly the best in the world. Aside from some limited efforts describing aeronautics in the Library's special collections, however, no really substantial guide for researchers exists whose goal is to direct investigators to those resources on a Library-wide basis. *Aeronautical and Astronautical Resources of the Library of Congress: A Comprehensive Guide* is the first comprehensive annotated guide to the Library's collections concerning the history of aeronautics and astronautics. Excerpted from Preface, page 9.
