Spaceship Titanic:

Spaceship Titanic Richard Duprey, Brian O'Leary, 1983

Douglas Adams's Starship Titanic Terry Jones, 2007-12-18

In this thoroughly satisfying and completely disorienting novel based on a story line by Douglas Adams author of *The Hitchhiker's Guide to the Galaxy* Terry Jones recounts an unforgettable tale of intergalactic travel and mishap The saga of the ship that cannot possibly go wrong sparkles with wit danger and confusion that will keep readers guessing which reality they are in and how on earth to find their way out again At the center of the galaxy a vast unknown civilization is preparing for an event of epic proportions the launching of the greatest most gorgeous most technologically advanced Starship ever built the Starship Titanic An earthling would see it as a mixture of the Chrysler Building the tomb of Tutankhamen and Venice But less provincial onlookers would recognize it as the design of Leovinus the galaxy's most renowned architect He is an old man now and the creation of the Starship Titanic is the pinnacle achievement of his twenty year career The night before the launch Leovinus is prowling around the ship having a last little look With mounting alarm he begins to find things are not right unfinished workmanship cybersystems not working correctly robots colliding with doors How could this have happened And how could this have happened without his knowing Something somewhere is terribly wrong On the following day in an artificial event staged for the media the Starship Titanic will leave its construction dock under autopilot and a few days later make its way to the terminal to pick up passengers for its maiden voyage Although the ship will be deserted during its very first flight it is nevertheless a major event watched by all the galaxy's media Hugely magnificently the fabulous ship eases its way forward from the construction dock picks up speed sways a bit wobbles a bit veers wildly and just before it can do massive damage to everything around it appears to undergo SMEF Spontaneous Massive Existence Failure In just ten seconds the whole stupendous enterprise is over And our story has just begun Somehow three earthlings one Blerontin journalist a semideranged parrot and a shipful of disoriented robots must overcome their differences It's the only way to save the Starship Titanic The Ship That Cannot Possibly Go Wrong from certain destruction and rescue the economy of an entire planet not to mention to survive the latest threat an attack by a swarm of hostile shipbuilders

Titanic Rupert Matthews, 2022-10-01 The sinking of the Titanic on its maiden voyage in 1912 is one of the most dramatic stories in maritime history The largest passenger steamship in the world fitted with more advanced safety features than any of her rivals she was proclaimed to be virtually unsinkable Just how and why the Titanic foundered on such a beautiful April evening is the subject of this fascinating book Author Rupert Matthews has written a highly readable account of the story of the Titanic from the building of the liner to the excitement surrounding her launch the slow unfolding of an unimaginable tragedy the investigations and finally the discovery of the wreck He also explores the evidence behind the stories of heroism and cowardice related by survivors and investigates the many theories surrounding the great ship's tragic loss Includes Photographs of the Titanic her crew and passengers Eye witness accounts Personal memories
