Special Teaching for Special Children Ann Lewis, Brahm Norwich, 2004-11-16 I recommend this book as an important contribution to the debate on pedagogy in special education It is largely well written and informative and rich with ideas and opinions Educational Review What if anything is special about teaching children with special or exceptional learning needs This book addresses this question looking at pupils' special learning needs including low

attainment learning difficulties language difficulties emotional and behavioural problems and sensory needs Some special needs groups for example dyslexia have argued strongly for the need for particular specialist approaches In contrast many proponents of inclusion have argued that good teaching is good teaching for all and that all children benefit from similar approaches Both positions fail to scrutinise this issue rigorously and coherently and it is this aspect which distinguishes this book Leading researchers in each special needs field defend and critique a conceptual analysis of teaching strategies used with particular learner groups with special educational needs Summaries by the editors after each chapter link pedagogic strategies knowledge and curriculum to key points from the chapter and pave the way for discussion This book is indispensable reading for students policy makers researchers and professionals in the field of special educational needs and inclusion Shortlisted for the TES NASEN Book Awards 2005

Teaching Young Children: Choices In Theory And Practice Mac Naughton, Glenda, Williams, Gillian, 2008-11-01 This book presents early childhood students and staff with a broad and diverse range of teaching techniques to support children's learning. It examines 26 techniques ranging from simple ones such as describing and listening to more complex methods such as deconstruction and scaffolding. The strategies selected are derived from the best current research knowledge about how young children learn. A detailed evaluation of each strategy enables childcare staff, early childhood teachers, and students to expand their repertoire of teaching strategies and to critically evaluate their own teaching in early childhood settings. Vignettes and examples show how early childhood staff use the techniques to support children's learning and help to bring the discussion of each technique to life. Revised and updated in light of the latest research, new features include: Coverage of the phonics debate; Addition of ICT content; Questions for further discussion; Revision to the chapter on problem solving; Updated referencing throughout.

Teaching Young Children is key reading for students and experienced early childhood staff working in diverse settings with young children.
