This is in part due to the emergence of social media platforms which allow a participatory audience something that genre specific television channels now rely on. Because these genre specific 24 hour channels seek to hook viewers with hyperbolic presentation and the illusion of large media events the original definition must be adapted. *Global Perspectives on Media Events in Contemporary Society* seeks to re define the role of the media in relaying information about current events within a modern context. Determining what constitutes as and the proper presentation of a media event is of great importance given the ubiquity of media consumption. This book approaches the topic from historical ceremonial and globally cultural perspectives while addressing news sports and other significant current events. It is a vital resource for students and teachers of communication media and journalism professionals in the media industry policy makers and sociologists. *International Perspectives on Feminism and Sexism in the Film Industry* Sarı, Gülşah, Çetin, Derya, 2019-11-22 Gender studies has maintained its status as a heavily researched field. However women and their role in cinema is a vastly understudied topic that deals with various aspects of feminism and sexism. The function of women in the film industry has evolved over time and proven to be an interesting area of research regarding the transition from sexual icons to respected professionals. Feminism is a widely researched subject yet its specific application within cinema is an area that has yet to be studied. *International Perspectives on Feminism and Sexism in the Film Industry* is an essential reference source that examines the representation of women in cinema and provides a feminist approach to various aspects of the film industry including labor production and the cultural impact of women in motion pictures. Featuring research on topics such as violence against women feminist film theory and psychoanalysis this book is ideally designed for directors industry professionals writers screenwriters activists professors students administrators and researchers in fields that include film studies gender studies mass media and communications. *Global Perspectives on Journalism in Nepal* Bhanu Bhakta Acharya, Shyam Sharma, 2022-04-07 With more than 1000 newspapers 1100 local radios 200 television channels 3000 online news portals and over 80 colleges providing media education and training news media and media education are vibrant fields in Nepal.
