Technique And Practice Of Object Relations Family Therapy:

The Technique and Practice of Object Relations Family Therapy Samuel Slipp, 1988 Family Therapy Techniques
Jon Carlson, Len Sperry, Judith A. Lewis, 2013-01-11 Family Therapy Techniques briefly reviews the basic theories of marriage and family therapy. It then goes into treatment models designed to facilitate the tailoring of therapy to specific populations and the integration of techniques from what often seems like disparate theories. Based on the assumption that no single approach is the definitive approach for every situation, the book leads students through multiple perspectives. In teaching students to integrate and tailor techniques, this book asks them to take functional methods and approaches from a variety of theoretical approaches without attempting to reiterate the theoretical issues and research covered in theories courses.

Family Therapy Alan Carr, 2006-03-30 Alan Carr has once more demonstrated his unique ability to combine an encyclopaedic breadth of knowledge with clear pragmatic ideas about how to apply this knowledge in clinical practice. The 2nd edition of this book is more than just an update with new sections on common factors in therapy and on integrative models of family therapy which are particularly welcome. Ivan Eisler, Institute of Psychiatry, Kings College London, UK, Editor, *Journal of Family Therapy*. Carr's style of comprehensively considering different theories and approaches in a practical manner and demonstrating their integrative and cohesive properties is exceptionally helpful and grounding for the reader. There is little doubt that this volume will well serve students, trainees, and experienced practitioners for sometime to come. Eddy Street, Former Editor of *Journal of Family Therapy*. Now in its second edition, *Family Therapy: Concepts, Process and Practice* has been fully updated to cover recent advances in theory and practice. It offers a critical evaluation of the major schools of family therapy, provides an integrative model for the practice of marital and family therapy, and demonstrates how this model can be used in everyday practice with a range of common child-focused and adult-focused problems. It also provides a thorough up-to-date review of research on the effectiveness of family therapy and outlines implications for evidence-based practice. This popular text now includes exercises that can be used by trainers and trainees to foster family therapy skills development. Other key features from the first edition are retained, including Chapter plans at the start of each chapter and a helpful summary of key points at the end. Suggestions for further reading, Glossary of key terms in theoretical chapters, Case examples. Full details of resources for professionals, including useful web sites. *Family Therapy: Concepts, Process and Practice* is a must-have resource for all students and mental health professional training in family therapy. It will also be of interest to experienced practitioners and those who are involved in delivering training programmes. *Handbook of Marriage and the Family* Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars, educators, and practitioners in the field of marriage and family life, we first need to know where we have been. A perusal of early texts on marriage and family life provides some thought-provoking insights into the accuracy of the saying 'what goes around comes around'. It is interesting to note who has been considered to be in a position to provide information on marriage

and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p Psychodynamic Treatment Approaches to Psychopathology, vol 2, An Issue of Child and Adolescent Psychiatric Clinics of North America Rachel Z Ritvo, Schuyler W.
