The Heroin Epidemics A Study Of Heroin Use In The United States 1965 75:

NIDA Research Monograph ,1976 **The Epidemiology of Heroin and Other Narcotics** National Institute on Drug Abuse. Division of Research,1977 The Division of Research expresses its thanks to the staff of the Stanford Research Institute for its implementation of the Task Force sessions and for its assistance in preparing resulting papers for monograph publication **The ^AWorld Heroin Market** Letizia Paoli,Victoria A. Greenfield,Peter Reuter,2009-04-10 This book is the first attempt to describe and analyze the world opiate market It looks at how the Taliban achieved a cutback in heroin production in Afghanistan a longtime goal of national and international drug policy agencies and how that cutback impacted the very robust global market for the drug Based on this and other country studies the authors show that internationally supported interventions on the supply side can open up limited opportunities for curbing consumption **Fighting Back** Robert C. Davis,Arthur J. Lurigio,1996-04-10 Robert C Davis and Arthur J Lurigio present a balanced and reasoned review of what citizens with the help of police and other authorities can do to reduce drug related crime in their neighborhoods The message is timely clear helpful and hopeful Fighting Back successfully brings together recent and emerging research in community antidrug efforts indigenous and implanted police based strategies and civil abatement procedures The authors examine what is and what is not working to mitigate one of America s most pressing social problems neighborhood based drug trafficking Janice A Roehl Ph D Vice President Institute for Social Analysis Pacific Grove California Fighting Back is a delightful book and will add significantly to the field It is the first comprehensive book that covers different strategies used to restore order and health to our troubled communities Because the book covers a number of strategies it is relevant to many different disciplines Its breath is refreshing and offers a perspective of hope in a field that is often filled with doom and gloom This book is useful to a wide audience to learn about programs that address this problem Faye S Taxman University of Maryland at College Park Illicit drugs continue to pose a serious challenge to society particularly inner city communities Featuring the latest empirical research Fighting Back takes a close look at the partnerships law enforcement and grassroots citizen groups are forming to prevent and discourage drug dealing The authors thoroughly examine police based citizen based and shared responsibility strategies through case studies citing never before published or newly released investigations Using an eclectic multidisciplinary approach Robert C Davis and Arthur J Lurigio provide a detailed discussion of both theoretical and programmatic issues critical to this ongoing social problem With an emphasis on how drug use and related crime and violence affect the well being and vitality of neighborhoods this volume offers informed and hopeful observations for effective cooperative strategies for restoring drug affected communities Professionals and students in many different disciplines including law enforcement corrections criminal justice community psychology sociology urban affairs and public policy will find Fighting Back a comprehensive resource on the cooperative efforts of citizenry and the law to curtail drug dealing *Handbook on Drug Abuse* ,1979 *Saying Yes* Jacob Sullum,2004-05-11 The nationally syndicated

columnist and Reason magazine editor presents a damning portrait of how politicized government agencies antidrug activists and a naive national media have exaggerated the public's fears of the harmful effects of recreational drugs Jacob Sullum goes beyond the debate on legalization or the proper way to win the war on drugs to the heart of a social and individual defense of using drugs Saying Yes argues that the all or nothing thinking that has long dominated discussions of illegal drug use should give way to a wiser subtler approach exemplified by the tradition of moderate drinking Saying Yes further contends that the conventional understanding of addiction portraying it as a kind of chemical slavery in which the user's values and wishes do not matter is also fundamentally misleading **America's Longest War** Steven B. Duke, Albert C. Gross, 2014-06-24

America's war on drugs It makes headlines tops political agendas and provokes powerful emotions But is it really worth it That's the question posed by Steven Duke and Albert Gross in this groundbreaking book They argue that America's biggest victories in the war on drugs are the erosion of our constitutional rights the waste of billions of dollars and an overwhelmed court system After careful research and thought they make a strong case for the legalization of drugs It's a radical idea but has its time come *Controlology* J.R. Ditton, 1979-05-02 The Last Half-Century Morris Janowitz, 1978 The Last Half Century represents the culmination of a lifetime of scholarship by Morris Janowitz In this comprehensive and systematic analysis of the major trends in American society during the past fifty years he probes the weakening of popular party affiliations and the increased inability of elected representatives to rule Centering his work on the crucial concept of social control Janowitz orders and assesses a vast amount of empirical research to clarify the failure of basic social institutions to resolve our chronic conflicts For Janowitz social control denotes a society's capacity to regulate itself within a moral framework that transcends simple self interest He poses urgent questions Why has social control been so drastically weakened in our advanced industrial society And what strategies can we use to strengthen it again The explanation rests in part on the changes in social structure which make it more and more complicated for citizens to calculate their political self interest At the same time complex economic and defense problems also strain an already overburdened legislative system making effective responsive political rule increasingly difficult Janowitz concludes by assessing the response of the social sciences to the pressing problem of social control and asserts that new forms of citizen participation in the government must be found *Drugs of Abuse: The International Scene* Mangai Natarajan, 2017-05-15 Globalization and attendant

