Teaching Democracy Unity And Diversity In Public Life:

Teaching Democracy Walter Parker, 2003 In *Teaching Democracy* Walter Parker makes a unique and thoughtful contribution to the hot debate between proponents of multicultural education and those who favor a cultural literacy approach Parker conclusively demonstrates that educating for democratic citizenship in a multicultural society includes a fundamental respect for diversity This scholarly yet accessible work Bridges the widening gap between multicultural education and civic education provides powerful teaching strategies that educators can use to draw children creatively and productively into a way of life that protects and nurtures cultural pluralism and racial equity explains the unity diversity confusion that is found in popular media as well as in multicultural and citizenship education initiatives defines deliberative discussion and explores its promise as the centerpiece of democratic education in schools both elementary and secondary

Problems of Democracy: Probing the Boundaries , 2020-05-06 The present volume which collects some of the papers read at the First Global Conference on Problems of Democracy that the Inter Disciplinary Network organised in April May 2010 in Prague attempts to contribute to this debate by addressing some of the most pressing issues about democracy today

Teaching for Social Justice? Connie E. North, 2015-12-03 *Teaching for Social Justice* Voices from the Front Lines examines the process of four K 12 educators and a university based researcher discussing studying and acting on the potential power of social justice Through frequent lively and complex meetings these educators examine their varying educational philosophies practices and teaching sites Using experimental writing methods and qualitative methodology North bridges the great divide between teacher and academic discourse She analyzes the complex interconnected competencies pursued in the name of social justice including functional critical relational democratic and visionary literacies In doing so

she reveals the power of cross institutional democratic inquiry on social issues in education Encyclopedia of Diversity in Education James A. Banks, 2012-05-24 Presents research and statistics case studies and best practices policies and programs at pre and post secondary levels Prepub price 535 00 valid to 21 07 12 then 595 00 Advancing Social Studies Education through Self-Study Methodology Alicia R. Crowe, 2010-06-25 Advancing Social Studies Education through Self Study Methodology provides a collection of works that highlights ways in which self study of teaching and teacher education practices can advance conversations and knowledge in social studies education Some of the pieces chosen for this book will provide theoretical connections between the two fields e g how values and principles important to both fields work together are similar and can help each field expand Others will provide specific examples of self studies that focus on social studies specific concepts The book provides a strong and clear introduction of self study to the field of social studies education as well as an argument for its use to further understand social studies teaching and teacher education It also provides the self study community with an example of how self study can be used to look at content specific aspects of teaching and teacher education **Leaders in Social Education** Christine Woyshner, 2014-09-23 Research in social education over the last forty years has broken new ground in such areas as historical understanding civic education cultural studies and curriculum and assessment This collection is comprised of reflections on the professional trajectories of nineteen leading social studies scholars Demonstrating that their professional interests have emerged from their autobiographies the scholars write about their personal influences professional choices and contributions The book reveals how social justice difference and diversity and a commitment to the ongoing project of democracy have been central to their work The chapters in this volume reveal leading social educators determined sense of urgency about making the world a better place through their leadership in the field Each essay provides students practitioners and researchers alike with background on the nineteen scholars Also the scholars provide lists of their favorite publications as well as the works of other scholars that influenced them Taken together the chapters in this volume offer thoughts on the past present and future of social studies **Contemporary Readings in Curriculum** Barbara Slater Stern, Marcella L. Kysilka, 2008-03-20 This book of readings provides readers with an historical context of the curriculum field Contemporary Readings in Curriculum focuses on how curriculum may be organized and what is happening in the academic and co curriculum of schools The readings also address the political nature and current debates of curriculum and how we must be attentive to the increasingly diverse populations found in our schools **Critical Pedagogy in the Twenty-First Century** Curry Malott, Brad J. Porfilio, 2011-03-01 This book simultaneously provides multiple analyses of critical pedagogy in the twenty first century while showcasing the scholarship of this new generation of critical scholar educators Needless to say the writers herein represent just a small subset of a much larger movement for critical transformation and a more humane less Eurocentric less paternalistic less homophobic less patriarchal less exploitative and less violent world This volume highlights the finding that rigorous critical pedagogical approaches to

