**Translation and Adaptation in Theatre and Film** Katja Krebs, 2013-08-15 This book provides a pioneering and provocative exploration of the rich synergies between adaptation studies and translation studies and is the first genuine attempt to discuss the rather loose usage of the concepts of translation and adaptation in terms of theatre and film At the heart of this collection is the proposition that translation studies and adaptation studies have much to offer each other in practical and theoretical terms and can no longer exist independently from one another As a result it generates productive ideas within the contact zone between these two fields of study both through new theoretical paradigms and detailed case studies Such closely intertwined areas as translation and

adaptation need to encounter each other's methodologies and perspectives in order to develop ever more rigorous approaches to the study of adaptation and translation phenomena challenging current assumptions and prejudices in terms of both. The book includes contributions as diverse yet interrelated as Bakhtin's notion of translation and adaptation, Bollywood adaptations of Shakespeare's *Othello* and an analysis of performance practice itself, arguably an adaptive practice which uses a variety of languages from English and Greek to British and International Sign Language. As translation and adaptation practices are an integral part of global cultural and political activities and agendas, it is ever more important to study such occurrences of rewriting and reshaping. By exploring and investigating interdisciplinary and cross-cultural perspectives and approaches, this volume investigates the impact such occurrences of rewriting have on the constructions and experiences of cultures while at the same time developing a rigorous methodological framework which will form the basis of future scholarship on performance and film translation and adaptation.

Projecting Empire James Chapman, Nicholas J. Cull, 2009-06-17 Popular cinema is saturated with images and narratives of empire. With *Projecting Empire*, Chapman and Cull have written the first major study of imperialism and cinema for over thirty years. This welcome text maps the history of empire cinema in both Hollywood and Britain through a series of case studies of popular films including biopics, adventures, literary adaptations, melodramas, comedies, and documentaries from the 1930s and *The Four Feathers* to the present with *Indiana Jones* and *Three Kings*. The authors consider industry-wide trends and place the films in their wider cultural and historical contexts. Using primary sources that include private papers, they look at the presence of particular auteurs in the cinema of Imperialism, including Korda, Lean, Huston, and Attenborough, as well as the actors who brought the stories to life, such as Elizabeth Taylor and George Clooney. At a time when imperialism has a new significance in the world, this book will fulfil the needs of students and interested filmgoers alike.

**Visual Intelligence** Ann Marie Barry, 1997-01-01 Cuts across perceptual psychology, art, television, film, literature, advertising, and political communication to give the reader critical insight into the holistic logic and emotional power of the images that dominate our lives.

**Past and Present** James Chapman, 2005-09-23 This ground-breaking book takes as its focal point director Ken Loach's view that 'The only reason to make films that are a reflection on history is to talk about the present.' In the first book to take on this major genre in all its complexity, James Chapman argues that historical films say as much about the times in which they are made as about the past they purport to portray. Through in-depth case studies of fourteen key films spanning the 1930s up to the turn of the twenty-first century, from *The Private Life of Henry VIII* and *Zulu* to *Chariots of Fire* and *Elizabeth*, Chapman examines the place of historical films in British cinema history and film culture. Looking closely at the issues that they present, from gender, class, and ethnicity to militarism and imperialism, he also discusses controversies over historical accuracy and the ways in which

devices such as voice overs title captions and visual references to photographs and paintings assert a sense of historical verisimilitude Exploring throughout the book the dialectical relationship between past and present Chapman reveals how such films promote British achievements but also sometimes question them and how they project images of Britishness to audiences both in the UK and internationally

**Jean Epstein** Christophe Wall-Romana,2016-05-16 If cinema can be approached as poetry and philosophy it is because of Jean Epstein Cocteau Bu uel who was his assistant Hitchcock Pasolini and Godard and theoreticians Kracauer Deleuze and Ranciere are directly influenced by Epstein's pioneering film work writings and concepts This book is the first in English to examine his oeuvre comprehensively An avant garde artist and an anti elitist intellectual Epstein wanted to craft moments of pure transformative cinema Using familiar genres melodramas and documentaries he hoped to heal viewers of all classes and hasten social utopia A lover of cinema as cognitive and sensorial technology and a poet of the screen he pushed cinematography as photography towards the experimental sublime through daring close ups rhythmic montage slow motion even reverse motion Polish born half Jewish and the author of a treatise on homosexuality Epstein has been unfairly relegated to the shadows of film history This book restores him to the limelight of interwar world cinema on a par with Renoir Lang Capra and Eisenstein
