Teaching For Commitment Liberal Education Indoctrination And Christian Nurture:

Teaching for Commitment Elmer John Thiessen, 1993 Elmer Thiessen provides a comprehensive critical survey of the debate concerning indoctrination especially in the context of confessional religious education His central aim is to establish that indoctrination as a result of religious instruction is neither inevitable nor as probable as is often assumed by advocates of liberal education Thiessen recognizes that indoctrination can occur in Christian homes and schools He believes however that before the charge of indoctrination can be correctly evaluated we need to develop a more coherent concept of the term He provides a critical examination of the four criteria traditionally associated with indoctrination content method intention and consequences and of the institutional context of indoctrination *The Outrageous Idea of Christian Teaching* Perry Glanzer, Nathan Alleman, 2019-07-29 Hundreds of thousands of professors claim Christian as their primary identity and teaching as their primary vocational responsibility Yet in the contemporary university the intersection of these two identities often is a source of fear misunderstanding and moral confusion How does being a Christian change one's teaching Indeed should it Inspired by George Marsden's 1997 book *The Outrageous Idea of Christian Scholarship* this book draws on a survey of more than 2 300 Christian professors from 48 different institutions in North America to reveal a wide range of thinking about faith informed teaching Placing these empirical findings alongside the wider scholarly conversation about the role of identity informed teaching Perry L Glanzer and Nathan F Alleman argue that their Christian identity can and should inform professors teaching in the contemporary pluralistic university The authors provide a nuanced alternative to those who advocate for restraining the influence of one's extra professional identity and those who in the name of authenticity promote the full integration of one's primary identity into the classroom The book charts new ground regarding how professors think about Christian teaching specifically as well as how they should approach identity informed teaching more generally

Reimagining Christian Education Johannes M. Luetz, Tony Dowden, Beverley Norsworthy, 2018-07-04 This book is an arresting interdisciplinary publication on Christian education comprising works by leading scholars professionals and practitioners from around the globe It focuses on the integrated approaches to Christian education that are both theoretically sound and practically beneficial and identifies innovative pedagogical methods and tools that have been field tested and practice approved It discusses topics such as exploring programmes and courses through different lenses learning challenges and opportunities within organisational management theology of business Christian models of teaching in different contexts job preparedness developing different interpretive or meaning making frameworks for working with social justice people with disability non profit community organisations and in developing country contexts It offers graduate students teachers school administrators organisational leaders theologians researchers and education practitioners a fresh and inspiring reimagining of Christian education perspectives and practices and the ramifications of their application to life long learning

Communicating Faith John Sullivan, 2011 This book enriches appreciation of the many ways that Christian faith is

communicated It casts light on the sensitivities skills and qualities necessary for the effective communication of faith where justice is done both to the seed to be sown and to the soil being cultivated **Even When No One is Looking** Jan

Hábl,2018-09-21 This book is not a list or an overview of various theories of ethics Nor is it a didactic manual for specific teaching units on moral education aimed at some group based on age or a particular theme although some educational frameworks will be proposed As the title suggests the book intends to seek the starting points or foundations without which no moral education would be possible The goal is to formulate and tackle the key questions that precede all moral education What makes good vs evil language possible and meaningful Can virtue be taught and learned What makes our actions good What is the condition of human nature Are we naturally good or evil What constitutes an educator s right to morally influence anyone else not just a child What is the goal of moral education What does a morally educated person look like And how can we ensure the coveted moral result Or in the words of Jan Amos Comenius the teacher of nations how to educate a person to not only know what is good but also to want what is good and to do what is good even when no one is looking **Mere**

Education Mark A Pike,2013-09-26 The word mere is used in the title of this book in its Middle English sense as an adjective nothing less than complete This book is about schooling for a fair and vibrant society it is about an education of hope education that completes a person In The Magician s Nephew 1955 the first in C S Lewis Chronicles of Narnia series Digory and Polly are dragged back through time into a world that is Religion in Education William K. Kay,Leslie J. Francis,1997

Debates in Religious Education L. Philip Barnes,2023-08-10 This essential book provides a comprehensive introduction to current debates in religious education Exploring the rich variety of opinions and ideas that constitute and impact upon religious education both novice and experienced teachers will benefit from deepening their theoretical knowledge and understanding through reading Debates in Religious Education This second edition has fully updated all chapters and included an additional thirteen new contributions providing a provocative yet informative introduction to current debates and allowing teachers to reach informed decisions about how they approach this subject Responding to recent controversy and challenging assumptions about the place of religion in education expert contributors cover key topics such as The aims of religious education Religious education in the United Kingdom and Ireland Agreed syllabuses and the role of Standing Advisory Councils Educational issues such as the right of withdrawal collective worship and faith schools Teaching and learning in religious education Multi faith religious education Relating science and religion With its combination of expert opinion and fresh insight this essential text is the ideal companion for any student or practising teacher engaged in initial training continuing professional development or Master s level study *Issues of Faith-Based Education in the United Kingdom* Andrew B. Morris,2024-01-23 The existence of state supported Catholic and other faith based schools in the UK has become a matter of controversy in recent years as the previously tolerant acceptance of their role in the English educational system has come under attack This book seeks to explain to both proponents and sceptics of religiously based educational

