[The Comprehensive Autism Planning System \(CAPS\)](#) Shawn Henry, Brenda Smith Myles, 2024-08-06 The Comprehensive Autism Planning System for Individuals CAPS is a reflection of its creator In his role as a state and national leader Shawn Henry serves as an advocate for autistic individuals Shawn and co author Brenda Smith Myles clearly describe each element of the CAPS model in a well organized text Throughout the book the authors and expert contributors highlight a variety of evidence based strategies that correspond to each area of the CAPS The CAPS model illustrates their ability to create meaningful change through realistic and practical means It's a simple yet powerful system This innovative approach helps teachers and

educational teams plan and implement a student's education across the school including the Individualized Education Program IEP and the curriculum relevant to the student. It takes the team through the process of planning out the goals objectives to be targeted in each activity of the day the modifications and accommodations that should be provided to support the student in each activity the sensory supports needed to help the student stay engaged and the communication and social supports for successful learning. It shows the type of data to collect for each area and helps to note what reinforcers have been shown to be successful. While this system was developed for use with individuals on the autism spectrum it can also be an essential tool for any student regardless of the types of supports and needs they have. There are also vocational and transitional formats that are available for students making the transition to work. The CAPS has been updated to address current trends in special education instruction and research. In this edition emphasis is placed on Inclusion Successful practices that support learning for autistic students. Updated evidence based practices and case studies that apply the CAPS system to post secondary education and employment. Through the CAPS autistic individuals have access to meaningful instruction that will allow them to reach their potential.

Autism Dominic Bucciarelli Kasony MS Ph.D. Licensed-Certified Psychologist, 2021-12-01

Autism A Practical Guide for Parents was written from the perspective of a father of children now adults with disabilities and who is also a licensed and certified psychologist and counselor. When parents are faced with serious medical problems in their children they become very gullible to exaggerated claims of cure and unethical providers. The book contains substantial information about behavioral interventions to help mediate the behavioral concerns for children with autism including an extensive reading list to help supplement the parents working knowledge and interventions. Also a section is dedicated to various and at times erroneous interventions including chelation transcranial magnetic therapy light therapy and others. A research section is included to emphasize the importance of psychometric testing and review for the development of reliable and valid testing assessment vehicles. A psychological approach to the understanding of autism begins with a specific perspective of this challenge. First of all children are children including those children with autism. Second you need to be educated about a broad spectrum of autism symptoms including behavioral medical speech and language and physical. Also you need to join with a behavioral health team including a psychologist behavioral specialist therapeutic staff support and or mobile therapist through your local managed care organization. Remember you can help make positive behavioral and emotional health changes in your child to help him/her achieve a happy healthy and productive life. I have organized this book to be an easy read for parents and professionals. I'm sure you wouldn't want to read about the abstract details of existential phenomenology but would rather let me help you understand the details of autistic behavior from the viewpoint of a

psychologist and father I hope I have succeeded in this task
