Confirmation Richard Robert Osmer, 1996-01-01 Confirmation is one of the most widespread practices in the contemporary church although much confusion exists about its relationship to faith Is confirmation a rite of passage Is it just one step on an unfolding journey of faith Are new privileges granted and additional responsibilities required of confirmands Christian educator Richard Robert Osmer addresses these questions as he examines the theological significance of confirmation Osmer surveys early church practices of confirmation and offers a comprehensive discussion of the particularities of the Protestant experience of confirmation including Presbyterian Episcopal Lutheran and Methodist practices He discovers a need for a renewed understanding of confirmation in today s church He proposes a two step process of confirmation that would address the unique concerns and understandings of those involved at two distinct and significant developmental transitions from youth to adolescence and from adolescence to adulthood
