Teaching Information Skills:

Teaching Information Skills Jo Webb, Chris Powis, 2004 Informed by best teaching practice and contemporary learning theories the text covers both the theory and practice of library instruction Each chapter has two parts a section explaining the principles of learning and teaching followed by a section analysing successful learning and teaching activities rooted in personal experience The book draws best practice examples and brand new case studies from a broad range of sectors and organizations Each of the main chapters is based around one of the key elements of successful learning and teaching specifically applied to the LIS context New and expanded topics for this edition include discussion of distance learning and technology enabled learning and when and how to buy in commercial services to support your teaching EDITOR *Teaching Information Literacy Skills to Social Sciences Students and Practitioners* Douglas Cook, Natasha Cooper, 2006 Teaching Information Literacy to Social Sciences Students Practitioners is a second discipline based casebook from ACRL This volume is based on the ACRL Information Literacy Competency Standards and presents cases on learning situations and how they can be analyzed and addressed Also included are descriptions of instruction sessions for each case notes and teaching resources Each case explicitly reflects one or more of the ACRL Information Literacy Standards This practical collection of cases and applications brings a new set of resources to librarians doing instruction in the social sciences Contributors cover such topics as data literacy visual literacy and developmental research skills training Information on teaching undergraduate graduate and international students and how to incorporate information literacy into various social science curricula are also presented *Using Technology to Teach Information Literacy* Thomas P. Mackey, Trudi E. Jacobson, 2008 Why teach information literacy technology literacy and discipline specific research skills separately when teaching them together fires students imaginations improves learning visibly demonstrates the value of your library s unique services and expertise to faculty and lets you reach students who might never otherwise walk through the library s doors The first book on teaching information literacy with technology across the curriculum is full of case studies and lesson plans that will help you put together a cutting edge technology based course for your institution Each chapter is co written by a librarian faculty member team involved in a collaborative teaching with technology project An overview of the literature will help you explain the value of this dynamic approach to faculty and administration Chapter authors represent a wide range of institutions and disciplines they give you course goals and organization the hows and whys of the technologies used and pitfalls to avoid Featured technologies include collaborative web tools presentation software video and other multimedia podcasts blogs wikis and more Every academic library will want to have a copy of this book as will any faculty member involved in teaching information literacy *Information Literacy and Information Skills Instruction* Nancy Pickering Thomas, Sherry R. Crow Ph.D., Judy A. Henning, Jean Donham Ph.D., 2020-06-09 Exploring the ways in which today s Internet savvy young people view and use information to complete school assignments and make sense of everyday life this new edition provides a review of

the literature since 2010 The development of information literacy skills instruction can be traced from its basis in traditional reference services to its current growth as an instructional imperative for school librarians Reviewing the scholarly research that supports best practices in the 21st century school library this book contains insights into improving instruction across content areas drawn from the scholarly literatures of library and information studies education communication psychology and sociology that will be useful to school academic and public librarians and LIS students In this updated fourth edition special attention is given to recent studies of information seeking in changing instructional environments made possible by the Internet and new technologies This new edition also includes new chapters on everyday information seeking and motivation and a much expanded chapter on Web 2 0 The new AASL standards are included and explored in the discussion This book will appeal to LIS professors and students in school librarianship programs as well as to practicing school librarians

Teaching Information Fluency Carl Heine,Dennis O'Connor,2013-11-14 *Teaching Information Fluency* describes the skills and dispositions of information fluency adept searchers Readers will receive in depth information on what it takes to locate evaluate and ethically use digital information The book realistically examines the abilities of Internet searchers today in terms of their efficiency and effectiveness in finding online information evaluating it and using it ethically Since the majority of people develop these skills on their own rather than being taught the strategies they invent may suffice for simple searches but for more complex tasks such as those required by academic and professional work the average person s performance is adequate only about 50% of the time The book is laid out in five parts an introduction to the problem and how search engine improvements are not sufficient to be of real help speculative searching investigative searching ethical use and applications of information fluency The intent of the book is to provide readers ways to improve their performance as consumers of digital information and to help teachers devise useful ways to integrate information fluency instruction into their teaching since deliberate instruction is needed to develop fluency Since it is unlikely that dedicated class time will be available for such instruction the approach taken embeds information fluency activities into classroom instruction in language arts history and science Numerous model lessons and resources are woven into the fabric of the text including think alouds individual and group search challenges discussions assessments and curation all targeted to Common Core State Standards as well as information fluency competencies

