Authority in the Church David J. Stagaman, 1999 What is the source of authority when it is found in any community How did authority in the Roman Catholic Church come to be as it is In *Authority in the Church* David Stagaman provides answers to these questions He asserts that authority is not an attribute of a person for example the local bishop nor of a thing for example the Scriptures It is rather the bond experienced by all members of a community as they interact *Authority in the Church* explores relationships between official and charismatic authority and their legitimation The study also provides a basis for dissent by showing how official and charismatic exercises of authority are incomplete without it Chapter one explores how Roman Catholic Church membership has in the last fifty years shifted from an almost total preoccupation with official authority to a recognition of the necessary role charismatic authorities play in the Church Chapter two criticizes other studies that delineate authority as either a subjective reality or an objective one It also critiques two modern myths about authority that authority is opposed to sound reasoning and that it is inimical to freedom and or spontaneity Chapter three examines authority as a shared practice one that welcomes dissent Chapter four looks at the first millennium of Christianity New Testament understandings of authority the ascendance of mono episcopacy in the post apostolic era the Church's universalist mission after Constantine's edict of toleration the emergence of councils and synods as modes of government and claims for succession to Petrine primacy Chapter five begins with the turn towards centralization in Rome and a juridical understanding of ecclesial authority in the eleventh century It also notes various challenges to these two tendencies and the Avignon Schism as well as Conciliarism which brought the conflicts to their culmination in the Medieval Ages Chapter six inquires what makes Church authority Christian and then Roman Catholic It concludes with observations on the religious freedom of the baptized especially their right to speak freely in the Church Chapters are *Authority in the Church A Central Issue* and *Some Other Issues What Authority Secular or Religious Is Not What Is Authority The First Millennium The Second Millennium and The Conclusion*

The Early Church Josef Lössl, 2010-02-17 This study of the early church is written from a new religious and theological studies perspective

The Authority of Service and Love Roger Payne, 2017-11-24 The challenge to all forms of authority has become particularly acute since the middle of the twentieth century and has had a profound impact on all aspects of society It has affected relationships in the home in local communities and in the world at large It has tested parents as they seek to nurture their children It has undermined the ability of teachers to manage their classes It has forced the police to change their tactics It has required hospitals to engage with patients It has caused local and national politicians to amend legislation Many of these changes have had positive outcomes but many others are negatively charged and some remain unresolved Some issues of authority are not recognised or are simply ignored Others are carelessly or insensitively handled Some groups are in turmoil amongst competing voices of authority Other groups suffer from arbitrary and imposed authoritarian solutions This whirlwind of change has been rightly called a crisis of authority Religious communities have not been immune from all this and in some ways the crisis of authority has been more acute for those with a religious disposition Although the crisis applies to all religious groups the purpose of this book is to consider the problems facing the Christian community in particular and to offer some thoughts on possible solutions

The Church in the Latin Fathers James K. Lee, 2020-02-06 What is the church What does it mean to be a member of the church This book examines how the earliest Christian theologians in the Latin West understood the nature ends and boundaries of the church By analyzing the thought and practices of figures such as Tertullian of Carthage Cyprian of Carthage Augustine of Hippo and Pope Leo the Great James K Lee shows how early Latin theologians forged distinctive views of the church as one holy catholic and apostolic Lee argues that according to the Latin fathers the church was one complex reality with visible and invisible aspects that could be distinguished but not separated God could work outside of the church's visible bounds yet all who were saved were joined to the church's invisible bond of charity The church's unity was found in charity and for the early Latin fathers there was no salvation outside of the church In addition Lee demonstrates the trajectory from an exclusivist ecclesiology to a more inclusive understanding of church membership in the development of Latin ecclesiology over the course of the first five centuries of Christianity

The Bible in Theology and Preaching Donald K. McKim, 1999-05-05

The Oral Ethos of the Early Church Joanna Dewey, 2013-10-30 To experience the gospel message as first century people heard it is to move into an oral world one with very little reliance

on manuscripts The essays in this book explore this oral world and the Gospel of Mark within it They demonstrate the oral style of Mark's gospel which suggests that it was composed orally transmitted orally in its entirety by literate and nonliterate storytellers and survived to become part of the canon only because it was widely known orally Women's storytelling also thrived during the first centuries of Christianity With the transition to manuscript authority beginning in the middle of the second century women's voices were often minimized trivialized or completely omitted in written versions Further when the Gospel of Mark was one of four written Gospels these voices were quickly ignored An ancient audience hearing Mark performed however enjoyed a vibrant experience of the gospel message and its urgent call to follow

Divine Instruction in Early Christianity Stephen E. Witmer, 2008 Stephen E Witmer investigates an important aspect of early Christian self understanding the conviction of some early followers of Jesus that they had been and were being taught by God in fulfillment of Old Testament prophetic promises especially Isa 54:13 and Jer 31:33-34 While concentrating upon the idea of divine instruction in the Johannine corpus he also gives attention to the Pauline writings and to Matthew This allows for an analysis of the way in which multiple early Christian communities understood the concept both the unity and diversity of NT developments of the idea are noteworthy The author argues that the early Christian communities reinterpreted the prophetic promise of eschatological divine instruction in light of the teaching of Jesus and the Spirit

Inerrancy and the Spiritual Formation of Younger Evangelicals Carlos R. Bovell, 2007-03-01 In *Inerrancy and the Spiritual Formation of Younger Evangelicals* readers are urged to pastorally consider their own spiritual responsibilities toward students by taking more seriously six representative critical discoveries that students tend to make during the course of their higher education By doing this it is hoped that leaders and teachers might become more sensitive to the reality that younger evangelicals are not generally already convinced of the Bible's inerrancy and may even be secretly and frantically searching for existentially workable bibliological alternatives It behooves evangelical leaders as responsible shepherds of God's people to give their students the social and spiritual room they need to breathe by offering them acceptably orthodox alternatives for understanding the inspiration and authority of the Bible