provision how the maintained Catholic sector originated what it seeks to do and its contribution to society It describes the Church's understanding of the primacy of parents in the education of their children and the limits of the state's legitimate role The book will be of value to anyone interested in understanding Catholic schools those who send their children to them and those who are working and teaching in them or aspire to do so Pentecostal and Charismatic Education William K. Kay, Ewen H. Butler, 2023-08-29 The enormous Pentecostal and charismatic movement often called Renewalist has highlighted the power of the Holy Spirit but has rarely emphasized the movement's educational range and reach Formal and informal teaching in many schools colleges seminaries church campuses homes and parachurches all contribute to a scattered and varied teaching impetus Pentecostal and Charismatic Education Renewalist Education Wherever it is Found looks at education through the eyes of those who see God at work in the world through the church and beyond The book explores questions like What should parents look for in a child's education and what choices do they have What educational role can churches have This book offers a worldview invested with traditional Christian theology but also enlivened by an understanding of the continuing outpouring of the Holy Spirit *Pedagogy and Education for Life* Trevor H. Cairney, 2018-04-30 There are many books on Christian education but few consider pedagogy with a biblical focus on formation and a grounding in varied related disciplines This book seeks to recapture the term pedagogy and place it at the center of the teacher's role not as a pseudonym for other things but as the critical foundation for the orchestration of classroom life This is a view of pedagogy that accepts that children come to classrooms as inhabitants of multiple and varied communities Some are known and shared with teachers but many are not Children cannot be left to find their way in the world for as they encounter competing and contradictory worlds their hopes dreams and intentions are shaped Teachers play a key role in students formation by shaping classroom life for all of life is used by God to reveal himself The things taught the priorities set and activities planned the experiences structured and books shared indeed everything in and outside school acts upon and shapes our students Pedagogy is the vehicle for shaping the life of the school Learning requires more than subject content and good teaching The central task of teachers is the development of a pedagogy that shapes life This book offers challenge and guidance as teachers engage in this noble task In Defence of Religious Schools and Colleges Elmer John Thiessen, 2001 It is often argued that religious schools and colleges promote intolerance divisiveness and fanaticism and that they violate the principle of academic freedom Some writers also suggest that economic support for religious schools by the state violates the principle of the separation of church and state Elmer Thiessen provides a philosophical defence of religious schools and colleges against these and other standard objections He concludes with a radical proposal a pluralistic educational system will better prepare students for citizenship in pluralist liberal democracies than a monopolistic state maintained school system In placing his argument within the context of liberal democratic values Thiessen gives concrete examples of objections to religious schools and offers practical suggestions that follow from the philosophical treatment of

the problem In *Defence of Religious Schools and Colleges* bridges the gap between philosophical argument and educational practice It will be of interest not only to philosophers and educational theorists but also to practitioners in education Academics policy makers political theorists lay people teachers administrators and parents those who object to religious schools and colleges and those who find themselves trying to answer the objections will benefit from reading this book

Children, Religion and the Ethics of Influence John Tillson, 2019-06-13 In *Children Religion and the Ethics of Influence* John Tillson develops a theory concerning which kinds of formative influence are morally permissible impermissible or obligatory Applying this theory to the case of religion he argues that religious initiation in childhood is morally impermissible whether conducted by parents teachers or others Tillson addresses questions such as how we come to have the ethical responsibilities we do how we understand religion how ethical and religious commitments can be justified and what makes children ethically special *Encyclopedia of Christian Education* George Thomas Kurian, Mark A.

Lamport, 2015-05-07 Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church As a result Christian education remains one of the largest and oldest continuously functioning educational systems in the world comprising both formal day schools and higher education institutions as well as informal church study groups and parachurch ministries in more than 140 countries In *The Encyclopedia of Christian Education* contributors explore the many facets of Christian education in terms of its impact on curriculum literacy teacher training outcomes and professional standards This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian education across the globe illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy home schooling Sunday schools women's education graded schools compulsory education of the deaf and blind and kindergarten With an editorial advisory board of more than 30 distinguished scholars and five consulting editors *The Encyclopedia of Christian Education* contains more than 1 200 entries by 400 contributors from 75 countries These volumes covers a vast range of topics from Christian education History spanning from the church's founding through the Middle Ages to the modern day Denominational and institutional profiles Intellectual traditions in Christian education Biblical and theological frameworks curricula missions adolescent and higher education theological training and Christian pedagogy Biographies of distinguished Christian educators This work is ideal for scholars of both the history of Christianity and education as well as researchers and students of contemporary Christianity and modern religious education **Learning in**

the Way Jeff Astley, 2000 Adult Christian learning is central to the life of the Christian church and is essential for its health outreach and very survival Leading Christian educators here apply the principles of Christian education to adult learning in the churches and present the results and methods of empirical research relevant to the church's ministry of adult Christian education This book will be of interest to all who are concerned for the ways in which adults learn to be Christian The editor Jeff Astley is Director of the North of England Institute for Christian Education and Honorary Professorial Fellow in Practical