Teaching Information Skills in Schools James E. Herring,1996 *The Internet and Information Skills* James E. Herring,2004 Internet access is now the norm in primary and secondary schools This text provides teachers and school librarians with the ability to effectively exploit the internet as both a learning and teaching resource to improve their skills in accessing relevant parts of the internet to improving their teaching

Getting the Buggers to Learn 2nd Edition Duncan Grey,2010-06-01 provides an excellent synopsis of a range of different aspects of student learning a thorough and thought provoking book TES If I had to choose just one book to teach best practice for learning across the curriculum then *Getting the Buggers to Learn* would be a hot contender It is also

an excellent resource for any thinking skills programme I wish I had had access to this book when I developed a research model for students at my school The book is clearly structured and sequenced and it is easy to navigate your way round and find information quickly Don't walk run to your local bookshop and order a copy of this book immediately Teacher review The new edition of this successful book is an invaluable guide for teachers containing a variety of strategies to develop students learning skills Covering everything from traditional learning approaches to more innovative methods such as how technology and the media can be used to great effect Duncan Grey writes accessibly and entertainingly Brimming with top tips and innovative advice this book will prove extraordinarily helpful to teachers everywhere This edition features fully updated sections on assessment teaching and learning styles and thinking skills The Reference Information Skills Game Myram Forney Tunnicliff, Susan Sheldon Soenen, 1995-04-15 This simple new approach to teaching information skills takes students beyond mere fact finding to designing and recording search strategies Structured as a game with search maps award badges and search strategy suggestions the activities help students acquire and sharpen reference information retrieval and problem solving skills on a daily basis As they explore print materials and audiovisual computer and human sources they also build their background knowledge in a variety of subjects Credit is given for process search strategy as well as for product fact finding With these activities school librarians and teachers collaborate as a teaching team to meet goals for improved reference skills Adaptable to any size and format of library media center or classroom the game has been successfully used at middle and high school levels in both libraries and classrooms A classified subject index bibliography of sources and alphabetical index ease the process of curriculum integration **Information Literacy and Information Skills**

work practices demonstrate that the use of new technologies and media is best understood and integrated into work practices. In this process of merging both are remodelled and rearranged while being adapted to the practices and activities for which they were designed.

Empowering India Through Digital Literacy (Vol. 2) Dr. S. Kalaivani & Dr. K. Saileela,
Business Planning for Digital Libraries Mel Collier, 2010 This book brings together international experience of business planning for digital libraries the business case planning processes costs and benefits practice and standards and comparison with the traditional library. Although there is a vast literature already on other aspects of digital libraries business planning is a subject that until now has not been systematically integrated in a book. Digital libraries are being created not only by traditional libraries but also by museums archives media organizations and any institution concerned with managing scientific and cultural information. *Business Planning for Digital Libraries* is designed for practitioners in the cultural and scientific sectors for students in information sciences and cultural management and in particular for people engaged in managing digital libraries and repositories in electronic publishing and e learning and in teaching and studying in these fields.

Library Services for Open and Distance Learning Marie Kascus, ALEXANDE L. SLADE, 2000-06-15 As the electronic era blurs the boundaries between conventional and distance education and between remote and in person library users the literature on library issues and distance learning has proliferated immensely. This work helps you keep abreast of the phenomenal changes taking place in the field of education and the issues they raise for libraries. Identifying and describing more than 750 works published since its precursor was completed in 1995 the book provides a comprehensive record of the current literature about distance and open learning in post secondary education programs. The authors cover all types of materials from around the world ranging from brief news items to major research reports and dissertations. In this edition special emphasis is given to web based distance education. Access is provided through four indexes author geographical institution and subject and indexes are cumulative from the previous two bibliographies.

MORE Best Practices for Elementary Classrooms Randi Stone, 2009-09-04 In this sequel to Randi Stone's *Best Classroom Practices* award winning elementary teachers showcase their best strategies for classroom management instruction involving parents and making inclusion work.
