Tech A Centenary History Of The Royal Melbourne Institute Of Technology:

The Tech Stephen Murray-Smith, Anthony John Dare, 1987 The authors have approached the story of RMIT as part of the history of Australia and in doing so have produced a major and pioneering contribution to the debate on the reasons for the present economic and industrial problems of the nation seen from the standpoint of technical education *A History of the Modern Australian University* Hannah Forsyth, 2014-10-01 In 1857 all of the Arts students at the University of Sydney could fit into a single photograph Now there are more than one million university students in Australia After World War II Australian universities became less elite but more important growing from six small institutions educating less than 0.2 per cent of the population to a system enrolling over a quarter of high school graduates And yet universities today are plagued with ingrained problems More than 50 per cent of the cost of universities goes to just running them They now have an explicit commercial focus They compete bitterly for students and funding an issue sharply underlined by the latest federal budget Scholars rarely feel their vice chancellors represent them and within their own ranks academics squabble for scraps Knowing Australia is a perceptive clear eyed account of Australian universities recounting their history from the 1850s to the present Investigating the changing nature of higher education it asks whether this success is likely to continue in the 21st century as the university's hold over knowledge grows ever more tenuous *A Skilled Hand and Cultivated Mind* Harriet Edquist, Elizabeth Grierson, 2008 [The Cambridge Economic History of Australia](#) Simon Ville, Glenn Withers, 2014-10-08 Australia's economic history is the story of the transformation of an indigenous economy and a small convict settlement into a nation of nearly 23 million people with advanced economic social and political structures It is a history of vast lands with rich exploitable resources of adversity in war and of prosperity and nation building It is also a history of human behaviour and the institutions created to harness and govern human endeavour This account provides a systematic and comprehensive treatment of the nation's economic foundations growth resilience and future in an engaging contemporary narrative It examines key themes such as the centrality of land and its usage the role of migrant human capital the tension between development and the environment and Australia's interaction with the international economy Written by a team of eminent economic historians The Cambridge Economic History of Australia is the definitive study of Australia's economic past and present *Teaching Geographic Information Science and Technology in Higher Education* David Unwin, Nicholas Tate, Kenneth Foote, David DiBiase, 2011-11-29 Geographic Information Science and Technology GISc T has been at the forefront of education innovation in geography and allied sciences for two decades Teaching Geographic Information Science and Technology in Higher Education is an invaluable reference for educators and researchers working in GISc T providing coverage of the latest innovations in the field and discussion of what the future holds for GI Science education in the years to come This book clearly documents teaching innovations and takes stock of lessons learned from experience in the discipline The content will be of interest both to educators and researchers working in GISc T and to educators in other related fields

More importantly this book also anticipates some of the opportunities and challenges in GI Science and Technology education that may arise in the next decade As such it will be of interest to chairs deans administrators faculty in other subfields and educators in general Innovative book taking a look at recent innovations and teaching developments in the course provision of GI Science and Technology in higher education Edited by leaders in the field of GISc T who have been at the forefront of education innovation in GI Science and allied science subjects Provides coverage of GISc Technology in a range of institutional settings from an international perspective at all levels of higher education An invaluable text for all educators within the field of GISc T and allied subjects with advice from experts in the field on best practice Includes coverage and practical advice on curriculum design teaching with GIS technology distance and eLearning with global examples from leading academics in the field

Emperors in Lilliput Jim Davidson, 2022-10-05 Lilliput in this dual biography is the world of literary magazines in Australia between the 1940s and the 1980s Here Clem Christesen and Stephen Murray Smith of the journals Meanjin and Overland were determined driven visionaries Both were very human and occasionally bruised believers in and workers for a better nation The book ranges from before the Menzies era and the Cold War through the Whitlam period and beyond to the challenges of the 1980s It shows how the editors constantly aimed for a culture more liberal diverse and developed than the one then prevailing Their publications may have lacked resources and economic return but they nonetheless possessed authority regularly providing stimulation for their readers and for the nation In finely wrought detail Jim Davidson the second editor of Meanjin traces the commitment of Christesen and Murray Smith to this ambitious cultural project and how it attracted many of the key writers and thinkers of those years There are pen portraits of many of them as the reader is taken behind the scenes Emperors in Lilliput exhibits the enlightened creative spirit animating these journals at their best It is at once captivating biography and rich social history

