Teaching Academic Esl Writing:

Teaching Academic ESL Writing Eli Hinkel, 2003-10-17 *Teaching Academic ESL Writing Practical Techniques in Vocabulary and Grammar* fills an important gap in teacher professional preparation by focusing on the grammatical and lexical features that are essential for all ESL writing teachers and student writers to know. The fundamental assumption is that before students of English for academic purposes can begin to successfully produce academic writing they must have the foundations of language in place: the language tools grammar and vocabulary they need to build a text. This text offers a compendium of techniques for teaching writing grammar and lexis to second language learners that will help teachers effectively target specific problem areas of students writing. Based on the findings of current research including a large scale study of close to 1 500 non native speakers essays this book works with several sets of simple rules that collectively can make a noticeable and important difference in the quality of ESL students writing. The teaching strategies and techniques are based on a highly practical principle for efficiently and successfully maximizing learners language gains. Part I provides the background for the text and a sample of course curriculum guidelines to meet the learning needs of second language teachers of writing and second language writers. Parts II and III include the key elements of classroom teaching: what to teach and why, possible ways to teach the material in the classroom, common errors found in student prose and ways to teach students to avoid them, teaching activities and suggestions and questions for discussion in a teacher training course. Appendices to chapters provide supplementary word and phrase lists, collocations, sentence chunks and diagrams that teachers can use as needed. The book is designed as a text for courses that prepare teachers to work with post secondary EAP students and as a professional resource for teachers of students in EAP courses. **Teaching Academic ESL Writing** Eli Hinkel, 2004 **Teaching Academic ESL Writing** Eli Hinkel, 2009 **Teaching Academic ESL Writing** Eli Hinkel, 2004 *Goals for Academic Writing* Alister Cumming, 2006-08-10 This book documents the results of a multi year project that investigated the goals for writing improvement among 45 students and their instructors in intensive courses of English as a Second Language (ESL), then a year later in academic programs at two Canadian universities. The researchers present a detailed framework to describe these goals from the perspectives of the students as well as their instructors. The goals are analyzed for groups of students from particular backgrounds, internationally for changes over time and in relation to the ESL and academic courses. The authors use activity theory, goal theory, various sociolinguistic concepts and multiple data sources: interviews, observations, stimulated recalls, questionnaires and text analyses to provide a contextually grounded perspective on learning, teaching, writing, second language development and curriculum policy. The book will interest researchers, educators and administrators of ESL university, college and literacy programs around the world. **Teaching Academic L2 Writing** Eli Hinkel, 2020-07-30 The new edition of this comprehensive text fills an important role in teacher professional preparation by focusing on how to teach the grammar and vocabulary that are essential for all L2 writing.
