Teaching English language learners has long presented challenges for teachers tasked with bringing these students to a level of language comprehension comparable to that of native speakers. These challenges and issues can lead to difficulty comprehending core academic topics for those learning the English language. *Optimizing Elementary Education for English Language Learners* is a critical scholarly publication that explores the importance of English as a Second Language (ESL) education as well as the challenges that can arise in striving for effective and engaging learning environments for the students involved. Featuring a broad scope of topics such as effective lesson plans, teacher education and preparation, and the education achievement gap, this book is geared toward academicians, practitioners, and researchers seeking current research on effective teaching strategies for teachers of English language learners. *Resources in Education*, 1999-04. *Innovative Curriculum Materials*, 1999.

Literacy Coaching Dale E. Moxley, Rosemarye T. Taylor, 2006-03-13. This research-based handbook guides school leaders in successfully implementing a literacy coaching program to drive schoolwide literacy achievement. *Teaching Skills for Complex Text* Heidi Anne E. Mesmer, 2016-12-23. This book will help elementary school teachers equip their students with practical tools and understandings of the structures and conventions that allow them to excel, including concrete tools, passages, games, lessons, and examples to teach anaphora, connectives, paragraph structure, evidence gathering, fiction and non-fiction, and text challenge. Back cover. *Resources for Preparing Middle School Mathematics Teachers* Cheryl Beaver, Laurie J. Burton, Maria Gueorguieva, Gargova Fung, Klay Kruczek, 2013. Cheryl Beaver, Laurie Burton, Maria Fung, Klay Kruczek, editors. Cover. *The Administration and Supervision of Reading Programs* Shelley B. Wepner, Joan T. Feeley, Dorothy S. Strickland, 2002. Now in its Third Edition, this popular textbook offers valuable information about administering effective reading programs from the pre-elementary through the college level. All chapters have been revised to include the most current information, trends, and research, and a new chapter has been added on college/university reading programs.

Essential Questions in Adolescent Literacy Jill Lewis, 2009-05-04. In each chapter of this unique volume, an exemplary teacher collaborates with a prominent scholar to present real-world strategies for putting literacy research to work in grades 5-12. These lively dialogues tackle key questions in adolescent literacy, including issues of motivation, critical thinking skills, content area writing, differentiated instruction, assessment, English language learning, and technology. Suggestions for incorporating adolescents out of school, literacies, and working with reading specialists and coaches show how to build connections between the classroom and wider communities. In-depth portraits of challenges and successes in the classroom, practical instructional tips, and stimulating questions for reflection make the book a valuable resource for inservice and preservice teachers. *Handbook of Reading Disability Research* Anne McGill-Franzen, Richard Allington, 2010-09-17. Bringing together a wide range of research on reading disabilities, this comprehensive Handbook extends current discussion and thinking beyond a narrowly defined psychometric perspective. Emphasizing that learning to read proficiently is a long-term developmental process involving many interventions of various kinds, all keyed to individual

developmental needs it addresses traditional questions What is the nature or causes of reading disabilities How are reading disabilities assessed How should reading disabilities be remediated To what extent is remediation possible but from multiple or alternative perspectives Taking incursions into the broader research literature represented by linguistic and anthropological paradigms as well as psychological and educational research the volume is on the front line in exploring the relation of reading disability to learning and language to poverty and prejudice and to instruction and schooling The editors and authors are distinguished scholars with extensive research experience and publication records and numerous honors and awards from professional organizations representing the range of disciplines in the field of reading disabilities Throughout their contributions are contextualized within the framework of educators struggling to develop concrete instructional practices that meet the learning needs of the lowest achieving readers

Groth,2012-08-10 A journey into the vibrant and intriguing world of mathematics education Teaching Mathematics in Grades 6 12 explores how

research in mathematics education can inform teaching practice in grades 6-12. The author shows secondary mathematics teachers the value of being a researcher in the classroom by constantly experimenting with methods for developing students' mathematical thinking and then connecting this research to practices that enhance students' understanding of the material. The chapters in Part I introduce secondary teachers to the field of mathematics education with cross-cutting issues that apply to teaching and learning in all mathematics content areas. The chapters in Part II are devoted to specific mathematics content strands and describe how students think about mathematical concepts. The goal of the text is to have secondary math teachers gain a deeper understanding of the types of mathematical knowledge their students bring to grade 6-12 classrooms and how students' thinking may develop in response to different teaching strategies. *ENC Focus*, 1999