modernization has increased both the supply and the demand for drugs around the world Drug abuse is no longer the concern of only the developed world Countries without histories of drug use particularly developing countries are now reporting problems of abuse because they have become transit points for international drug trafficking Because the problem is now worldwide a global strategy is needed for identifying analyzing and developing strategies to deal with drug abuse and the associated problems for health and safety This volume reviews the international status of drug abuse Specific topics covered include drug abuse in the developing world emerging drugs and poly drug use gateway drugs cultural views of drug

use and state of the art methodologies employed in research on drug abuse Drugs and Crime Richard Hammersley,2015-01-28 Why are we so concerned about drugs and crime Is the relationship between drug taking and criminal behaviour as straightforward as it is sometimes made to appear What should be done about the problem This thought provoking book argues that much current thinking about drugs and crime is simplistic and misguided because it fails to take into account the complex social and psychological contexts that underpin the relationship between drug or alcohol problems and crime In clear and accessible language it reviews existing explanations of the links between drugs and crime and assesses the practical approaches currently being taken to tackle the problems involved Key topics covered include The kinds of substance uses society finds acceptable and normal and the reasons for these categorisations What causes offending drug use and drug problems across the life course Regulating the illicit drugs industry Addressing poverty and social exclusion which are key drivers of drugs and crime Drugs and crime are of concern to us all This textbook will be of great value to advanced undergraduate and graduate students across the social sciences and in health and social care including those studying criminology psychology medical sociology social policy social work or criminal justice It will also be of interest to academics practitioners and policy makers in these fields **The Face of Social Suffering** Merrill Singer,2005-11-16 This brief compelling life story of a drug addict poses and answers questions of broad public concern about social responsibility illicit drug use hidden economies and social inequality Merrill Singer a medical anthropologist involved in the public health impact of alcohol and illicit drug use conducted interviews over a seven year period with Tony a street drug addict who grew up in the inner city Tony learned the ways of using and selling drugs from his father became an enforcer in a street gang spent considerable time in prison committed seemingly heartless violent acts and has had to struggle with the knowledge that he suffers from HIV infection Tonys life story is an insider personal view of a tumultuous marginalized world that intertwines closely with the wider social milieu constructed and sustained by the U S political economy Unique to this book is its attempt to understand the forces that contribute to the risky behavior of drug use even at a time when drug users know about its deadly and damaging connection to diseases like HIV and hepatitis Tonys story demonstrates that none of us make choices in a vacuum Further the book addresses important issues about how structures of social inequality in our society impact the lives and options of those at the bottom of the social ladder **Journal of Alcohol and Drug Education** ,1980 **Public Health Reports** ,1984 **Bibliography of the History of Medicine** ,1979 **Heroin Addiction and Drug Policy** John Strang,Michael Gossop,1994 The British System is known world wide as a highly effective means of managing heroin addiction Drs Strang and Gossop have for many years been actively involved in research into clinical practice In this book they present an overview of British drug policy set in the context of international activities with contributions from key figures in the field covering both historical and contemporary aspects of the evolving British System Several contributors give previously unrecorded accounts of events during critical phases in the evolution of the UK response

to illicit drug use while others outline the critical issues within today's policy reviews

Nelson Rockefeller's Dilemma Marsha E. Barrett, 2024-08-15
Nelson Rockefeller's Dilemma reveals the fascinating and influential political career of the four-time New York State governor and US vice president Marsha E. Barrett's portrayal of this multi-faceted political player focuses on the eclipse of moderate Republicanism and the betrayal of deeply held principles for political power. Although never able to win his party's presidential nomination, Rockefeller's tenure as governor was notable for typically liberal policies: infrastructure projects, expanding the state's university system, and investing in local services and the social safety net. As the Civil Rights movement intensified in the early 1960s, Rockefeller envisioned a Republican Party recommitted to its Lincolnian heritage as a defender of Black equality. But the party's extreme right wing, encouraged by its successful outreach to segregationists before and after the nomination of Barry Goldwater, pushed the party to the right. With his national political ambitions fading by the late 1960s, Rockefeller began to tack right himself on social and racial issues, refusing to endorse efforts to address police brutality, accusing without proof Black welfare mothers of cheating the system, or introducing harsh drug laws that disproportionately incarcerated people of color. These betrayals of his own ideals did little to win him the support of the party faithful, and his vice presidency ended in humiliation rather than the validation of moderate ideals. An in-depth, insightful, and timely political history, Nelson Rockefeller's Dilemma details how the standard bearer of moderate Republicanism lost the battle for the soul of the Party of Lincoln, leading to the mainlining of white grievance populism for the post-civil rights era.

Drug Dependence and Alcoholism Arnold J. Schechter, 2013-11-11
Determination and treatment of the unique needs of each addicted individual is a prerequisite to rehabilitation. General descriptions of large subgroups of the addicted population may only serve to identify issues pertinent to treatment and global treatment needs. However, specification of services needed is a first step in incorporating these in treatment. Clearly, women in treatment need many services which currently are not typically available and may be critical for successful treatment of many of these women.
