Spain To England:

Conquest and commerce James Lang, 1975-05-30 Includes index **The Image of Elizabeth I in Early Modern Spain** Eduardo Olid Guerrero, Esther Fernández, 2019-03-01 Queen Elizabeth I was an iconic figure in England during her reign with many contemporary English portraits and literary works extolling her virtue and political acumen In Spain however her image was markedly different While few Spanish fictional or historical writings focus primarily on Elizabeth numerous works either allude to her or incorporate her as a character The Image of Elizabeth I in Early Modern Spain explores the fictionalized historical and visual representations of Elizabeth I and their impact on the Spanish collective imagination Drawing on works by Miguel de Cervantes Lope de Vega Pedro de Ribadeneira Luis de Góngora Cristóbal de Virués Antonio Coello and Calderón de la Barca among others the contributors to this volume limn contradictory assessments of Elizabeth's physical appearance private life personality and reign In doing so they articulate the various and sometimes conflicting ways in which the Tudor monarch became both the primary figure in English propaganda efforts against Spain and a central part of the Spanish political agenda This edited volume revives and questions the image of Elizabeth I in early modern Spain as a means of exploring how the queen's persona as mediated by its Spanish reception has shaped the ways in which we understand Anglo Spanish relations during a critical era for both kingdoms **Report Upon the Commercial**

England's Other Countrymen Onyeka Nubia, 2019-06-15 The Tudor period remains a source of timeless fascination with endless novels TV programmes and films depicting the period in myriad ways And yet our image of the Tudor era remains overwhelmingly white This ground breaking and provocative new book seeks to redress the balance revealing not only how black presence in Tudor England was far greater than has previously been recognised but that Tudor conceptions of race were far more complex than we have been led to believe Onyeka Nubia's original research shows that Tudors from many walks of life regularly interacted with people of African descent both at home and abroad revealing a genuine pragmatism towards race and acceptance of difference Nubia also rejects the influence of the Curse of Ham myth on Tudor thinking persuasively arguing that many of the ideas associated with modern racism are in fact relatively recent developments *England's Other Countrymen* is a bravura and eloquent forgotten history of diversity and cultural exchange and casts a new light on our own attitudes towards race **Annual Report of the Director of the Mint** United States.
