Spanish Romantic Literary Theory And Criticism:

Spanish Romantic Literary Theory and Criticism Derek Flitter, 2006-04-20 This study provides a fresh assessment of Spanish Romanticism through a sympathetic appraisal of its literary theory and criticism It identifies the origins of Spanish Romantic thought in the theories of German Romantic thinkers in particular Herder s historicism The range of reference from the articles of B hl von Faber to the judgments made by Ca ete and Valera is counterpointed by the detail of close readings of books and articles published between 1834 and 1844 together with an examination of the ideas that informed the creative work of Fern n Caballero Derek Flitter s use of the history of ideas offers a corrective to the recent preponderance of political approaches to Spanish Romanticism countering their stress on its radical and liberal associations with a detailed demonstration that the majority of Spanish Romantic writers derived their inspiration from restorative traditionalist and Christian elements in their contemporaries theory and criticism *Spanish Romanticism and the Uses of History* Derek Flitter, 2024-11-01 Flitter examines those narratives within the intellectual parameters that defined them probing the conceptual strategies by which writers represented history The Oxford Handbook of European Romanticism Paul Hamilton, 2016-01-14 TThe Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally inter disciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism *Literary Criticism* Dr. V. V. Subba Rao, Dr. Deepak, Dr. A. Swathi, Dr. Sweta Priya , 2025-10-15 Literary Criticism involves the systematic analysis interpretation and evaluation of literary works The course introduces students to major critical theories and approaches including classical romantic formalist structuralist feminist psychoanalytic Marxist and postcolonial criticism It helps students understand how literature reflects and shapes cultural social and philosophical ideas Through critical reading and analytical writing learners develop deeper insights into literary texts and the evolution of critical thought **Madrid's Forgotten Avant-Garde** Silvina Schammah

Gesser,2016-04-01 This book explores the role played by artists and intellectuals who constructed and disseminated various competing images of national identity which polarized Spanish society prior to the Civil War The convergence of modern and essentialist discourses and practices especially in literature and poetry in what is conventionally called in Spanish letters The Generation of 27 created fissures between competing views of aesthetics and ideology that cut across political affiliation Silvina Schammah exposes the paradoxes facing Madrid's cultural vanguards as they were torn by their ambition for universality cosmopolitanism and transcendence on the one hand and by the centripetal forces of nationalistic ideologies on the other Taking upon themselves roles to become the disseminators and populizers of radical positions and world views first elaborated and conducted by the young urban intelligentsia their proposed aim of incorporating diverse identities embedded in different cultural constructions and discourse was to have very real and tragic consequences as political and intellectual lines polarized in the years prior to the Spanish Civil War Making Modern Spain Azariah Alfante,2024 Making Modern Spain Religion Secularization and Cultural Production is a scholarly work on Spanish religious and cultural history It is an interdisciplinary study that offers fresh insights into political and religious changes in nineteenth century Spain by foregrounding social experiences through historical analysis and literary criticism *Ruin and Restitution* Philip W. Silver,1997 In this highly suggestive work Philip Silver confronts and corrects the entire critical tradition on Spanish romanticism and suggests a new restitutional theory of that period in Spanish cultural and political history The Historical Novel in Nineteenth-Century Europe Brian Hamnett,2011-11-24 Even at the height of its popularity in the early nineteenth century the historical novel faced criticism at many levels After its predominance in the 1810s and 1820s writers and historians shunned it as a travesty of their respective disciplines Even so the historical novel has frequently attracted a wide ranging public right up to the present day Brian Hamnett examines key novels by authors including Scott Balzac Manzoni Dickens Eliot Flaubert Fontane Gald s and Tolstoy revealing the contradictions inherent in this form of fiction and exposing the challenges writers faced in attempting to represent a reality that linked past and present He argues that the historical novel in the nineteenth century was a common European phenomenon with considerable interconnection of themes and periods Accordingly the book ranges from the British Isles and France through the Germanic territories Italy and Spain to the Russian Empire identifying the different objectives and phases of the historical novel Although historical novels did appear in the two previous centuries the form came to maturity in the nineteenth century a consequence of the developing nature of history as a discipline distinct from literature and philosophy and the increasing primacy of the novel for writers and the reading public Yet the frontiers between history and literature remained blurred and the two disciplines continued to influence one another as each sought a faithful representation of human experience Culture and the State in Spain Thomas Lewis,Francisco J. Sanchez,2017-09-29 First published in 1999 Routledge is an imprint of Taylor Francis an informal company Politics of Romanticism Zoe Beenstock,2016-04-13 The Politics of Romanticism examines the relationship

between two major traditions which have not been considered in conjunction British Romanticism and social contract philosophy She argues that an emerging political vocabulary was translated into a literary vocabulary in social contract theory which shaped the literature of Romantic Britain as well as German Idealism the philosophical tradition through which Romanticism is more usually understood Beenstock locates the Romantic movement's coherence in contract theory's definitive dilemma the critical disruption of the individual and the social collective By looking at the intersection of the social contract Scottish Enlightenment philosophy and canonical works of Romanticism and its political culture her book provides an alternative to the model of retreat which has dominated accounts of Romanticism of the last century