First World War, the Universities and the Professions in Australia 1914-1939 Kate Darian-Smith, James Waghorne, 2019-02-19 Australia's extraordinary contribution to World War I extended well beyond its military forces to the expertise of its universities and professional men and women Scientists and engineers oversaw the manufacture of munitions and the development of chemical weapons Doctors sustained soldiers in the trenches and treated the physically and psychologically damaged Public servants lawyers and translators were employed in the war bureaucracy while artists and writers found new modes to convey the trauma of war The graduates and staff of Australia's six universities Sydney Melbourne Adelaide Tasmania Queensland and Western Australia and Queensland were involved in this expansion of expertise But what did these men and women do after the guns were silenced How were the professions and universities transformed by the immediate and longer term impacts of the war The First World War the Universities and the Professions examines how the technical and conceptual advances that occurred during World War I transformed Australian society It traces the evolving role of universities and their graduates in the 1920s and 1930s the increasing government validation of research the expansion of the public service and the rise of modern professional

associations and international networks While the war contributed to greater specialisations in traditional professions such as teaching or medicine it also stimulated new jobs and training whether in economics anthropology or graphic art This volume provides a new account of the interwar years that places knowledge and expertise at the heart of the Australian story Its four sections The Medical Sciences Science and Technology Humanities Social Sciences and Teaching and The Arts Design Music and Writing highlight how World War I disrupted and shaped the careers of individuals as well as the development of Australian society and institutions

Social Influences on Information and Communication Technology Innovations Tatnall, Arthur, 2012-05-31 It has been over twenty years since developments in actor network theory were first written on paper Since then the Information and Communication Technologies ICT community has begun to discover the power of using actor network theory as an explanatory framework for much of its research This research community has come to an understanding that information systems are of necessity socio technical in nature and require a socio technical approach to their investigation Thanks to developments in actor network theory researchers can now approach people and technology as one single entity that gives support to social influences on technological innovations Social Influences on Information and Communication Technology Innovations discusses in great detail the use of actor network theory in offering explanations for socio technical phenomena focusing greatly on information communication technologies Implementation and use of information and communication technologies inevitably involves the interactions of both technology and people This publication facilitates international growth in the body of research investigating the value of using actor network theory as a means of understanding socio technical phenomena and technological innovation

Colonial Voices Joy Damousi, 2010-06-17 Innovative study of the role of language in the civilising project of the British Empire in colonial Australia **The Shop** Richard Joseph Wheeler Selleck, 2003 Telling as much a social educational and cultural story as institutional history this detailed account chronicles the ideological patterns internal and countrywide conflicts and student experiences at the University of Melbourne from 1850 to 1939 The daily life of staff professors and students are recounted during times of turmoil and peace in Australia including the depression of the 1890s and World War I The account offers a window into the pedagogical conflicts and research achievements of one of Australia's oldest continuing educational institutions

Protecting the Future Sarah Holdsworth, Tricia Caswell, 2004 Showcases examples of the practical implementation of global sustainability and the triple bottom line plus one comprising environmental social and cultural economic and governance dimensions in the scholarship and operations of RMIT University Institutions of Higher Education Linda Sparks, 1990-01-24 This bibliography brings together in one comprehensive volume citations of books dissertations theses and ERIC microfiche relating to the history of specific institutions of higher education worldwide All types of postsecondary institutions two years colleges liberal arts colleges seminaries specialized institutions and universities are included Entries include the following elements when available author editor title place of publication

publisher publication date and number of pages Citations from 85 countries are included Entries are by country dependency and territory The United States has been further divided by state Names of institutions are in English References are in the language in which they were written The majority of the citations should be available in a library somewhere in the United States Obscure sources that may be difficult to obtain have been included because they are often the only citation All editions of a title as well as older works are included because of their potential value to a researcher The book should be a part of all college university and large public library collections College of Education faculty members specializing in higher or comparative education will find much of value here **Utopian Universities** Miles Taylor, Jill Pellew, 2020-11-12 In a

