## **Teaching By Heart:**

Teaching by Heart Thomas J. DeLong, 2020-01-14 The best teachers are leaders and the best leaders are teachers Teaching by Heart summarizes the author's key insights gained from more than forty years of teaching and managing It illustrates how teachers can both lift people up and let them down It proposes that the best teachers are also leaders and the best leaders are also teachers In examining how to lead and teach renowned Harvard Business School professor Thomas J DeLong takes the reader inside his own head and heart He notes that as teachers we often focus more on our inadequacies and missteps than on our strengths and unique talents He explains why this is so by dissecting and analyzing his own experiences using himself as a case study The book's goal is to help readers learn about the intricacies of teaching and managing and to impart lessons about how teachers can create a unique teaching atmosphere To do this the author analyzes the process of creating a curriculum preparing for an eighty minute class managing the fifteen minutes before class begins and evaluating the nature of the teaching experience after the session concludes Along the way he connects specific classroom behaviors with leadership issues in organizations in teams and in personal relationships He also asks and answers some provocative questions such as What happens on multiple levels when I teach or lead with me students or professionals What am I thinking and feeling as I process what students are thinking and feeling How are my internal conversations affecting how I teach and lead How do I manage my biases including having favorite students To what extent can I use teaching methods in the arena of management Throughout Teaching by Heart DeLong discusses why empathy and authenticity matter When teachers embrace this mindset students have the opportunity to have a unique learning experience Teachers and managers will learn how to create moments of transformation for students Whether you're a university professor a student a business leader or just someone fascinated by teaching this book will instruct entertain and hopefully inspire

**Teaching With Heart** Judith A. Deiro, 1996-04-18 Demystifies caring by describing a set of practices that any high

school teacher can use Deiro shows that it is possible to develop healthy bonds with students without becoming intimate. Some of the practices may surprise you all are compellingly illustrated by case examples. A must read for teacher education professionals as well as for novice and experienced teachers. Thomas J. Sergiovanni, Lillian Professor of Education and Administration, Trinity University, San Antonio, Texas. *Teaching With Heart* is a book of great clarity and wisdom. I plan to recommend it widely. E. Timothy Burns, Author, Educator and Presenter, Santa Fe, New Mexico. An inspiring book, one that reaffirms what I know I'm doing well and encourages me to keep finding ways to show respect for my students. Shellie Mueller, Teacher, Sunnycrest Elementary School, Lake Stevens School District, Washington. Examines the methods that outstanding teachers use to develop healthy, caring relationships with their students without turning into counselors or parents. Identifies and discusses the teacher behaviors that sustain and support students while helping them learn. Here you'll find case studies that illustrate how you can begin to foster caring and closeness in your school or classroom. Learn to make real connections with your students to help buffer them against self-defeating behaviors common among young people. Develop these six effective strategies: Learn how to listen to their points of view. Set high standards for yourself and for your students. Encourage students to be individualistic and independent. Learn how to treat students with dignity and respect. Use discipline with humor. Make it safe for your students to learn. Deiro describes the personal and workplace resources that will encourage, sustain, and support you as you work to create caring relationships with your students. She provides a valuable framework you can use right now to begin building closer bonds in your school or classroom. If you are a classroom teacher who wants to learn to be more caring or a teacher educator or administrator who wants to teach novices or experienced staff how they can be more caring teachers, this book is the place to start. *Teaching with Heart*, Sam M. Intrator, Megan Scribner, 2014-05-19. Each and every day teachers show up in their classrooms with a relentless sense of optimism. Despite the complicated challenges of schools, they come to and remain in the profession inspired by a conviction that through education they can move individuals and society to a more promising future. In *Teaching with Heart: Poetry that Speaks to the Courage to Teach*, a diverse group of ninety teachers describe the complex of emotions and experiences of the teaching life: joy, outrage, heartbreak, hope, commitment, and dedication. Each heartfelt commentary is paired with a cherished poem selected by the teacher. The contributors represent a broad array of educators: K-12 teachers, principals, superintendents, college professors, as well as many non-traditional teachers. They range from first-year teachers to mid-career veterans to those who have retired after decades in the classroom. They come from inner-city, suburban, charter, and private schools. The teachers identified an eclectic collection of poems and poets from Emily Dickinson to Richard Wright to Mary Oliver to the rapper Tupac Shakur. It is a book by teachers and for all who teach. The book also includes a poignant Foreword by Parker J. Palmer, *The Courage to Teach*, a stirring Introduction by Taylor Mali, *What Teachers Make*, and a moving Afterword by Sarah Brown Wessling. *Teaching Channel* Where Teaching with Fire honored and celebrated the work of teachers. *Teaching with*
