Spain And Portugal

Jose-Juan Lopez-Portillo

Spain And Portugal:

Spain, Portugal and the Atlantic Frontier of Medieval Europe Jose-Juan Lopez-Portillo, 2016-12-05 As seen from the perspective of 1492 the medieval expansion of Latin Europe was nowhere as dramatic or enduring as in the Iberian Peninsula and the Atlantic Its Christian kingdoms continued their advance against Al Andalus up to 1492 whereas territorial expansion elsewhere against the Muslim world had either ceased or subsided by the late 13th century Castile and Portugal also transformed the Atlantic Ocean from the inaccessible dead end of Eurasia into the most promising avenue for European expansion for the first time in history The articles collected in this volume explore the causes and the nature of this expansion from a variety of historical traditions They investigate the extent to which the transference of Mediterranean traditions aided this process the characteristics of Iberian conflict that eventually led to the success of its Christian kingdoms and the motives for launching and techniques for running the first European overseas empires in the unfolding Atlantic frontier In the process they illuminate the new identities and cultural interactions that this expansion produced in its wake while the new introduction sets them in the broader context *Travels Through Portugal and Spain, in 1772 and 1773* Richard Twiss, 1775 **A History of Spain & Portugal** William Christopher Atkinson, 1960 Attempts to show as a whole the Peninsula made up of Spain and Portugal with the slow unfolding of a pattern of society and an attitude to life still subtly distinct from those north of the Pyrenees The successive occupations of Roman Visigoth and Muslim span between them more than a thousand years The Peninsula's great contribution to the modern age was the opening up of the New World in the west by Spain and of new routes to the east by Portugal Over the last century and a half the history of both peoples provides a case study in the essential relativity of forms of government **Spain and Portugal in the European Union** Paul Christopher Manuel, Sebastian Royo, 2004-06 Focusing upon the 15 years during which Spain and Portugal have been members of the European Union this collection of essays addresses issues related to the anniversary which took place in 2001 **Spain and Portugal in the New World, 1492-1700** Lyle N. McAlister, 1984 Spanish and Portuguese expansion substantially altered the social political and economic contours of the modern world In his book Lyle McAlister provides a narrative and interpretive history of the exploration and settlement of the Americas by Spain and Portugal McAlister divides this period and the book into three parts First he describes the formation of Old World societies with particular attention to those features that influenced the directions and forms of overseas expansion Second he traces the dynamic processes of conquest and colonization that between 1492 and about 1570 firmly established Spanish and Portuguese dominion in the New World The third part deals with colonial growth and consolidation down to about 1700 McAlister's main themes are the post conquest territorial expansion that established the limits of what later came to be called Latin America the emergence of distinctively Spanish and Portuguese American societies and economies the formation of systems of imperial control and exploitation and the ways in which conflicts between imperial and American interests were reconciled This comprehensive

history with its extensive bibliographic essay and attention to historiographic issues will be a standard reference for students and scholars of the period *Guide to Spain & Portugal* Henry O'Shea, 2020-05-03 Reprint of the original first published in 1869 The History of Spain and Portugal from B.C. 1000 to A.D. 1814 M. M. Busk, 1833 *Spain and Portugal* Karl Baedeker (Firm), 1898 Portugal and Spain Britannica Educational Publishing, 2013-06-01 As neighbors and early rival nations Portugal and Spain have been associated for much of their histories Yet despite their geographic proximity on the Iberian Peninsula and shared past each boasts distinct social cultural and economic identities Readers will examine the evolution of each country witnessing the rise of their earliest civilizations their dramatic rivalry during the Age of Discovery their days as empire builders their struggles through authoritarian regimes and their emergence as independent nations and members of the European Union **A History of Spain and Portugal** William C. Atkinson, 2003-01-01

Thank you for downloading **Spain And Portugal**. As you may know, people have look numerous times for their chosen books like this Spain And Portugal, but end up in harmful downloads.