remarkable decade of public investment in higher education some 200 new university campuses were established worldwide between 1961 and 1970 This volume offers a comparative and connective global history of these institutions illustrating how their establishment intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s With an impressive geographic coverage using case studies from Europe the Americas Africa and Asia the book explores how these universities have influenced academic disciplines and pioneered new types of teaching architectural design and student experience From educational reform in West Germany to the establishment of new institutions with progressive interdisciplinary curricula in the Commonwealth the illuminating case studies of this volume demonstrate how these universities shared in a common cause the embodiment of utopian ideals of living learning and governance At a time when the role of higher education is fiercely debated *Utopian Universities* is a timely and considered intervention that offers a wide ranging historical dimension to contemporary predicaments **Wireless and Empire** Aitor Anduaga Egaña, Aitor Anduaga, 2009-02-19 Although the product of consensus politics the British Empire was based on communications supremacy and the knowledge of the atmosphere Focusing on science industry government the military and education this book studies the relationship between wireless and Empire throughout the interwar period **Archibald Liversidge, FRS** Roy

MacLeod, 2009-12-14 When Archibald Liversidge first arrived at Sydney University in 1872 as reader in geology and assistant in the laboratory he had about ten students and two rooms in the main building In 1874 he became professor of geology and mineralogy and by 1879 he had persuaded the senate to open a faculty of science He became its first dean in 1882 Liversidge also played a major role in the setting up of the Australasian Association for the Advancement of Science which held its first congress in 1888 For anyone interested in Archibald Liversidge his contribution to crystallography mineral chemistry chemical geology strategic minerals policy and a wider field of colonial science **A Place Apart** John Riddoch

Poynter, Carolyn Rasmussen, 1996-01-01 A highly readable history of the University of Melbourne that examines its growth from a small provincial institution educating the elite of a relatively narrow society to a major teaching and research institution changes of a magnitude which could never have been envisaged in 1935 when the story begins *Wireless and Empire* Aitor Anduaga, 2009-02-19 Although the product of a self proclaimed consensus politics the British Empire was

always based on communications supremacy and the knowledge of the atmosphere Using the metaphor of a thread of five pieces representing the categories science industry government the military and the education this is the first book to study the relations between wireless and Empire throughout the interwar period It is also the first to make full use of the abundant archive material and rich sources existing in Britain and the Dominions The book examines the evolving connection between the development of imperial radio communications and atmospheric physics the expansion and strength of the British radio industry and its relationship with the elucidation of the ionosphere and the different extent to which Australia Canada and New Zealand managed to emulate the British model of radio R D in the interwar years The book ends with a highly original and provocative epilogue The realist interpretation of the atmosphere A Flying Life David Crotty,2010 The flying career of John Robertson Duigan spanned just a decade from 1908 to 1918 100 years ago he built and successfully flew the first aeroplane made in Australia using only photographs journal articles and an unreliable textbook as his guides He was the first Australian to fly a powered Australian made aeroplane in Australia The full story of John Duigan and his flying career has now been published for the first time An article about the flying career of John Duigan is featured here in The Age

Languages other than English in Australian Higher Education Jennifer Joan Baldwin,2019-01-29 This book researches the study of languages other than English and their place in the Australian tertiary sector Languages are discussed in the context of the histories of Australian universities and the series of reports and surveys about languages across the second half of the twentieth century It demonstrates how changes in the ethnic mix of society are reflected in language offerings and how policies on languages have changed as a result of societal influences Also discussed is the extent to which influencing factors changed over time depending on social cultural political and economic contexts and the extent to which governments prioritised the promotion and funding of languages because of their perceived contribution to the national interest The book will give readers an understanding as to whether languages have mattered to Australia in a national and international sense and how Australia s attention to languages has been reflected in its identity and its sense of place in the world **A Century Exposed** Alan Elliott,1991