education while still marginalized in many contexts are being used in increasingly more classrooms for the benefit of student learning contributing however indirectly to the larger struggle against the barbarism of industrial neoliberal militarized destructiveness The challenge for critical pedagogy in the twenty first century from this point of view includes contributing to the manifestation of a truly global critical pedagogy that is epistemologically democratic and against human suffering and capitalist exploitation These rigorous democratic critical standards for measuring the value of our scholarship including this volume of essays should be the same that we use to critique and transform the larger society in which we live and work

shift toward transformative citizenship education Students scholars and educators in the fields of multicultural education civic education social studies education comparative education and the foundations of education will find this book to be a valuable resource for discussion and discovery **Ethics and International Curriculum Work** Robert J.

Helfenbein, Terrence C. Mason, 2012-08-01 The widely cited though highly contested idea that the world is flat Friedman 2004 carries with it a call for education to provide a leveling effect across continents and cultures Students in Skokie or in Skopje as the theory goes are expected to experience a school curriculum that shares certain common elements goals and purposes Such a globalized view is not however without its complications This book addresses some of the issues that arise when the transmigration of educational ideas occurs with a particular eye toward the ethical dilemmas that curriculum workers face in international contexts The authors who have contributed to this volume explore through case examples and critical reflection what happens when ideas that are drawn from one set of cultural norms and experiences is introduced into other cultural contexts In many cases these are the stories of donors and hosts of structured inequities of power and influence of disparities in material resources and as expressed in one of the cases the dynamics of the colonizer and the colonized A recurrent theme concerns the challenges faced by educators working internationally to reconcile their own ethical predispositions toward equity and cultural responsiveness with certain tacit assumptions about the appropriateness or value of curriculum practices brought from the developed world for teachers and students in the developing world How these dilemmas are navigated forms the content of this collection of reports from the field written by those who engage in this complex and important work While the content of this volume is situated at the intersection between the field of curriculum studies and comparative education it is fundamentally a book about curriculum Most of the authors come from various disciplinary backgrounds with specializations in curriculum development in content areas such as social studies geography or mathematics As outsiders looking in on the field of international education and with thoughtful reflections grounded in practice the authors provide a new set of insights into the challenges of international curriculum work Finally since many of the questions raised by the work included here are ethical in nature the book begins and ends with analyses that link the practical realities presented in the cases with contemporary philosophical thought This then can be seen as the primary contribution of the book to the educational literature as it offers a careful and well articulated synthesis of theory and practice in the field of international curriculum work This publication would make an important contribution to courses in curriculum theory and practice comparative and international education and international development outside of the field of education **Teachers, Human Rights and Diversity** Audrey Osler, 2005 How should we educate citizens in multicultural societies This question is receiving increasing attention in countries across the world In this volume authors from England Northern Ireland the Republic of Ireland and the United States report on recent research in this field and consider the implications for teachers teacher education and student teachers Case studies illustrate how young citizens can

learn to apply the principles of human rights and equality in resolving complex and controversial issues The contributors include Hilary Claire Colm O Cuanachain Carole Hahn Anne Hudson Ulrike Neins and Jackie Reilly Jill Rutter Chris Wilkins This book will be of particular interest to student teachers and their tutors Democratic Education and the Public Sphere Masamichi Ueno, 2015-07-30 This book considers John Dewey's philosophy of democratic education and his theory of public sphere from the perspective of the reconstruction and redefinition of the dominant liberalist movement By bridging art education and public sphere and drawing upon contemporary mainstream philosophies Ueno urges for the reconceptualization of the education of mainstream liberalism and indicates innovative visions on the public sphere of education Focusing on Dewey's theory of aesthetic education as an origin of the construction of public sphere chapters explore his art education practices and involvement in the Barnes Foundation of Philadelphia clarifying the process of school reform based on democratic practice Dewey searched for an alternative approach to public sphere and education by reimagining the concept of educational right from a political and ethical perspective generating a collaborative network of learning activities and bringing imaginative meaning to human life and interaction This book proposes educational visions for democracy and public sphere in light of Pragmatism aesthetic theory and practice Democratic Education and the Public Sphere will be key reading for academics researchers and postgraduate studies in the fields of the philosophy of education curriculum theory art education and educational policy and politics The book will also be of interest to policy makers and politicians who are engaged in educational reform

