**Technical Cooperation Activities: Beekeeping** Wilhelm Drescher, Eva Crane, 1982 **Publications of the International Agricultural Research and Development Centers**, 1989 **Peace Corps Times**, 1984 The World History of Beekeeping and Honey Hunting Eva Crane, 1999-10-13 First published in 2000 This comprehensive book represents the first attempt to write a world history of people's use of social bees how bees nests were initially hunted for their honey and wax and later how the bees were kept in purpose made hives Evidence survives from early times in the form of artefacts pictures and written records and also human traditions of dealing with bees Since 1949 the author has had opportunities to travel in over sixty countries and to see traditional and modern hive beekeeping and also honey collection from nests She learned much that helped her to piece together some of the long history in the different continents

Globalization and New Geographies of Conservation Karl S. Zimmerer, 2006-09-15 Examining the geographical dimensions of environmental management and conservation activities implemented on landscapes worldwide Globalization and New Geographies of Conservation creates a new framework and collects original case studies to explore recent developments in the interaction of humans and their environment Globalization and New Geographies of Conservation makes four important arguments about the recent coupling of conservation and globalization that is reshaping the place of nature in human environmental change First it has led to an unprecedented number of spatial arrangements whose environmental management goals and prescribed activities vary along a spectrum from strict biodiversity protection to sustainable utilization involving agriculture food production and extractive activities Conservation and globalization are also leading by necessity to new scales of management in these activities that rely on environmental science thus shifting the spatial patterning of humans and the environment This interaction results as well in the unprecedented importance of boundaries and borders transnational border issues pose both opportunities and threats to global conservation proposed by organizations and institutions that are themselves international Lastly Globalization and New Geographies of Conservation argues that the local level has been integral to globalization while the regional level is often eclipsed at the peril of the successful implementation of conservation and management programs Bridging the gap between geography and life science Globalization and New Geographies of Conservation will appeal to a broad range of students of the environment conservation planning biodiversity management and development and globalization studies

**Commercial Insects** Professor Omkar, 2023-12-22 Despite being the biggest group of organisms inhabiting Earth in both diversity and sheer numbers insects are barely commercialized Most of the standard textbooks of applied entomology talk about insect pest management and when it comes to commercial aspects of insects only apiculture sericulture and lac culture are talked about This book will help bring other commercial uses of insects and their economic potential to the fore This will generate interest in further research on the commercial potential of insects thereby harnessing a much found resource The book has the following salient

features 1 Encompasses all major aspects of beneficial and commercial insects 2 Deals with edible insects and mass culture of natural enemies and beneficial insects 3 Emphasis on the mass cultivation of beneficial insects for obtaining yields 4 Discusses stingless bees and their products 5 Helps to solve the problem of food scarcity and improve food security     How to live and survive in Zambezian open forest (Miombo ecoregion) Françoise Malaisse, 2010 In the Miombo ecoregion 2 865 000 km or 9 1% of Africa the Zambezian open forest constitutes the main vegetation unit It extends to no less than eight countries from Burundi in the North to South Africa in the South and from Angola in the West to Mozambique in the East The austral part of Africa s open forests falls within the Zambezian Regional Center of Endemism outlined by White in 1983 This book focuses mainly on the wetter Zambezian Miombo woodlands Also patches of mosaic Zambezian dry evergreen forests and small areas of grasslands on Kalahari sands are incorporated in the study The aim of this book is to gather together the amazing local environment knowledge of Zambezian open forests peoples in order to permit an easier improvement of their well being This research has been developed in an ethnoecological way of thinking Indeed the synergy arising from putting together local knowledge and updated ecological research provides huge information on ecosystem management including biodiversity aspects Ethnoecology is an emergent field that focuses on local peoples perception and management of complex and co evolved relationships between the cultural ecological and economic components of anthropogenic and natural ecosystems In the present book the Zambezian wild edible products are treated according to fourteen items from fungi plants and honey to beverages and salt through mammals birds fish insects and other animals Some other comments concern agriculture and ethnoecology All together more than a thousand edible products are involved their ecology their phenology as well as their nutritional values are presented and discussed The iconography is supported by a CD with 387 color photographs The earlier French version of 1997 has been reviewed and enlarged taking into account recent progress of knowledge An important bibliography is presented     Bee World ,1997     International Books in Print ,1997     **The Field Directors' Handbook** Brian Pratt, Jo Boyden, 1985 This Oxfam manual provides a broad outline of some of the main practical issues that confront development in the third world The handbook is divided into eight parts The first three sections cover major principles of development crucial to all programs and include an outline of procedures for putting basic principles into practice The rest of the book including sections on disaster agriculture and health gives more detailed treatment of specific types of programs At the end of each part is a checklist of questions which summarizes the issues that must be addressed before commencing any program In addition the editors have provided ample references to readily accessible sources of information     Bees and Beekeeping Eva Crane, 1990 This is a presentation of the scientific principles underlying beekeeping management and their practical application in different conditions It gives an account of honeybees as a world resource both in producing honey and other hive products and as pollinators that increase yields of seed and fruit crops It tries for the first time to present an integrated picture with a brief summary of its history of world beekeeping in various

continents It is the authors intention that readers will experiment with new ways in which beekeeping methods and equipment might be improved still further and with the application of new technologies and materials seek fresh conceptual approaches to beekeeping problems

**Beekeeping for Poverty Alleviation and Livelihood Security** Rakesh Kumar Gupta,Wim Reybroeck,Johan W. van Veen,Anuradha Gupta,2014-09-30 This Book intends to address all aspects needed to develop beekeeping into a powerful instrument of rural development and will focus on beekeeping as a tool for Poverty Alleviation and Livelihood security In the backdrop of the social and economic issues of the people living in poverty region the book aims to delineate specific motivation approaches to engage them in beekeeping and will serve as a guide for effective marketing through diversification and value addition of bee products Nevertheless marketing and environmental issues will remain an important component of this book The aim is also to focus on indirect benefit of beekeeping so that it is integrated with farming and nature conservation Other topics include ensuring the provision of practical techniques in handling and management of bees It will provide detailed information on good contacts with policymakers and authorities and channels for attracting finance especially in the third world countries An interdisciplinary approach is the key feature of the book and it will also focus on few case histories and success stories to encourage the reader to take up beekeeping as a new venture gradually in a phased manner like traditional transitional and modernized beekeeping With the publication of this book we hope to hand out a practical guide that will assist all those who are involved in beekeeping for development We hope it will stimulate beekeeping as an integrated activity with farming and nature conservation and will serve in many households for poverty alleviation and livelihood security
