Indian seer don Juan Matus As a philosophy it is a method of inquiry using the Toltec three Rs re examination re interpretation and re formulation As a way of perceiving the world it offers sophisticated processes of managing perception through dreaming visions and learning to see the world as both ordinary and non ordinary reality By contrasting and balancing these two realities we are able to stand apart from both and pick and choose the best each has to offer Learning how to become a true seer enables us to realize the purpose and meaning of our life The works of Carlos Castaneda have long been among the best known introductions for those who wish to study the Toltec Way However many who want to learn the practical and technical aspects of this path have found it difficult to discern the details of the techniques buried in Castaneda s narrative In this book Ken Eagle Feather provides a complete and accessible explanation of all the technical aspects of the Toltec spiritual and mystical practices He offers a thorough exploration of Castaneda s works and a verification of don Juan Matus s teachings through his own 30 years of personal experiences and observations of the Toltec Way On the Toltec Path serves as a practical guide to the Toltec Way and offers a valuable complement to the narrative works of Castaneda and other Toltec authors *The Toltec Path of Recapitulation* Victor Sanchez,2001-07-01 A ten step technique based on the teachings of the Toltecs that allows the reader to heal from traumatic life events and emerge with new energy and direction Introduces the practice of Recapitulation a method used by the indigenous people of Mexico to restore balance to the psyche Ideal for people suffering the effects of childhood trauma broken relationships abuse depression anxiety and other psychological stresses What if it were possible to revisit the traumatic or difficult events of our past and emerge renewed re energized and healed from the damage left within us by these events The practice of Recapitulation can do just this through a series of energetic exercises that can ultimately free us from the repetitive emotional conflicts and persistent negative patterns that often result from trauma Victor Sanchez shares with the reader both the philosophy and practical applications of this ancient Toltec technique Anyone who has lived through a long difficult experience perhaps a serious illness broken relationship sexual abuse or a childhood spent in a divisive family environment can benefit from this process Recapitulation makes it possible to actually relive and resolve the events that have caused emotional distress In this clear and straightforward workbook the author guides readers through the ten steps of Recapitulation and invites them to experience the powerful and positive new energy that results from healing the wounds of the past The Toltec Path of Recapitulation offers an ancient ritual of renewal for the contemporary world **Mediality on Trial** Ehler Voss,2020-09-21 This volume addresses controversies connected to the testing of the capacities and potentials of mediums Today we commonly associate the term medium with the technical communication between transmitters and receivers Yet this term likewise applies to those who cooperate with agencies that exceed the presumed domain of the material world Insofar as one presumes a division between distinctly opposed categories of religion and the secular technical media tend to be associated with the secular and human trance mediums tend to be associated with religion after 1900 This volume concerns the ways in

which the term medium still marks an overlapping of and thus problematizes the aforementioned division between religion and the secular the personal and the technological The term medium carries with it a seed of doubt that is itself inseparable from investment in the medium's power insofar as they communicate with an other realm mediums offer the hope and promise of new possibilities and improved efficiency and thus of a better life yet they have simultaneously been under suspicion of altering or even inventing the messages they communicate It is due to this combination of promise and suspicion that mediumism has tended to evoke scientific religious and moral controversies Thus we can speak of a mediumistic trial that is a process in which a medium is put to the test concerning its potentials and trustworthiness Around 1800 experts were asked if a modern secular institution would be capable of inspiring domesticating or excluding trance mediumship This question has stayed with us ever since and the answers have remained inconclusive That is why the past and present of mediumship may be asked to elucidate each other