Educational Justice Michael S. Merry, 2019-12-20 2020 Finalist for Book of the Year Award North American Society of Social and Political Philosophy NASSP This book examines the philosophical motivational and practical challenges of education theory policy and practice in the twenty first century There is a loud and persistent drum beat of support for schools for citizenship for diversity and inclusion and increasingly for labor market readiness with very little critical attention to the assumptions underlying these agendas let alone to their many internal contradictions Merry does not neglect the historical comparative international context so essential to better understanding where we are as well as what is attainable in terms of educational justice He argues that we must constructively critique some of our most cherished beliefs about education if we are to save the hope of real justice from the rhetoric of imagined justice

Social Reconstruction Karen L. Riley, 2006-05-01 Social Reconstruction as a philosophy stream of thought or official program is often synonymous with Depression era Progressivism But Social Reconstruction unlike progressivism enjoyed political stardom The spirit of progressivism at least in terms of education found a home in those enthusiasts who supported a child centered perspective of education Others such as the essentialists viewed their progressive role as one that advanced the view of essential or basic education as the most sound approach to curriculum and teaching Still others more radical in their outlook believed that progress should be framed with questions about social justice and equity Proponents of social reconstruction included Harold Rugg and George Counts although the movement was rich

with supporters To date social reconstruction is only a by word in most texts that deal with the Progressive Era or progressive education perhaps because Rugg and Counts the two most visible proponents sought and received the political limelight no matter how glaring In any event the depths of social reconstruction have yet to be plumbed Hence the first book in this series will offer a comprehensive treatment of Social Reconstruction which include chapters that examine its proponents political nature and social justice programs born of and within the tumultuous context of progressive politics

Educating for Humanity Mike Seymour, Henry M. Levin, 2015-11-17 At a time of profound crises around the world when social justice peace democracy and the environment seem under increasing threat the promise of a world for all seems a viable aspiration for education Ample evidence from many schools today and dating back throughout the last century prove that the purpose of educating young people to develop character compassion purpose and commitment is integral with the mastery of intellectual skills and life competencies Schooling without a doubt can play a monumental part in the development of the personal values people take with them to the world Unfortunately as the saying goes if you don't know where you're going you'll probably get somewhere else Educational policy directions over the last twenty years have veered far away from the important work of educating for humanity This book makes a powerful appeal to revisit educational purpose in light of what is most fundamental and important to human beings everywhere The authors address timely issues such as high stakes testing school choice and privatization of education in looking beyond these measures to new approaches to educational excellence *The Impact of Multiculturalism on Public Education, 50 Years Later*, 2024-12-09 This volume grew out of a symposium held at the University of Alberta in March 2021 in commemoration of the 50th anniversary of official multiculturalism in Canada Scholars gathered online during the Covid 19 pandemic to take stock and reflect on the extent and ways multiculturalism legislation and evolving policy has impacted education Scholars used varied and contrasting approaches to educational theory to think about multiculturalism and its impacts including terror management theory the riddle scale art theory and pentimenti transitional justice intraminority and interminority relations the null curriculum and ideas of cultural humility hope and cultural comfort among others *Educating Teachers for Diversity* Jacqueline Jordan Irvine, 2003 *Educating Teachers for Diversity* addresses the complex issues of how culture race and ethnicity and social class influence the teaching and learning processes The author provides not only an analysis of current conditions and reforms in education but also offers suggestions and practices for improving educational outcomes for all children In this insightful and wise book Jacqueline Jordan Irvine reflects on topics ranging from the preparation of future teachers for urban schools to the role of colleges of education in current reform efforts Debunking both taken-for-granted assumptions and facile answers to complex problems she insists instead on focusing on what really matters caring for and about the most vulnerable and forgotten children in our schools Anyone interested in the future of public education today would do well to read this book Sonia Nieto author of *The Light in Their Eyes: Creating Multicultural Learning Communities* This is a book to be read by
